General Orders by the Most Noble the Governor General of India in Council.

Fort William, 25th August 1854.

No. 861 *of* 1854.—It having been found that the arrangement directed in Article 12 of Government General Order No. 876, of the 28th October 1853, in cases of the condemnation of the Meat Rations of the European Troops, cannot be easily carried out with Regiments serving in the Hill Stations, in consequence of the resources of the Bazars not being equal to the supply of the wants of the Troops, the Most Noble the Governor General of India in Council is pleased to decide that, when the Meat Rations of Regiments located in the Hills are condemned as of inferior quality, but not unwholesome, they may still be issued.

2. It will be the duty, however, of the Commissariat Department, in such cases, to enforce the penalties of the Contract, precisely in the same manner as if the Meat had been absolutely rejected; but to guard against frivolous or insufficient grounds of objection, (which will necessarily have the effect of entailing undue loss upon the Contractor,) it will be optional with the Commissariat Officer, when he dissents from the opinion of the Regimental Committee, to appeal to the judgment of a Special Committee, which shall always be final.

3. When the Meat Rations are pronounced of inferior quality, but are still deemed fit to be issued, no portion of the fine that may be levied upon the Contractor for the inferiority of quality shall be paid to the Regiment.

4. In the event of the absolute rejection of the Rations as unwholesome, it is left discretionary with the Officer commanding the Regiment, either to cause the arrangement in Article 12 of Government General Order No. 876, of 28th October 1853, to be carried out if practicable, or to have the Meat exchanged by the Contractor.

Rangoon Post Office Notice.

LETTERS and Newspapers, which should be addressed to RANGOON only, are frequently directed by mistake to Pegu or Burmah, and letters, &c. intended for delivery in Pegu, Prome, Bassein and other places in the Provinces, are in like manner erroneously addressed to "Rangoon, Burmah." The Rangoon Post Master begs to notify that, with such *vague* directions, this Department is left to find out to which of the Stations such letters should be forwarded, and from want of information, great disappointment is felt when they are despatched to the wrong Station To obviate this, it is desirable, that parties

posting letters in Calcutta or elsewhere, should be careful to direct them to their respective Stations, and to inform their Agents and Correspondents, when leaving one place for another, of their change of address, to ensure letters being directed to the proper Station. A list of places in the Pegu Provinces or in Burmah, and their distance from Rangoon, is annexed below, *viz.*:

Donabew, ...	40	miles

Letters addressed to public functionaries, whose head-quarters or residence is in Rangoon, should be addressed "Rangoon," instead of Pegu or Burmah; but if intended for delivery at other Stations, should be addressed to those Stations, the word Rangoon to be omitted.

Notice to Mariners.

DEVAAR LIGHTHOUSE.

THE COMMISSIONERS of NORTHERN LIGHTHOUSES hereby give Notice, that a LIGHTHOUSE has been built upon the ISLAND of DEVAAR, at the Entrance to the BAY of CAMPBELTOWN, in the County of ARGYLL, the Light of which will be exhibited on the Night of MONDAY 10th July 1854, and every Night thereafter, from the going away of daylight in the evening till the return of daylight in the morning.

The following is a Specification of the Lighthouse, and the Appearance of the Light, by MR. DAVID STEVENSON, *Engineer to the Commissioners.*

The LIGHTHOUSE is in N. Lat. 55° 23′ 45″, and W. Long. 5° 32′ 16″.

The DEVAAR LIGHT will be known to Mariners as a REVOLVING LIGHT, which shows a bright white Light once every half-minute.

The Light is elevated about 120 feet above the level of high water of ordinary spring tides, and may be seen at the distance of about 15 nautic miles, and at lesser distances, according to the state of the atmosphere: to a nearer observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness. The arc, illuminated by this Light, extends from about S. ¼ E. by compass to about W *b.* N., and faces Northwards.

And the COMMISSIONERS hereby further GIVE NOTICE, that Her Majesty, by Order in Council, dated 29th December 1853, was pleased to order and direct that, upon the Erection and Lighting of the said Light upon the Island of Devaar, there should be paid, in respect thereof, for every Vessel belonging to the United Kingdom of Great Britain and Ireland (the same not belonging to Her Majesty or being navigated wholly in ballast) and for every Foreign Vessel, which by any Act of Parliament, Order in Council, Convention or Treaty, shall be privileged to enter the Ports of the United Kingdom, upon paying the same Duties of Tonnage as are paid by British Vessels, the same not being navigated wholly in ballast, which shall pass or derive benefit from the said Light, that is, which shall arrive at or depart from any Port or Place in the Bay or Loch of Campbeltown, if the burthen of the same shall not exceed Fifty Tons, Six-pence, and if the same shall exceed Fifty Tons, for each additional Fifty Tons, or part of Fifty Tons, Six-pence.

And Her Majesty was further pleased to order and direct, by the said Order in Council, that in respect of the said Light on Devaar, and in respect of another light in Loch Ryan, on the South side of the Basin of the Clyde erected by the said Commissioners, there shall be paid by every Vessel before described, and under the exemptions aforesaid, which shall navigate on a distinct voyage within the Great Basin of the Clyde, bounded by a line drawn from the Point of Corsewall to Glenarm in Ireland, on the South-east, and from another line drawn from the Mull of Kintyre to Fairhead, in Ireland, on the North-west, and on all other sides by the coasts of Ireland and Scotland surrounding the said Basin, a similar rate of Toll to that above

set forth, being at the rate of Three-pence for each of the said Lights.

Double the said respective Tolls for every Foreign Vessel not privileged as aforesaid.

Provided always, that Vessels arriving at or departing from any port or place within Loch Ryan, or within Campbeltown Loch, and paying the rates for such respective voyages, shall not in addition be liable in payment of the rates for navigating the Basin of the Clyde.,

The above rates are, by another Order in Council, declared to be subject to the following abatements on payment :—

Over-sea Vessels, Twenty-five per cent.
Coasting Vessels, Ten per cent.

THE Deputy Post Master General regrets to inform the public, that from a communication received from the Post Master of Tezpore it appears, that the Calcutta Mails of the 22nd ultimo, for Tezpore, Assam, Seebsaugor and Debrooghur, and also the Mails for those places sent from Gowhatty and Mungledye on the 31st idem, were totally lost, with the Dak Boat, on the night of the latter date, at "Pobamaree Chapree," a little above Mungledye. The accident is attributable to the falling in of the bank, which fell on the boat, and caused the same to sink immediately.

Rangoon Post Office Notice.

LETTERS and Newspapers, which should be addressed to RANGOON only, are frequently directed by mistake to Pegu or Burmah, and letters, &c. intended for delivery in Pegu, Prome, Bassein and other places in the Provinces, are in like manner erroneously addressed to "Rangoon, Burmah." The Rangoon Post Master begs to notify that, with such *vague* directions, this Department is left to find out to which of the Stations such letters should be forwarded, and from want of information, great disappointment is felt when they are despatched to the wrong Station. To obviate this, it is desirable, that parties posting letters in Calcutta or elsewhere, should be careful to direct them to their respective Stations, and to inform their Agents and Correspondents, when leaving one place for another, of their change of address, to ensure letters being directed to the proper Station. A list of places in the Pegu Provinces or in Burmah, and their distance from Rangoon, is annexed below, *viz.*:

Donabew,	40	miles
Pegu,	55	,,
Sittang,	67	,,
Shoaygyeen,	90	,,

Letters addressed to public functionaries, whose head-quarters or residence is in Rangoon, should be addressed "Rangoon," instead of Pegu or Burmah; but if intended for delivery at other Stations, should be addressed to those Stations, the word Rangoon to be omitted.

FORT WILLIAM,
FINANCIAL DEPARTMENT

The 25th August 1854.

The Most Noble the Governor General in Council is pleased to direct that the following Despatches from the Hon'ble the Court of Directors and the Rules passed in conformity with the instructions therein conveyed, be published for general information :—

PUBLIC DEPARTMENT.

No 23 OF 1854

Our Governor General of India in Council

1. By the provisions of Section 32 of the new Act for the Government of India the prohibition of the receipt by our Servants, of any part of their Indian Allowances while absent in Europe is repealed, and as the legal obstacle to carrying out our views for the complete revision of the Rules for the grant of Leave of Absence to our Civil Servants under Sick Certificate, or on Furlough, is thus removed, we lose no time in conveying our instructions on this important subject, a measure which we have long had in contemplation

Leave on Medical Certificate.

2 The present Rules allow of the absence of Civil Servants from their Stations under Medical Certificate within the limits of their Presidencies, for a period of two years with retention of Office, but subject to a deduction of one-third from the salary thereof for the whole period of absence They allow a Civil Servant to proceed under Medical Certificate to any place beyond the limits of the Presidency to which he belongs, but within the limits of the Company's Charter for any period not exceeding two years, without loss of office, but subject to deductions* from the Salary thereof to the extent specified in the margin

* If salary exceed Rs. 2,000 per month, for the 1st year ⅓th and for the 2nd year ¼th.

If not exceeding Rs 2,000 per month, for the 1st year ⅓ and for the 2nd year ¼th

If not more than Rs. 500 per month, no deduction for the 1st year, and only so much of the ¼th as will reduce it to Rs 500 if above that sum-for the 2nd year ¼th.

3 After having given our best consideration to the subject we propose to adopt the following Rules in lieu of those which have been referred to We do not think it necessary, adverting to the increased facility of communication which has been afforded by the improved means of transport, and which the construction of Railroads in India will further increase, to maintain the restriction as to places and geographical limits which are now imposed by the regulations on Officers absent on Sick Leave We are disposed to permit any Officer of this class to proceed to any place in India, in Europe, or elsewhere, as he may consider most conducive to the restoration of his health, and we intend therefore to impose no restrictions whatever as to the places to which he may resort

4. The following conditions must in future attach to Leaves of Absence granted to Servants who shall have resided ten years and upwards in India, and who may be declared by a sufficient Medical Certificate to require such leave for the recovery of their health

1st The total period of absence with the privileges hereinafter provided, shall not (save as specially excepted in para. 5 of this Despatch) exceed eighteen months in the whole, nor shall it exceed fifteen months on any one occasion.

2*nd*. The Office of the Absentee will be considered to be vacated if he shall be absent beyond eighteen months altogether, or beyond fifteen months at any one time, such absence to be computed, if he shall proceed to a Sanitarium within the Presidency from the date of his arrival thereat, if to any place beyond the Presidency but within the Continent of India from the date of his reaching the limits of his own Presidency, and if he shall proceed to Sea, from the date of the sailing of the vessel on which he may have embarked, from any Port in India which is not more distant from his Station than the Ports of his own Presidency, to the date of his arrival at any Port within the Presidency to which he belongs, or at any other Port which is not more distant from his Station than the Ports of his own Presidency

3*rd*. The Absentee will be entitled to draw a moiety of his Salary, and the same will be paid to him during such period of absence provided that he shall in no case draw a larger sum than Rupees 10,000 (£1000) per annum during that period. In cases in which the emolument of the Absentee's Office does not exceed Rupees 5000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rupees 5,000 (£500) per annum.

4*th*. If the Absentee be compelled by the state of his health, under due Medical Certificate, to remain absent for a longer period than eighteen months, or fifteen months, at any one time, he will as before stated, vacate his appointment, but he will be permitted to receive an allowance at the rate of £500 per annum for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term, all allowance must cease until the Servants return to India.

5. If a Civil Servant of more than fifteen years service after having been absent on Sick Leave for eighteen months in the whole or for fifteen months at one time, at whatever period of his service such Sick Leave shall have been taken shall be again compelled by the same cause to apply for Leave of Absence, your Government and those of the subordinate Presidencies may on special grounds grant Leave of Absence for one further period not exceeding six months, during which the Absentee may retain his Office and half his salary under the limits above enjoined.

6 If a Civil Servant after fifteen years service shall be compelled by ill-health to apply for further Leave of Absence he may be permitted on special grounds to obtain it, but his Absence will involve the loss of Office and Salary, we shall however vest in your Government and in the subordinate Governments respectively, a discretionary power to grant in such last mentioned cases a Sick Absentee Allowance not exceeding Rupees 5,000 or £500 per annum for a further period not exceeding twelve months

7 With regard to Junior Civil Servants who may be compelled by Sickness certified in a similar manner, to quit their Stations before the completion of ten years residence, we have resolved to modify the existing rule by limiting the period of absence to eighteen months, or fifteen months at any one time They will not retain their appointments, but we shall permit them to draw during this period, an allowance at the rate of £250 per annum as at present, and if any Junior Servant absent as aforesaid be prevented by the state of his health under due Medical certificate, from returning to his duty at the end of the periods above-named, he will be permitted to continue absent for a further term not exceeding eighteen months with the same allowance.

8. A Junior Civil Servant having enjoyed either of the above-named advantages will not be entitled to the Leave of Absence provided for Servants of more than ten years service, after he shall have attained that standing, but if after he has attained it, he shall be compelled again by ill-health, to quit his Station, and provided that his former periods of absence shall have fallen short of three years in the aggregate, he may be permitted, under Medical Certificate, to receive a further Leave of Absence for such a period as shall make up the entire length of absence to three years, and during that additional period he shall receive an allowance at the rate of £500 per annum. He will however be entitled after fifteen years service to the benefit of the special leave authorized to be granted according to paras. 5 and 6 of this Despatch.

9. None of the above-mentioned Rules will be applicable to Members of Council, each Member, may however, with the special sanction of the Government, be permitted to be absent under Medical Certificate, for a period not exceeding six months, retaining his Office and receiving half his salary, which shall be paid to him during such absence, but if his absence shall exceed six months his Office will be vacated.

10. The privilege of retaining Office and a portion of salary for a limited period when on Sick Leave, will render it necessary that great attention should be paid to the Medical Certificates which may be produced by applicants for this leave. It is most essential to provide against any abuse of this privilege, and we desire that your immediate attention may be given to this subject with the view of such strict Regulations being framed as may prevent certificates being obtained on insufficient grounds. You will forward to us the Regulations that you may think requisite for this purpose.

Short Leave of Absence on Private Affairs.

11. It appearing that the existing Rules with respect to the grant of Leave of Absence on Private Affairs for short periods work well on the whole, we do not propose to make any change in them. The maximum continuous period for which such leave can be granted (without loss of Office) will therefore continue to be four months, *viz*. one month privilege leave, and three months "special leave" on sufficient cause being shown as provided in the present Rule.

12. We have on many former occasions adverted to the evils connected with the multiplication of *Acting Appointments* and we rely upon your exercising the most vigilant attention that the repeated and particular instructions addressed to you from time to time upon this subject may be carried into effect, and especially those contained in our Financial Letter of the 3rd July 1844, No. 11

13. You will not fail also to recollect, that it is to be held as a principle not to be departed from that no expense to Government is to ensue from the absence of Officers from their Stations whether on Sick Leave or on short Furlough on Private Affairs, and you will therefore so regulate the sums to be paid to the persons holding Acting Appointments as to ensure that the aggregate amount of

Official Salaries and emoluments shall on the one hand be appropriated to the liberal remuneration of the Acting Officers, and on the other hand cover the expense of the sums paid to the Absentees. We desire that an annual account may be transmitted to us shewing how this Rule is carried out at each of the Presidencies.

Furloughs on Private Affairs.

14. In place of the period of three years (in one term) for which the Furlough is now granted, we have determined to concede to our Civil Servants the option of taking a Furlough of three years as at present or of dividing the Furlough into two periods which may either be of one or two years respectively, or of eighteen months each, provided that in every such case the Civil Servant shall declare on taking his Furlough, whether he intends it to be for twelve, eighteen or twenty four months, in order that the Government may make its arrangements accordingly. In case of such division the first Furlough to be taken after a residence of not less than ten years and the second Furlough after a further residence in India of ten years from the date of return from the first Furlough. But Civil Servants returning on Furlough to this Country will continue as at present to vacate their Offices

15. Having thus regulated the periods of Furlough, we shall continue to grant for those periods the Furlough Allowance at present given, namely, £500 per annum.

16. We shall not encourage the grant of extensions of Furlough beyond the prescribed period, nor shall we, upon any ground whatever, permit the receipt of Furlough Allowance for any longer period than three years under the Rules above stated

17 Civil Servants who may have been compelled by Sickness to quit their duty under Medical Certificate before completing ten years residence, will be entitled to receive during their Furlough on Private Affairs taken subsequently to their completion of that period of residence the ordinary Furlough Allowance of £500 per annum for three years

18 In applying the foregoing Rules in substitution of those now existing, periods of absence to the limit of three years, either on Medical Certificate or on Furlough Private Affairs, will count as Service in India in the twenty-five years entitling to the Annuity, the present qualification of twenty-two years residence being retained. Periods of short Leave of Absence on Private Affairs taken in India will count as Service and residence as at present.

19 In the above Regulations we have endeavoured to provide for the efficiency of the Public Service while we have been anxious to extend every fair and reasonable allowance to our Servants, and considering the present Rules for the grant of leave to the Cape, &c., to admit of much abuse which cannot fail to be disadvantageous to the Public Service, it is our desire that the new Rules with regard to Sick Leave shall apply to all our Servants from the date of their promulgation

20 We entirely concur in the opinion expressed in paras. 5 and 6 of your Despatch in this Department, dated the 3rd May 1850, No 21, that it is advisable to prescribe by Rule, some period of service after which Civil Servants shall not be appointed to any new Office, nor be permitted to retain Office which they may have held for a period of five years and upwards, and we have resolved to establish thirty-five years as the period of service for the purpose in question. This Rule must, as you suggest be subject to exceptions in special cases which are to be referred for our decision In such cases, your recommendation will not fail to receive our prompt consideration The above Rule may be applied to every Civil Servant appointed to Office after its promulgation, and to the case of every other Civil Servant to whom it relates, at the close of five years from the date of its promulgation

21. We desire that the Rules for the grant of Leave of Absence on Sick Certificate and on Furlough, be at once modified in accordance with the views contained in this Despatch, and that Copies thereof be transmitted to us

22 Military Officers employed in the Civil Department will be subject to the Rules laid down in our Military Despatch, dated the 30th December 1853, No. 18, for the grant of Leave of Absence and Furlough to Officers holding Military Staff Appointments.

23 You will communicate this Despatch to the Governments of Madras and Bombay and to the Lieutenant-Governor N W Provinces together with Copies of the Rules so soon as they shall have been revised.

We are, &c,

Our Governor General of India in Council.

Para. 1. Since our Despatch in this Department dated the 5th April 1854, No 23, on the subject of the Civil Furlough and Absentee Rules was prepared, we have received your Financial letter of the 16th December 1853, No. 73, enclosing a Memorial from several Members of the Bengal Civil Service praying for such modification of Section XI of the existing Code, as will allow of the privilege leave of one month in each year being accumulated at the option of the Civil Servant for two or three years, after which leave may be taken, at the pleasure of Government, for either two or three months, (as the case may be) without deduction from allowances

2 Section XI formerly provided for the grant of privilege leave on the terms now solicited, and the old Regulation was altered in the year 1843 on the last occasion of the general revision of the Absentee Rules by your Government

3 We have no objection to modify the Rule in accordance with the request of the Service, and with your recommendation and to authorize you, should you consider that the Fund formed by deductions from the salaries of Absentees will admit of this additional charge upon it, to grant privilege leaves free of all deduction, even in cases in which some expense may be occasioned by the temporary absence.

4. The Government of Bengal having in their letter to you on the above subject, alluded to the question of Deputation Allowances, we refer you to para. 13 of our Public Despatch, dated 5th April 1854, No 23, wherein we have authorized you to lay down such Rules as will

"ensure that the aggregate amount of Official Salaries and Emoluments shall, on the one hand, be appropriated to the liberal remuneration of the Acting Officers, and, on the other hand cover the expense of the sums paid to the Absentees." We can of course, have no wish that the state should derive financial gain in consequence of the absence of our Servants, although we think it proper to insist that no extra charge shall thereby be incurred. Within that necessary limit, you may deal as liberally as you may be able, with the temporary occupants of the Offices of Absentees.

5. Our attention has also been given to the question of including the Law Officers of the Company in the new Code of Absentee Regulations. On several occasions we have received memorials upon this subject, which we have treated in the Judicial Department, and so lately as the year 1852, a memorial was addressed to us by the Law Officers at the three Presidencies, praying to be granted the privilege of a Furlough to Europe.

6. We cannot extend to the Law Officers any boon which is not conceded to our Civil Servants, and as the retention of Office during Furlough on Private Affairs is prohibited, any rule for granting Furlough to Law Officers would be inoperative.

7. As respects Sick Leave, the following is the only Rule which has yet been applied to them. "Whenever* our Advocate General or Attorney "may quit the Presidency "and proceed to Sea, the "Local Government, is to "appoint a competent per- "son to Act during his absence, the Absentee "receiving one-half of the salary for the period of "his Absence, not exceeding 18 months, and the "locum tenens receiving the other half for that "period, and after its expiration the whole. In "cases of absence a second time, the Absentee is "to receive no part of the salary, the whole of "which is to be paid to the Officiating Advocate "or Attorney."

* *Vide* Court's Despatch in the Law Department, dated the 23rd February 1831, No. 1.

8. We have resolved to substitute for the foregoing rule, the rules which we have laid down for the grant of Sick Leave and short leave on Private Affairs, to our Civil Servants, both as respects the periods of absence and the limitation of allowances during such absence. Leave will of course only be granted at the convenience of the Government, and no additional expense will, on any consideration, be incurred by the Government on account thereof. If any Law Officer shall quit his duty, save on leave under Medical Certificate, or on short leave on Private Affairs, he will be considered to have vacated his appointment.

9. We desire that Rules may at once be framed in accordance with the views expressed in this Despatch, and that the same be embodied in the new Code, and circulated for information and guidance

No. 2 of 1854

OUR GOVERNOR GENERAL OF INDIA IN COUNCIL.

PARA 1. Having considered the position of Members of our Ecclesiastical Establishments in connexion with the Rules which we have lately laid down for the grant of Furlough and Leave of Absence to our Civil and Military, we have determined that Chaplains and Assistant Chaplains shall be entitled to take Furlough on Private Affairs and on Medical Certificate on the same terms and conditions as Military Officers, with the following modifications :—

1*st*.—Chaplains being allowed to retire after twenty years' service, the period of furlough (Private Affairs) must in their case, be limited to the present term of three years. The Furlough may, however, either be taken in one period, or be divided into two periods whether of eighteen months each, or of two years and one year respectively, and, if divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2*nd*.—No Furlough or Leave of Absence, whether on Private Affairs or on Sick Certificate, taken in Europe, or elsewhere out of India, in excess of three years, will be allowed to count as service in India, in the twenty years which qualifies Chaplains for their Retiring Pensions.

2. The Furlough Pay of Chaplains will remain as at present. With regard to their allowance during Sick Leave to any place out of India, we have resolved that, in accordance with the principle adopted for Military Officers, they shall receive salary, (but at a rate not exceeding £600 per annum) for the fist six months of absence, and for the remaining twelve months an allowance equal to the Furlough pay of their standing. If the leave be extended an allowance equal to Furlough pay may be drawn for a further period of eighteen months

3 You will communicate this Despatch to the Governments of the Subordinate Presidencies

FORT WILLIAM,

FINANCIAL DEPARTMENT,

The 25th August 1854.

THE following Rules for the grant of Leave of Absence for regulating Deductions from Salaries and Deputation Allowances, and for limiting the period of Service of Civil Servants, will take effect in all the Presidencies and Settlements under the Government of India from the 1st October 1854, in supersession of the Rules of the 17th May 1843

CHAPTER I.

RULES FOR APPLICATION FOR LEAVE OF ABSENCE.

Section I. No Leave of Absence from any Office or Station can be granted, but by the Government under which the employment is held, and on the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted. The application must be made publicly through the regular channel in the Department to which the applicant may belong.

NOTE.—This Rule must be considered as superseding the Rule under which Commissioners of the Land Revenue and other Officers have heretofore been allowed to grant Leave of Absence in Bengal.

Section II. The official allowances of the holder of a Civil Office quitting his Station without leave will entirely cease from the date of his quitting until his return, or, in the event of his subsequently obtaining leave, to the date of such leave being granted to him.

Section III No Leave of Absence shall have any retrospective effect, except in cases of severe illness, to be attested by Medical Certificate, conforming in every respect to the directions contained in Section V.

CHAPTER II.

RULES FOR SICK LEAVE.

Section IV. Upon application duly made, the Government may grant Leave of Absence on Medical Certificate to any Civil Servant, to any place in India, in Europe, or elsewhere, as he may consider most conducive to the restoration of his health, without any restrictions whatever as to the places to which he may resort.

Section V. When an application for Leave of Absence is made on the ground of ill-health, it must be accompanied by a Certificate and a Statement of the case from the Medical Officer by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, the symptoms by which it is manifested, the period during which it has existed, as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place in India, or in Europe, or elsewhere, as laid down in Section IV., and in case of the applicant visiting the Presidency preparatory to obtaining leave, the Certificate must be counter-signed by the Members of the Medical Board, on their being satisfied, on a perusal of the Medical Attendant's statement of the case, that the leave applied for is absolutely necessary towards his recovery. Should the applicant's Medical Attendant be of opinion that he ought to proceed to a Sanitarium or other place without visiting the Presidency, the Certificate must, in the first instance, be counter-signed by the Superintending Surgeon of the Division in which the applicant may be located, and afterwards submitted with the statement of the case for the consideration and counter-signature of the Members of the Medical Board.

The Certificate shall be given in the following form :—

I, A. B., Surgeon at or of———do hereby certify that E F., of the Civil Service, is in a bad state of health, and I solemnly and sincerely declare that, according to the best of my judgment, a change of air is essentially necessary to his recovery, and do therefore recommend that he may be permitted to proceed to Sea, (or to such place as the Surgeon may think proper, expressing it in the Certificate.)

The following form shall be observed by the Members of the Medical Board or the Superintending Surgeon, in counter-signing the Surgeon's Certificate :—

We (or I) do hereby certify, that, according to the best of our (or my) professional judgment, after careful personal examination of his case, we (or I) consider the state of health of E. F. to be such as to render Leave of Absence for a period of——— absolutely necessary (or highly desirable) for his recovery.

An application for extension of leave must, if the applicant be in India, be accompanied by a Certificate to a like effect from the Medical Officer by whom the applicant is attended, together with a statement showing sufficient reason for the extension solicited; and such Certificate must be counter-signed by the Members of the Medical Board, or by the Superintending Surgeon of the Division in which the applicant may be located, as the case may be, on perusal of the statement. In like manner, if the applicant shall have proceeded beyond the Territories under the Government of the East India Company, he must furnish a Certificate and Statement to the required effect from a Surgeon or Physician at the place of his temporary residence by whom he has been attended, such attendance, and the period of it to be stated, and the Certificate to be counter-signed by the Examining Physician of the East India Company if the applicant is in England, or if not in England, by the principal Medical Authority of the Colony or Country to which the Absentee may have proceeded, or some sufficient reason stated for the want of such counter-signature if the Certificate be not so counter-signed. The Medical Board or Superintending Surgeon, before counter signing a Certificate as above-mentioned, must either personally examine the applicant or state some sufficient reason why they, or he, have or hath been unable to do so. When any of the required particulars are neglected, leave will be refused

Section VI The following conditions will in future attach to Leaves of Absence granted to Servants who shall have resided ten years and upwards in India, and who may be declared by a sufficient Medical Certificate to require such leave for the recovery of their health :-

1st.—The total period of absence, with the privileges hereinafter provided, shall not (save as specially excepted in Section VII of these Rules) exceed eighteen months in the whole, nor shall it exceed fifteen months on any one occasion

2ndly—The office of the absentee will be considered to be vacated if he shall be absent beyond eighteen months altogether, or beyond fifteen months at any one time, such absence to be computed, if he shall proceed to a Sanitarium within the Presidency, from the date of his arrival thereat, or to any place beyond the Presidency, but within the Continent of India, from the date of his reaching the limits of his own Presidency, and if he shall proceed to Sea, from the date of the sailing of the Vessel on which he may have embarked from any Port in India which is not more distant from his Station than the Ports of his own Presidency, to the date of his arrival at any Port within the Presidency to which he belongs, or at any other Port which is not more distant from his Station than the Ports of his own Presidency.

3rdly—The absentee will be entitled to draw a moiety of his salary, and the same will be paid to him during such period of absence, provided that

he shall in [illegible]se draw a larger sum than Rupees 10,000 (£1,[illegible]) per annum, during that period. In cases in which the emolument of the absentee's office does not exceed Rupees 5,000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rupees 5,000 (£500) per annum.

4thly—If the absentee be compelled by the state of his health, under due Medical Certificate, to remain absent for a longer period than eighteen months, or fifteen months at any one time, he will, as before stated, vacate his appointment, but he will be permitted to receive an allowance at the rate of £500 per annum, for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term, all allowance must cease until the Servant's return to India.

Section VII If a Civil Servant of more than fifteen years' service, after having been absent on sick leave for eighteen months in the whole, or for fifteen months at one time, at whatever period of his service such Sick Leave shall have been taken, shall be again compelled by the same cause to apply for Leave of Absence, the Government of India and the subordinate Governments may, on special grounds, grant Leave of Absence for one further period not exceeding six months, during which the absentee may retain his office, and half his salary under the limits above enjoined.

Section VIII If a Civil Servant, after fifteen years' service, shall be compelled by ill health to apply for further Leave of Absence, he may be permitted on special grounds to obtain it, but his absence will involve the loss of office and salary; the Government of India and the subordinate Governments will however, respectively, exercise a discretionary power to grant, in such last-mentioned cases, a sick absentee allowance, not exceeding Rupees 5,000 or £500 per annum, for a further period not exceeding twelve months.

Section IX. Junior Civil Servants, who may be compelled by sickness, certified as aforesaid, to quit their Stations before the completion of ten years' residence in India, will be allowed to be absent for eighteen months in the whole or fifteen months at any one time. They will not retain their appointments, but they will be permitted to draw, during this period, an allowance at the rate of £250 per annum as at present; and if any Junior Servant, absent as aforesaid, be prevented by the state of his health, under due Medical Certificate from returning to his duty at the end of the periods above-named, he will be permitted to continue absent for a further term, not exceeding eighteen months, with the same allowance.

Section X. A Junior Civil Servant, having enjoyed either of the above-named advantages, will not be entitled to the Leave of Absence provided for Servants of more than ten years' service, after he shall have attained that standing, but if after he has attained it, he shall be compelled again by ill health to quit his station, and provided that his former periods of absence shall have fallen short of three years in the aggregate, he may be permitted, under Medical Certificate, to receive a further Leave of Absence for such a period as shall make up the entire length of absence to three years, and during that additional period he shall receive an allowance at the rate of £500 per annum. He will however be entitled, after fifteen years' service, to the benefit of the special leave authorized to be granted according to Sections VII and VIII. of these Rules.

Section XI None of the above-mentioned Rules will be applicable to Members of Council. Each Member may, however, with the special sanction of the Government, be permitted to be absent, under Medical Certificate, for a period not exceeding six months, retaining his office and receiving half his salary, which shall be paid to him during such absence, but if his absence shall exceed six months, his office will be vacated.

Section XII. Civil Servants who may desire to draw their allowances while absent on account of sickness under the above Rules, will be required to give security in such amount and form as may be fixed by the Government for the refund of any excess that may be drawn either by the Agents at the Presidency or by themselves in case of their coming under retrenchment.

CHAPTER III.

RULES FOR SHORT LEAVE ON PRIVATE AFFAIRS.

Section XIII. The Government may grant to Civil Servants Leave of Absence to any place or places in the Continent of India, whether within the Territories subject to the Government of India or not, or to proceed to the Island of St. Helena, the Colony of the Cape of Good Hope, or to any place situate between the 36th degree of North latitude and the 50th degree of South latitude, such place being likewise between the 30th and the 180th degrees of longitude East of Greenwich, excepting however any Islands in the Mediterranean or Levant, and excepting all places within the said geographical limits which may form part of Europe, for one month in each year, without deduction from the salaries and emoluments drawn by such Servants—such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officer seeking it. No second leave can be granted under this Rule until the completion of eleven months from the expiration of the last leave; but Servants not availing themselves of the indulgence in any one year, may obtain, under the like conditions, Leave of Absence for two successive months, to commence at or after the expiration of twenty-two months from the termination of their former leave; and if two years elapse without enjoyment of the privilege, leave for three months may, in like manner, be granted at the expiration of thirty-three months from the termination of the last preceding leave; but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule, he shall forfeit all pay and allowances during the time of his remaining so absent without leave, and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant.

Civil Servants absent from their Stations under Medical Certificate cannot be admitted to leave under this Rule in continuation of their sick leave; and if, while absent under this Rule, they be granted extended leave under Medical Certificate, they shall be considered liable to the Rules applicable to Leave of Absence on Medical Certificate for the whole period of their absence.

Civil Servants who have been absent on Medical Certificate during any portion of a calendar year

are not entitled to leave under this Rule during that year; but in determining the interval necessary to entitle a person to leave under this Rule, no reference will be made to any intermediate Leave of Absence that may have been granted under Section XV.

Section XIV. As a general Rule, when leave is granted under Section XIII., such leave will be in one period only, whether for a whole month or less, and not in detached portions to complete one month within the year, and the term year shall be held to mean the calendar year commencing with the 1st of January and ending with the 31st of December, but as an exception to this Rule, it shall be discretional with the several Local Governments, where good cause is shown for the indulgence, and it is attended with no public inconvenience, to sanction Leave of Absence under this Rule to such parties as may not have occasion to apply for the whole at once, in instalments, not to exceed in the aggregate one month within the calendar year, on the understanding that no leave can be granted for any fresh calendar year until the completion of three months from the expiration of the entire leave or of the last instalment of leave taken in the past calendar year.

Section XV. The Government may, on sufficient cause being shown, grant to a Civil Servant special Leave of Absence on Private Affairs for three months, to any place or places within the limits mentioned in Section XIII., provided, however, that if any Officer to whom such leave shall be granted shall be absent from his Station for any period exceeding that to which he may be entitled without deduction, under Section XIII., the absentee shall, for the period in excess, draw no more than one-half of his salary and allowances. After an absence of three months (exclusive of any period which may be granted under Section XIII.) any office held by the absentee shall become vacant.

CHAPTER IV.

FURLOUGHS ON PRIVATE AFFAIRS.

Section XVI. In the place of the period of three years (in one term,) for which Furlough has hitherto been granted, Civil Servants will be allowed the option of taking a Furlough of three years as at present, or of dividing the Furlough into two periods, which may either be of one or two years respectively, or of eighteen months each, provided that, in every such case, the Civil Servant shall declare, on taking his Furlough, whether he intends it to be for twelve, eighteen, or twenty-four months, in order that the Government may make its arrangements accordingly. In case of such division, the first Furlough to be taken after a residence of not less than ten years, and the second Furlough after a further residence in India of ten years from the date of return from the first Furlough; but Civil Servants returning on Furlough to Europe will continue, as at present, to vacate their offices.

Section XVII. The Furlough Allowance granted during the periods mentioned in the last Section will be at the rate of £500 per annum, and the receipt of it will not, on any grounds whatever, be permitted for any longer period than three years.

Section XVIII. Civil Servants who may have been compelled by sickness to quit their duty under Medical Certificate, before completing ten years' residence in India, will be entitled to receive during their Furlough on Private Affairs, taken subsequently to their completion of that period of residence, the ordinary Furlough Allowance of £500 per annum for three years.

Section XIX. In applying the foregoing Rules in substitution of those before existing, periods of absence to the limit of three years, either on Medical Certificate, or on Furlough on Private Affairs, will count as service in India in the twenty-five years entitling to the annuity, the present qualification of twenty-two years' residence being retained. Periods of short Leave of Absence on private affairs taken in India will count as service and residence as at present.

Section XX. Military Officers employed in the Civil Department will be subject to the Rules laid down in the Court's Military Despatch dated the 30th December 1853, No. 18, for the grant of Leave of Absence and Furlough to Officers holding Military Staff Appointments.

CHAPTER V.

RULES FOR JOINING STATIONS.

Section XXI. There shall be allowed to Officers appointed to any new Office the periods of one month, two months, or three months for joining, accordingly as the distance may not exceed 300 or 600 miles, or be in excess of the last-mentioned distance. Officers not joining their Station within the said periods, respectively, shall forfeit their salary for the time delayed in excess of the above periods, and if such excess shall exceed one month, the office shall be vacated, unless otherwise specially ordered by Government.

NOTE.—The time allowed for joining is computed from the date of the Order reaching the Officer appointed.

Section XXII. Upon the first appointment of any Civil Servant, who shall be reported qualified for Public Service by the Examiners appointed by the Government, to any Civil Station, there shall be allowed for travelling expenses to the Station, an allowance at the rate of 8 annas per mile by the direct Post Road, according to the Polymetrical Tables of the Post Office, the Bill for which allowance will be passed by the Civil Auditor after the Officer shall have joined the Station: if required in advance, an order of the Government shall be necessary.

Section XXIII. The salary of office will be payable from the date only of the Officer joining, but in case of Junior Civil Servants, the salary of Assistants will be payable from the date of their being reported qualified for the Public Service, unless forfeited under the preceding Rule, through delay in joining the Station to which they may be appointed.

Section XXIV. In case of a change of office, when an Officer is appointed to a higher situation, he shall not draw the higher salary until he joins. For the period occupied in travelling, the Rule No. XXI., regulating the time and distance for joining Station, shall be applicable, and the Officer will, for the periods allowed in that Rule respectively, draw out of the salary of the office he is about to join, a sum equal to that of his previous situation.

CHAPTER VI.

RULES FOR DEPUTATION ALLOWANCES.

Section XXV. The sum of Company's Rupees 52,200 per annum having been fixed, under the orders of the Court of Directors, as the maximum salary of Civil Office for the offices of Government under the situation of Member of Council, Civil Servants who may draw larger allowances than this annual sum, as a consolidated personal and sumptuary allowance, in consideration of the necessary expenses of their position, will, in all cases of absence, be treated in respect to deductions as drawing only the allowance thus limited, and the excess above the monthly salary yielded by that annual sum shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officer performing the duties, to meet the necessary expenses of his position; provided however, that in the cases of Civil Servants appointed to offices of the description referred to subsequent to the 2nd June 1854, the sum of Rupees 50,000 shall be held to be the maximum salary, under the Government Resolution, No. 563, of that date.

NOTE.—This Rule will equally apply in case of a Political Resident taking a leave of one, two, or three months, for which in other cases he would suffer no deduction. The excess above the maximum monthly salary will in that case be enjoyed by the person in charge.

Section XXVI. Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereinafter laid down:—

To Civil Servants not holding any substantive appointment, at the rate of 50 per cent. on the monthly salary of the appointment officiated in, such Deputation Allowance being in addition to the Subsistence Allowance of their respective ranks.

To Civil Servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 20 per cent. upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem, and in respect to all appointments of which the salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent. upon Company's Rupees 2,000, and of 10 per cent. on the amount in which the monthly salary may exceed Company's Rupees 2,000, provided however that no lower rate of Deputation Allowance shall be given than Rupees 200 per mensem.

The Deputation Allowance shall in all cases be in addition to the salary of the substantive appointment held by the Officer on deputation.

The above rates are granted provisionally, subject to future revision.

In the Punjab, Nagpore and other places, where appointments are by classes, the amount of Deputation Allowances, payable at the above rates, will be calculated, not upon the salary of the individual Officer holding the substantive appointment in which the Officer deputed may be temporarily officiating, but on the average rate of salary attached to the particular *class* to which the appointment may belong.

A Civil Servant acting for another shall have no claim to Commission or Fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions.

A Civil Servant acting in an appointment, the salary of which is to be reduced on the retirement of the present incumbent, will draw deputation allowance on the reduced salary.

An Officer officiating in more than one appointment will be entitled to Deputation Allowance, regulated by the aggregate amount of the salary of the offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation Allowance in addition to the higher salary to which he has been promoted.

Section XXVII. No Civil Servant, temporarily officiating for another, shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the Deputation Allowance, according to the prescribed scale, added to the permanent emoluments of the officiating Servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an Officer holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no Deputation Allowance, unless the emoluments of the office in which he is deputed to act exceed the united emoluments of his permanent appointments, and in that case the Deputation Allowance shall be limited to the difference.

Section XXVIII. No subordinate Officer acting for his principal or for any other person holding a superior appointment in the same office or establishment, at the same Station, shall be entitled to any Deputation Allowance until after the expiration of one month, and then the allowance is not to be drawn in arrear. But a Servant previously out of employment, or who may be deputed to act from a different Station, shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

Section XXIX. Civil Servants, if deputed to act at a distance from the Stations where they are employed, or if ordered by Government on special duty, shall be permitted to draw Travelling Allowances at the rate sanctioned in the case of a first appointment.

CHAPTER VII.

RULES FOR LIMITING THE PERIOD OF SERVICE.

Section XXX. After thirty-five years' service no Civil Servant shall be appointed to any new office, nor be permitted to retain an office which he has held for a period of five years and upwards, except in special cases, which are to be referred for the decision of the Hon'ble the Court of Directors. This Rule will be applicable to every Civil Servant appointed to office after its promulgation, and to the case of every other Civil Servant to whom it relates at the close of five years from the date of its promulgation.

CHAPTER VIII.

RULES FOR THE GRANT OF LEAVE OF ABSENCE TO LAW OFFICERS.

Section XXXI. The East India Company's Law Officers may obtain Sick Leave and Short Leave on Private Affairs under the conditions prescribed in the case of Civil Servants, both as respects the periods of absence and the limitation of allowances during such absence. Leave will however only be granted at the convenience of the Government, and no additional expense will on any consideration be incurred by the Government on account thereof.

If any Law Officer shall quit his duty, save on leave under Medical Certificate or on Short Leave on Private Affairs, he will be considered to have vacated his appointment.

CHAPTER IX.

RULES FOR CHAPLAINS AND ASSISTANT CHAPLAINS.

Section XXXII. Chaplains and Assistant Chaplains may take Furlough on Private Affairs and on Medical Certificate, also Short Leave on Private Affairs, on the same terms and conditions as Military Officers, with the following modifications:—

1st.—Chaplains being allowed to retire after twenty years' service, the period of Furlough on Private Affairs, is in their case limited to the present term of three years. The Furlough may however either be taken in one period, or be divided into two periods, whether of eighteen months each, or of two years and one year, respectively, and if divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of Service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2ndly.—No Furlough or Leave of Absence, whether on private Affairs or on sick Certificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as Service in India in the twenty years which qualifies Chaplains for their Retiring Pensions.

Section XXXIII. The Furlough Pay of Chaplains will remain as at present. With regard to their allowance during Sick Leave to any place out of India, they shall receive salary (but at a rate not exceeding £600 per annum) for the first six months of absence, and, for the remaining twelve months, an allowance equal to the Furlough Pay of their standing. If the leave be extended, an allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

Rangoon Post Office Notice.

LETTERS and Newspapers, which should be addressed to RANGOON only, are frequently directed by mistake to Pegu or Burmah, and letters, &c. intended for delivery in Pegu, Prome, Bassein and other places in the Provinces, are in like manner erroneously addressed to "Rangoon, Burmah." The Rangoon Post Master begs to notify that, with such *vague* directions, this Department is left to find out to which of the Stations such letters should be forwarded, and from want of information, great disappointment is felt when they are despatched to the wrong Station. To obviate this, it is desirable, that parties posting letters in Calcutta or elsewhere, should be careful to direct them to their respective Stations, and to inform their Agents and Correspondents, when leaving one place for another, of their change of address, to ensure letters being directed to the proper Station. A list of places in the Pegu Provinces or in Burmah, and their distance from Rangoon, is annexed below, *viz.:*

Donabew,	40	miles
Pegu,	55	,,
Sittang,	67	,,
Shoaygyeen,	90	,,
Bassein,	95	,,
Henzada,	95	,,
Tonghoo,	130	,,
Monean,	120	,,
Thayetmyo,	200	,,

Namean,	195	,,
Prome,	200	,,
Yeagheen,	160	,,
Tapoon, Tindan, Tayngheen, Yandoon,	Below Prome.	

Letters addressed to public functionaries, whose head-quarters or residence is in Rangoon, should be addressed "Rangoon," instead of Pegu or Burmah; but if intended for delivery at other Stations, should be addressed to those Stations, the word Rangoon to be omitted.

Notice to Mariners.

DEVAAR LIGHTHOUSE.

THE COMMISSIONERS of NORTHERN LIGHTHOUSES hereby give Notice, that a LIGHTHOUSE has been built upon the ISLAND of DEVAAR, at the Entrance to the BAY of CAMPBELTOWN, in the County of ARGYLL, the Light of which will be exhibited on the Night of MONDAY 10th July 1854, and every Night thereafter, from the going away of daylight in the evening till the return of daylight in the morning.

The following is a Specification of the Lighthouse, and the Appearance of the Light, by MR. DAVID STEVENSON, *Engineer to the Commissioners.*

The LIGHTHOUSE is in N. Lat. 55° 25′ 45″, and W. Long. 5° 32′ 16″.

The DEVAAR LIGHT will be known to Mariners as a REVOLVING LIGHT, which shows a bright white Light once every half-minute.

The Light is elevated about 120 feet above the level of high water of ordinary spring tides, and may be seen at the distance of about 15 nautic miles, and at lesser distances, according to the state of the atmosphere: to a nearer observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness. The arc, illuminated by this Light, extends from about S. ¼ E. by compass to about W. *b.* N., and faces Northwards.

And the COMMISSIONERS hereby further GIVE NOTICE, that Her Majesty, by Order in Council, dated 29th December 1853, was pleased to order and direct that, upon the Erection and Lighting of the said Light upon the Island of Devaar, there should be paid, in respect thereof, for every Vessel belonging to the United Kingdom of Great Britain and Ireland (the same not belonging to Her Majesty or being navigated wholly in ballast) and for every Foreign Vessel, which by any Act of Parliament, Order in Council, Convention or Treaty, shall be privileged to enter the Ports of the United Kingdom, upon paying the same Duties of Tonnage as are paid by British Vessels, the same not being navigated wholly in ballast, which shall pass or derive benefit from the said Light, that is, which shall arrive at or depart from any Port or Place in the Bay or Loch of Campbeltown, if the burthen of the same shall not exceed Fifty Tons, Six pence, and if the same shall exceed Fifty Tons for each ad-

ditional Fifty Tons, or part of Fifty Tons, Six-pence.

And Her Majesty was further pleased to order and direct, by the said Order in Council, that in respect of the said Light on Devaar, and in respect of another light in Loch Ryan, on the South side of the Basin of the Clyde erected by the said Commissioners, there shall be paid by every Vessel before described, and under the exemptions aforesaid, which shall navigate on a distinct voyage within the Great Basin of the Clyde, bounded by a line drawn from the Point of Corsewall to Glenarm in Ireland, on the South-east, and from another line drawn from the Mull of Kintyre to Fairhead, in Ireland, on the North-west, and on all other sides by the coasts of Ireland and Scotland surrounding the said Basin, a similar rate of Toll to that above set forth, being at the rate of Three-pence for each of the said Lights.

Double the said respective Tolls for every Foreign Vessel not privileged as aforesaid.

Provided always, that Vessels arriving at or departing from any port or place within Loch Ryan, or within Campbeltown Loch, and paying the rates for such respective voyages, shall not in addition be liable in payment of the rates for navigating the Basin of the Clyde.

The above rates are, by another Order in Council, declared to be subject to the following abatements on payment :—

Over-sea Vessels, Twenty-five per cent.
Coasting Vessels, Ten per cent.

The accident is attributable to the falling in of the bank, which fell on the boat, and caused the same to sink immediately

Rangoon Post Office Notice.

LETTERS and Newspapers, which should be addressed to RANGOON only, are frequently directed by mistake to Pegu or Burmah, and letters, &c. intended for delivery in Pegu, Prome, Bassein and other places in the Provinces, are in like manner erroneously addressed to "Rangoon, Burmah." The Rangoon Post Master begs to notify that, with such *vague* directions, this Department is left to find out to which of the Stations such letters should be forwarded, and from want of information, great disappointment is felt when they are despatched to the wrong Station. To obviate this, it is desirable, that parties posting letters in Calcutta or elsewhere, should be careful to direct them to their respective Stations, and to inform their Agents and Correspondents, when leaving one place for another, of their change of address, to ensure letters being directed to the proper Station. A list of places in the Pegu Provinces or in Burmah, and their distance from Rangoon, is annexed below, *viz.* :

Notice to Mariners.

DEVAAR LIGHTHOUSE

THE COMMISSIONERS of NORTHERN LIGHTHOUSES hereby give Notice, that a LIGHTHOUSE has been built upon the ISLAND of DEVAAR, at the Entrance to the BAY of CAMPBELTOWN, in the County of ARGYLL, the Light of which will be exhibited on the Night of MONDAY 10th July 1854, and every Night thereafter, from the going away of daylight in the evening till the return of daylight in the morning

The following is a Specification of the Light-house, and the Appearance of the Light, by MR DAVID STEVENSON, *Engineer to the Commissioners*

The LIGHTHOUSE is in N. Lat. 55° 25′ 45″, and W Long 5° 32′ 16″.

The DEVAAR LIGHT will be known to Mariners as a REVOLVING LIGHT, which shows a bright white Light once every half-minute.

The Light is elevated about 120 feet above the level of high water of ordinary spring tides, and may be seen at the distance of about 15 nautic miles, and at lesser distances, according to the state of the atmosphere: to a nearer observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness. The arc, illuminated by this Light, extends from about S. ¼ E. by compass to about W. *b.* N., and faces Northwards.

And the COMMISSIONERS hereby further GIVE NOTICE, that Her Majesty, by Order in Council, dated 29th December 1853, was pleased to order and direct that, upon the Erection and Lighting of the said Light upon the Island of Devaar, there should be paid, in respect thereof, for every Vessel belonging to the United Kingdom of Great Britain and Ireland (the same not belonging to Her Majesty or being navigated wholly in ballast.) and for every Foreign Vessel, which by any Act of Parliament, Order in Council, Convention or Treaty, shall be privileged to enter the Ports of the United Kingdom, upon paying the same Duties of Tonnage as are paid by British Vessels, the same not being navigated wholly in ballast, which shall pass or derive benefit from the said Light, that is, which shall arrive at or depart from any Port or Place in the Bay or Loch of Campbeltown, if the burthen of the same shall not exceed Fifty Tons, Six-pence, and if the same shall exceed Fifty Tons, for each additional Fifty Tons, or part of Fifty Tons, Six-pence.

And Her Majesty was further pleased to order and direct, by the said Order in Council, that in respect of the said Light on Devaar, and in respect of another light in Loch Ryan, on the South side of the Basin of the Clyde erected by the said Commissioners, there shall be paid by every Vessel before described, and under the exemptions aforesaid, which shall navigate on a distinct voyage within the Great Basin of the Clyde, bounded by a line drawn from the Point of Corsewall to Glenarm in Ireland, on the South-east, and from another line drawn from the Mull of Kintyre to Fairhead, in Ireland, on the North-west, and on all other sides by the coasts of Ireland and Scotland surrounding the said Basin, a similar rate of Toll to that above set forth, being at the rate of Three-pence for each of the said Lights.

Double the said respective Tolls for every Foreign Vessel not privileged as aforesaid.

Provided always, that Vessels arriving at or departing from any port or place within Loch Ryan, or within Campbeltown Loch, and paying the rates for such respective voyages, shall not in addition be liable in payment of the rates for navigating the Basin of the Clyde.

The above rates are, by another Order in Council, declared to be subject to the following abatements on payment:—

General Post Office Notifications.

NOTICE TO THE PUBLIC.

As Act No. XVII. of 1854 "for the management of the Post Office, the regulation of duties of postage, and for the punishment of offences against the Post Office," will come into operation on the 1st of October next, the attention of the public is drawn to some of the most material of the changes which have been made in the rates of postage to be paid, and to the conditions under which letters, banghy-parcels, newspapers, pamphlets, &c., will be conveyed by post.

On and after the 1st October 1854, no money payments will be received at any Post Office on account of letters to be despatched pre-paid; letters which the sender wishes to despatch pre-

If the value of the stamps affixed to any letter be less than the full amount of postage chargeable, twice the difference between the value of the stamps affixed and the proper postage will be charged on delivery.

Letters sent unpaid, will, on delivery, be charged double postage.

Parcels, newspapers, pamphlets and printed and engraved papers may be sent paid or unpaid, at the discretion of the sender.

No receipt will be given for any but registered letters, on which the authorised registration fee has been paid.

Letters re-directed or forwarded, will be charged in addition to the postage paid or due on them, with the rate of postage which they would be liable to had they been posted and pre-paid at the place at which they may be re-directed.

Provided that the full amount of postage is pre-paid, the following rates of postage will be charged for the conveyance of a letter from one Post Office to another within the territories under the Government of the East India Company, without reference to the distance to which it may be carried :—

Half a Tolah, ...	One Anna,	2 Rates
One Tolah, ...	Two Annas,	4 Rates.
One Tolah and a Half,	Three Annas,	6 Rates
Two Tolahs, ...	Four Annas,	8 Rates

For every tolah weight above two tolahs, two additional annas, or 4 rates of postage. Every fraction of a tolah above two tolahs will be charged as an additional tolah.

Postage stamp labels should be pasted or gummed on the upper right hand corner of the letter, on the side on which the direction is written, as in the specimen given in the margin. Postage stamps can only be used once.

The accident is attributable to the falling in of the bank, which fell on the boat, and caused the same to sink immediately.

Rangoon Post Office Notice.

LETTERS and Newspapers, which should be addressed to RANGOON only, are frequently directed by mistake to Pegu or Burmah, and letters, &c. intended for delivery in Pegu, Prome, Bassein and other places in the Provinces, are in like manner erroneously addressed to "Rangoon, Burmah." The Rangoon Post Master begs to notify that, with such *vague* directions, this Department is left to find out to which of the Stations such letters should be forwarded, and from want of information, great disappointment is felt when they are despatched to the wrong Station. To obviate this, it is desirable, that parties posting letters in Calcutta or elsewhere, should be careful to direct them to their respective Stations, and to inform their Agents and Correspondents, when leaving one place for another, of their change of address, to ensure letters being directed to the proper Station. A list of places in the Pegu Provinces or in Burmah, and their distance from Rangoon, is annexed below, *viz.*:

Letters addressed to public functionaries, whose head-quarters or residence is in Rangoon, should be addressed "Rangoon," instead of Pegu or Burmah; but if intended for delivery at other Stations, should be addressed to those Stations, the word Rangoon to be omitted.

Notice to Mariners.

DEVAAR LIGHTHOUSE.

THE COMMISSIONERS of NORTHERN LIGHTHOUSES hereby give Notice, that a LIGHTHOUSE has been built upon the ISLAND of DEVAAR, at the ENTRANCE to the BAY of CAMPBELTOWN, in the County of ARGYLL, the Light of which will be exhibited on the Night of MONDAY 10th July 1854, and every Night thereafter, from the going away of daylight in the evening till the return of daylight in the morning.

The following is a Specification of the Lighthouse, and the Appearance of the Light by MR. DAVID STEVENSON, *Engineer to the Commissioners.*

The LIGHTHOUSE is in N. Lat. 55° 25′ 45″, and W. Long. 5° 32′ 16″.

The DEVAAR LIGHT will be known to Mariners as a REVOLVING LIGHT, which shows a bright white Light once every half-minute.

The Light is elevated about 120 feet above the level of high water of ordinary spring tides, and may be seen at the distance of about 15 nautic miles, and at lesser distances, according to the state of the atmosphere: to a nearer observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness. The arc, illuminated by this Light, extends from about S. ¼ E. by compass to about W. *b.* N., and faces Northwards.

And the COMMISSIONERS hereby further GIVE NOTICE, that Her Majesty, by Order in Council, dated 29th December 1853, was pleased to order and direct that, upon the Erection and Lighting of the said Light upon the Island of Devaar, there should be paid, in respect thereof, for every Vessel belonging to the United Kingdom of Great Britain and Ireland (the same not belonging to Her Majesty or being navigated wholly in ballast) and for every Foreign Vessel, which by any Act of Parliament, Order in Council, Convention or Treaty, shall be privileged to enter the Ports of the United Kingdom, upon paying the same Duties of Tonnage as are paid by British Vessels, the same not being navigated wholly in ballast, which shall pass or derive benefit from the said Light, that is, which shall arrive at or depart from any Port or Place in the Bay or Loch of Campbeltown, if the burthen of the same shall not exceed Fifty Tons, Six-pence, and if the same shall exceed Fifty Tons, for each ad

ditional Fifty Tons, or part of Fifty Tons, Six-pence.

And Her Majesty was further pleased to order and direct, by the said Order in Council, that in respect of the said Light on Devaar, and in respect of another light in Loch Ryan, on the South side of the Basin of the Clyde erected by the said Commissioners, there shall be paid by every Vessel before described, and under the exemptions aforesaid, which shall navigate on a distinct voyage within the Great Basin of the Clyde, bounded by a line drawn from the Point of Corsewall to Glenarm in Ireland, on the South-east, and from another line drawn from the Mull of Kintyre to Fairhead, in Ireland, on the North-west, and on all other sides by the coasts of Ireland and Scotland surrounding the said Basin, a similar rate of Toll to that above set forth, being at the rate of Three-pence for each of the said Lights.

Double the said respective Tolls for every Foreign Vessel not privileged as aforesaid.

Provided always, that Vessels arriving at or departing from any port or place within Loch Ryan, or within Campbeltown Loch, and paying the rates for such respective voyages, shall not in addition be liable in payment of the rates for navigating the Basin of the Clyde.

The above rates are, by another Order in Council, declared to be subject to the following abatements on payment :—

Over-sea Vessels, Twenty-five per cent.
Coasting Vessels, Ten per cent.

FORT WILLLIAM,

FOREIGN DEPARTMENT,

THE 1ST SEPTEMBER 1854.

IN the present state of affairs, the Government of India thinks it expedient to lay before the public all the information it possesses relative to Coal on the East side of the Bay of Bengal, and accordingly directs the publication of the following Documents :—

By Order of the Most Noble the Governor General in Council,

G. F. EDMONSTONE,
Secy. to the Govt of India.

EXTRACT.

Proceedings at the Meeting of the Coal Committee, held on the 9th August 1851.

4. The communications from Singapore on the subject of the Mergui Coal are to the effect, that 620 tons of that Coal supplied to the Straits has been repeatedly discovered to evince signs of spontaneous combustion, owing, as would appear from samples since furnished to the Committee by the Marine Board, to the large proportion of pyrites it contains.

Mergui Coal

EXTRACT.

Proceedings of the Coal Committee, 6th September 1841.

5. Read a letter from C. B. Greenlaw, Esquire, Secretary to the Marine Board, transmitting the copy of a letter from Captain James Ramsay, Deputy Assistant Commissary General, on the spontaneous combustion of Mergui Coal at Singapore, together with a sample of the Coal in question after incipient combustion had taken place, and requesting, in case no portion of Mergui Coal has been already analysed, that the specimens now sent may be examined and the result communicated for the information of the Board.

Mergui Coal.

The Committee observe on this subject, that the experimental working of Mergui Coal has not been carried on under its direction or advice. In reply the Secretary was however directed to inform the Marine Board, that the tendency to spontaneous ignition in the Coal in question appears to be owing to the presence of pyrites, a common ingredient in certain seams of Coal in most Coal Fields. That the yellow shining substance may always be detected on the surface of the fracture. Specimens presenting such appearance are known to Colliers as Brassy Coal, are generally of local occurrence, and should always, when they are found, be rejected at the Pit. Pyrites often abounds most at the partings between the alternate layers of Shale and Coal, and from samples of the Mergui Coal, which came under the experiments of the Committee, it would appear probable that several seams of thin Coal and thin bituminous Shale, closely resembling Coal in appearance, were worked as one thick seam of Coal, and the pyritous parting Shale and Coal thus mixed together.

EXTRACT

From Coal Committee's Report, May 1845.

TENASSERIM PROVINCES.

128. Four Coal Fields are indicated in these Provinces:—

I. On the Great Tenasserim River, 67 miles above Tenasserim Town.

II. Above the falls of the Great Tenasserim.

III. On the Thian Khan or great branch of the Little Tenasserim River.

IV. On the Lenhea River.

The first of these are mere indications; the second consist of a 6 feet bed of Crop Coal, which has already been worked to some extent, but abandoned as of inferior quality.

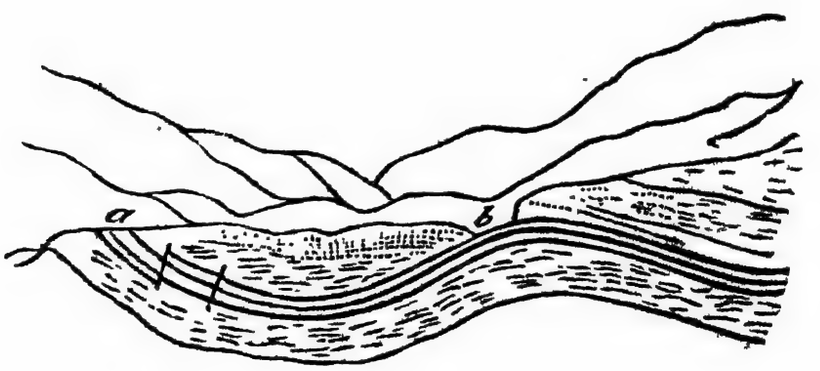
The third or Thian Khan Coal Field is decidedly the most important, both from extent and situations, as well as the superior quality of the Coal. It was at first supposed to be situated beyond the boundary range of hills, but such is not the case, so that there is really nothing to prevent this from becoming the most important Coal in India, particularly for the supply of Ceylon and the Straits.

Of the fourth Tenasserim Coal Field, we as yet know nothing more than existence on the banks of the Lenhea River.

I. GREAT TENASSERIM RIVER.

129. Coal occurs on the banks of the Great Tenasserim River, at a distance of 67 miles from Mergui. The river at the place where the Coal occurs enters a valley about 8 miles in length and 2 in breadth. The valley is formed by mountain ridges, the highest of which, on the West side of the river, seems to be about 800 feet, but on the East bank they attain twice that altitude at a distance of 3 or 4 miles from the river. The valley consists of Coal formation, such as thin beds of shale, containing impressions of plants, alternating with thin beds of coarse Sand-stone and Coal, partially sub-divided by low hills composed of clay-slate and porphyry, along the flanks of which an out-crop of Coal is observed.

130. The rocks dip at various angles from 30° to 9° towards the East and South. On the East side of the basin, no observations on the dip of the strata appear to have been made. The annexed Diagram shows the circumstances of this Coal: a 6 feet bed is covered by merely a few feet of shale, a bed of



clay, and a recent deposit, coarse grit or sand-stone, alternating with shale; and three thin seams of Coal occur beneath the 6 feet bed to a depth of 18 feet, which is the lowest depth to which the ground has been well explored. Such being the limited extent of our information, no opinion can be formed as to the probable existence of other large beds of workable Coal in this basin. There cannot, however, be a doubt as to its belonging to the true Coal formation, from the nature of the Coal itself, as well as of the beds with which it is associated. It would seem, however, from all we can learn, as well as from samples of the Coal, to belong to the upper portion of the Coal formation, and it may be a question, as suggested by Captain Tremenheere,* whether in a space so circumscribed and cut off by primitive mountains, the lower and better beds of Coal are to be expected in this valley?

131. The 6 feet bed though a surface Coal, was worked to some extent, but the result was not altogether satisfactory. The means employed are supposed to have been inadequate to afford a fair trial; but as the objection lay to the quality of the Coal, it may be doubted whether any means that could be brought to bear could improve it, otherwise than by the discovery of a better bed.

Abstract of Coal on the Tenasserim River below the Falls.

District.	Field.	Locality.	Beds
Great Tenasserim,.....	60 Miles above Tenasserim Town, ...	In a small valley, ½ of a mile from the West bank, ...	6 feet.

The fault for which this Coal was condemned and the Mine abandoned, was that it contained pyrites, and was on that account subject to spontaneous combustion; but as already remarked, all Coal contains more or less of this impurity, which affects only particular parts of the bed, and by proper attention may be easily avoided. But independent of this, the Coal itself is only of second or third-rate quality.

II ABOVE THE FALLS.

132. Above the falls of the Great Tenasserim, near a small tributary called *Nan their Keung*, a mile and a quarter from the main river, three small beds of Coal have been observed in sand-stone; and about one day's journey lower down the river, thin seams of Coal are exposed in sand-stone in the banks.

III. THIAN KHAN COAL FIELD.

133. Eighty miles from Mergui, two-thirds of the distance being open to easy navigation and the remainder capable of being rendered navigable, inexhaustible beds of Coal, of an uniformly good quality, occur on the Thian Khan, one of the main branches of the Little Tenasserim. Under the impression, that this Coal Field was placed beyond the boundary range of our territory, and thereby cut off from access with the Coast, the Committee overlooked its importance in former Reports. But these geographical errors have been perfectly removed by Captain McLeod, an Officer of long experience and distinguished service on this part of the Coast, who, in an able article in the *Journal of the Asiatic Society*, proves this Coal district to be within the British territory, and so far from intercepted by any range of hills whatever, that an open navigation extends to within 20 miles of the Coal at all seasons, and that rafts ascend to the Coal itself during the rains

134 The first bed appears five days' journey above Tenasserim Town, exposed on the bank of the Thian Khan River, to an extent of 240 feet, 6 feet in thickness, and dipping at an angle of 20°

135 Two or three miles above this, a similar bed of Coal, or what is equally probable,. several beds of similar size and quality, are observed in fourteen different localities, partially exposed on both sides of the river, dipping at an angle of 25° These beds seem to occur with grey and black slate clay; the latter is supposed to rest on blue lime-stone.

136 The river is described by the late Dr. Helfer (to whom the discovery is due) as breaking its course through Coal beds of great extent.*

These beds are imperfectly described, but they seem to occur with what Dr Helfer described as grey and black slate clay, the latter being supposed by him to rest on lime-stone.

137. The various beds appear to be what is called Cannel Coal, remarkable for consisting of upwards of 50 per cent of bitumen, which, to use the words of Mr James Prinsep, (*Journal Asiatic Society*, 1838, p 706.) "shows it to be a superior blazing material, which is the main point in getting up steam; so much so," he continues, "that I understand one of the Company's Steamers is unable to get up steam with the *Burdwan* Coal, without a large admixture of English Cannel Coal" "It also," continued Mr Prinsep, "makes an admirable Coal for gas."

Lieutenant-Colonel Forbes and the Secretary of the Committee were present during Mr Prinsep's experiments with this Coal, and were equally impressed with Mr. Prinsep himself as to its remarkable superior properties for steam, gas and coke.

* *Vide* Appendix B.

The following are the results of analysis of four specimens of this Coal by Mr. Prinsep, taken indiscriminately from as many bags *(Journal Asiatic Society*, 1838, p. 706 :)—

All four burn with copious rich flame, coke close grained, and of highly metallic lustre.

Dr. Helfer states the river to be navigable to the Coal, but that only by means of rafts, during the rains for five months of the year.

Captain McLeod ascended by water to within eight or nine miles of the Coal; when finding the stream too shallow even for a small raft, he continued the journey by land to the Siamese town Thian Khan, and from thence to the Coal, crossing several small rivers which discharge themselves into the Thian Khan, on the banks of which the Coal is found.

Dated Moulmein, 21st June 1850.

SIR,

IT is generally understood, that there are, in the Provinces of Tavoy and Mergui, rich deposits of valuable ores, and that in Mergui in particular, there are extensive Coal Fields, one of which, but not the best, was, a few years ago, the scene of some limited operations ; but at no time has any minute or scientific examination been made into the extent or value of these resources by persons possessing full leisure, and in all respects qualified to undertake the task ; and it is now generally asserted, that the Coal-mining operations were discontinued just at the time when very superior Coal had been discovered, and they promised most favorably the importance of ascertaining something more of the mineral resources of the Southern portion of these Provinces and of the numerous islands in the Mergui Archipelago, appears to me not to admit of any question, and I would particularly solicit attention to the great saving which might annually be effected to Government, and the great advantage which would accrue to these Provinces, should it be found practicable to discontinue the importation of Coal and to supply the Government Steamers, and probably, before very long, private Steamers also plying between

Calcutta, Ceylon and the Straits, with safe and economical fuel. I am aware that objection was formerly taken to the Coal of Mergui on account of its tendency to spontaneous combustion, but I am given to understand that the Coal to which this suspicion attached was not extracted from the best Mine; it certainly does not at all follow, that because some specimens have been found to contain dangerous properties, the entire Coal of a Province should be equally unfit for use; and that because some parcels have ignited under suspicious circumstances, that combustion proceeds entirely from the quality of the Coal.

2. As a proof of the fallacy of such an argument, I may mention that some hundreds of tons of Coal, imported from England and Scotland, have been consumed in the Depôt at this place within the last few years, yet no one has ever thought of attributing the fires solely to the peculiar properties of the Coal.

3. The expense of importing the quantity annually required for the service of this Port does not fall short of Rupees 30,000, a sum which, if expended within the Province, might be productive of much good.

4. But it is not merely to the Coal deposits, valuable as they are believed to be, that I would direct attention; it is well known that there is excellent iron and tin in the Southern Districts; it is believed that copper is also to be found, and probably lead and silver may likewise be discovered.

5. It is also well known, that one of the first elements of success in the development of mineral riches exists in the highest perfection, *viz.*, water carriage; the numerous streams are navigable for a considerable distance, and the islands may be closely approached on all sides by vessels of large burthen; indeed few countries are more favourably situated in this respect than the Tenasserim Provinces; yet the whole coast is neglected and the very extent of our territory is still a matter of doubt.

6. I have no intention of recommending at present, that mining operations should be renewed on the part of Government; but as it is well known, that an extensive steam communication is about to be established in the Eastern Seas, and such communication must inevitably increase with the progress of time, I consider it my duty to draw the attention of Government to the importance and expediency of causing the resources of the Southern districts of these Provinces, which are believed to be the most rich, to be carefully examined and reported on, in the expectation that should the results be favorable, the great Steam Navigation Companies or other capitalists may be attracted to localities, which seem to be most conveniently situated; and although I have no assistant who is capable of conducting an inquiry of this nature, I am happy to say, that should the Government approve of the suggestion, the services of Mr. E. O'Riley, who has long resided in these Provinces and possesses much information respecting them, and probably sufficient knowledge of Geology and Mineralogy to admit of his furnishing a valuable report at a charge of perhaps not more than Rupees 500 per mensem, including travelling expenses, are available. Mr. O'Riley is the same gentleman whom I lately recommended for employment on a mission to the Shan States, but doubts may well be entertained whether the state of affairs in that direction may at the beginning of the cold season admit of his proceeding to Tinmay with any prospect of benefit to commerce.

7. Feeling convinced of the importance of ascertaining more of the resources, which are believed to exist within these Provinces, than is at present known, and of the incalculable advantages which might result to this jurisdiction from the facts being made known to the world at large, I beg to recommend that the opportunity which presents itself of obtaining much useful information at small cost, by employing Mr. O'Riley, may not be permitted to escape. I should think that Rupees 500 per mensem, including travelling charges, would be a fair rate of remuneration, and the period of his deputation would not exceed 3 or 4 months.

I have the honor to be, &c.,

EXTRACT FROM PROFESSOR OLDHAM'S REPORT.

COAL.—The specimens of Coal forwarded with Mr. O'Riley's Reports and alluded to in his "Memorandum on Mineral Specimens," consist of some from the Little Tenasserim, supplied to him by Captain Berdmore and others from the Lenya River.

Those from the Little Tenasserim River did not prove on analysis equal in quality to the Coal from the same vicinity referred to in the Reports of the Coal Committee (1846, pages 144-145,) a difference accounted for by Mr. O'Riley from the fact of his specimens having been taken from the surface after having been exposed to atmospheric influence.

His Reports do not afford any information regarding the facility of access to this Coal, or the possibility of its economical extraction.

The specimen forwarded can scarcely be called a Coal at all, consisting almost entirely of argillaceous shale, charged with a considerable amount of bituminous matter, and consequently inflammable: some few thin flakes of pure Coal occur traversing the mass.

With regard to the specimens from the Lenya River, called by Mr. O'Riley Cannel Coal, they are peculiarly interesting, geologically, from the abundance of amber or resinous matter which they contain in thin flakes and small nodular masses. Although from all analogy, the presence of this amber would lead me to suppose that this "Coal" is geologically of much more recent date than the true carboniferous system, I should be unwilling to arrive at any definite conclusion from such small hand specimens.

It is the presence of this amber, which renders the mass so highly flaming, and which might possibly render it a useful material for the manufacture of gas, but it entirely unfits it for sea-going steamers, or any purposes, where it would not be stationary.

In several of the Reports submitted to me, and also in the published Reports of persons employed by Government to examine various districts, I find such variety of statements with reference to Coal, and such uncertainty as to the relative values of the different kinds submitted to trial (most of these reporters appearing to suppose that the power of *raising steam rapidly* is all that is necessary,) that I would beg to submit for the information of His Honor the Deputy Governor of Bengal, a brief summary of the qualities which every Coal should possess for the purpose of sea-going steamers. That the fuel used should be capable of raising steam in a short time, or, in other words, that it should be *quick in its action*, is desirable, but it must also possess high evaporative power, or be *capable of converting a large quantity of water into steam*, relatively to the consumption of fuel; it must besides have such a cohesion among its particles, as that the constant motion of the vessel should not break it into small fragments, and further it must unite with a considerable density, such a *mechanical structure* as will enable it to be stowed in small space, a difference of great importance, inasmuch as in Coals possessing the same evaporative power, or capable of converting the same quantity of water into steam, there is frequently a difference in respect of stowage of fully 20 per cent. that is, 120 tons of one Coal can be stowed in the same space as only 100 tons of the other. There are points not peculiarly applicable to Coals used for steamers, but to be attended to in all Coals, such as the absence of any considerable quantity of sulphur, which would render it liable to spontaneous combustion, and the absence also of any undue amount of bituminous matter, which would produce a disagreeably large amount of smoke.

Undoubtedly, all these qualities do not exist together in any one Coal, but the value of a fuel, specially for the purposes of steam-ships, essentially depends on the comparative presence or absence of a combination of these qualities.

Viewed therefore with reference to these qualities, neither of the Coals submitted by Mr. O'Riley, (even supposing they could be obtained in any quantity and economically,) are calculated to prove a good fuel for sea-going steamers; they both possess too little cohesion of particles, or are too brittle; the evaporative power of one is very low, that of the other rather high, but too rapid; while neither promises to *stow* well. These opinions must, however, be understood as formed solely from an examination of the specimens sent forward by Mr. O'Riley, and which may not afford a fair average of the Coals procurable in the district.

The papers subsequently received also are, to my mind, quite conclusive as to the improbability of any profitable workings being carried out to any extent in the localities Mr. O'Riley has described, as well from the difficulties of access and want of facility of carriage, as from the unpromising nature of the beds which he has described.

Major Bogle has very justly directed attention to the fact of an extension of steam communication in the Eastern Seas, as a strong inducement to ascertain precisely the probability of useful deposits of Coal being formed in such localities within the Tenasserim Provinces as might be readily accessible. There can be no question, that the discovery of any extensive and easily wrought Coal Field in these districts would be one of extreme importance. The rapidly increasing spread of steam communication to India, to the Cape of Good Hope, and onwards to China, and the contemplated establishment of lines of steam communication between the Australian Colonies and other places, both by Panama and the Cape, together with the shorter lines, which must inevitably be dependent on these great undertakings, all these indicate the value of any good Coal Field conveniently placed for the supply of fuel to the many depôts which must be established, and in many respects the Tenasserim Provinces possess great advantages as regards the locality; and the question of the existence of good and extensive deposits of mineral fuel in these Provinces becomes therefore one of very much larger scope and importance than if viewed simply as regarded to Coal supplies.

I am not inclined to rely much on the statements made to Major Bogle, that the Coal-mining operations in Mergui were discontinued just at the time "when very superior Coal had been discovered, "and they promised very favorably." Such assertions are almost invariably made on the abandonment of any Mine, and generally proceed from persons who allow their private interests to overcome their accuracy of statement, and Major Bogle is also perfectly justified in repudiating the objection (of its spontaneous combustion) urged against some of the Mergui Coal, as being applicable to all. the cases in which this occurred may have originated in carelessness in shipping the Coal, or in many other ways, on which, without a knowledge of all the circumstances, I could not speak; but even did the combustion arise from the peculiar chemical composition of the Coal, the serious objection arising from it would only apply to Coal of the same quality and from the same bed, and by no means to other Coal, which might perhaps be obtained within a few feet of the bad fuel, and yet possess all the qualities of a good useful Coal. Major Bogle's letter alludes to mining operations carried on by Government in the Mergui district. Of the extent and character of these operations, I have no knowledge whatever but I am disposed to think, that no mining operations whatever should be undertaken or carried on immediately by the Government of this country. To conduct satisfactorily any mining operations demands, on the part of those superintending them, such an amount of constant and unremitting attention, as can scarcely be expected where the personal interests of the parties are not concerned, and where the responsibility is to a great extent divided; and the experience of all past attempts fully confirms the opinion, that it is much more expedient that private parties should be induced (even by allowing them at first great benefits and large profits) to undertake such schemes, than that Government should through their agents do so.

I respectfully conceive, that all that a Government is fairly called on to do is to obtain such information as may be depended on for its accuracy, and shall be entirely above the suspicion of being given

by interested parties; and this information, when considered desirable, being made public, there can, I should think, be little question, that if a fair prospect of good remuneration exist, there will be no want of persons to undertake the practical and actual working of the scheme, and one advantage resulting from this is that the persons, whose attention is likely to be attracted by the publishing of such information, are exactly those who, from former experience or previously acquired skill in similar undertakings, are the most likely to be successful in carrying them on. Restrictions as to the mode of working will undoubtedly be desirable to guard against a waste of the valuable material and the chances of loss of human life; and should mining operations become considerably extended in India, certain legislative enactments regulating the operations may be necessary; but at the first opening of a district, such will not be required.

From these considerations, I would most fully coincide with Major Bogle in recommending, that mining operations should not be renewed on the part of the Government, either at present, or at any future period, while I equally agree in thinking it both important and expedient, that the Provinces to which he refers should be carefully examined and reported on.

Appendix A.

Report on the Coal of the Great Tenasserim, by Captain Tremenheere, Executive Engineer, dated 10th June 1841

Locality.

THIS Coal Field is situated on the Great Tenasserim River, about sixty-seven miles from the Port of Mergui The delta of the river occupies twenty miles of coast, within which space there are many outlets, but the navigable channel discharges itself three miles South of the Town Its course in ascending has a South-eastern direction for thirty-eight miles, when it turns suddenly to the Northward, it is here joined by the Little Tenasserim River from the South; and the ancient Capital of the Province, the Town of Tenasserim, is situated at the point of junction. The Coal is seventeen miles due North of Tenasserim, but the sinuosities of the river increase the distance to twenty-nine miles.

The River

2. The banks of the river are in a few places one hundred and one hundred and twenty yards apart, but two hundred yards may be called the average breadth above Tenasserim, below this it is in no part less than three hundred

It discharges a large body of water during the South-west monsoon; the greatest difference of level at different seasons observed at the Coal site is thirty-five feet, and though there is a rise of tide at Mergui of eighteen feet, ships at anchor there during the freshes are said not to swing to the flood. At Tenasserim the daily rise and fall is six feet, which, sixteen miles higher up, is reduced to one and a half feet, and though the highest springs are felt within eight miles of the Coal, the tide cannot be said to assist navigation for more than fifty-four miles.

Obstructions in the River.

3 I passed up the river for the purpose of inspecting the Coal Mine between the 12th and 16th of April, when the channel is confined to nearly its narrowest limits For the first forty-nine miles, it is little affected in point of utility by the changes of season; it affords for that distance a broad and deep channel, entirely free from rocks or other impediments, and is at all times fit for inland navigation of any description. Above this, the course becomes more tortuous, and the rise of its bed increases by a succession of platforms, the edges of which present, at this season, sloping ridges of gravel across the stream, which cannot be avoided.

They are fourteen in number, but the difference of level at each step is not great, and the current not accelerated thereby at any one point to more than four and a half miles per hour. The depth of water above and below was usually three feet, but on these gravel banks, it varied from 1 foot 10 inches to 1 foot 6 inches and 13 inches. They are from forty to eighty yards in extent, and form with the sand-banks some sudden turns in the stream. Its width for the last eighteen miles was very variable, but there is, one point excepted, abundance of water-way, and no other obstructions than the banks just described At the point alluded to, the stream was restricted to seventy feet, with a current of three and a half knots, the current at other parts being about two knots.

Time of passage from Mergui

4. The time occupied in proceeding from Mergui in a boat drawing two feet of water was four days. Delays occurred at each of the shoals, but not of long duration, the gravel was easily moved with the aid of the current and the boat dragged over it.

Physical feature of the Coal basin.

5. It has been mentioned, that the general course of the river above Tenasserim, is from North to South, which is likewise the case at the locality of the Coal It here passes through a valley four miles long in this direction, and two miles across in its broadest part from East to West. On the East it is bounded by a high range of hills, to which the river is nearly parallel, and on the West by a minor range which touches the river at its Northern and Southern extremities and turns away from it one mile in the centre. There is a gorge at the central part of this minor range, giving rise to a stream which has been hitherto known as the Coal Nullah, as the Coal was first pointed out by the late Dr Helfer in the bank of that stream at the point marked I in the plan, from which spot the Coal exported recently from Mergui has been obtained.

The bed of Coal.

6 The bed of Coal, which has been worked under the superintendence of Second Lieutenant Hutchinson, is six feet in thickness, and crops out to the day in the left bank of the stream, its upper surface being on a level with the water in the dry season and covered by a few feet of shale with the soil above. It dips to the East, or towards the river, at an angle varying from 24 to 29. There are several smaller seams below this, alternating with clay to the depth of eighteen feet, but the upper one of six feet is the only workable bed.

The Mine.

7. The Mine was opened from the out-crop of the Coal and carried down the angle of dip: the chief working has been to the left, or North of the first excavation, as the dip on that side is less by 5° Being situated in the bed of the stream, and covered only by porous material, it was much impeded by water during the rains, and though the course of the stream was turned, the pumps in use, of five inch diameter and one foot lift, were insufficient for unwatering the Mine at each fall of rain and rise of the water level in its immediate vicinity The pumps were worked by hand labor. In December last, a Marine Engine of ten-horse power was received for this purpose, which was put together on the spot and enabled the work to proceed. The pumps were then connected with the Engine, making forty revolutions per minute, a speed which, owing to the smallness of the diameter and lift, it was necessary to maintain, but which is totally unadapted to mining operations. No pipes were received with the pumps, but hollow bamboos were substituted, and the means supplied were, in my opinion, quite inadequate for working a Mine of any extent, or to the expectation, except under the most favorable circumstances of a profitable return for money expended The angle of dip at which the work has been carried on is one of great practical inconvenience, and I have much doubt whether, even with complete machinery, Coal could have been obtained from this Mine, excepting for a very short period, so as to be shipped at Mergui at a rate at all approaching to the average price of Coal in India. Much, however, has been done by the exertions of Lieutenant Hutchinson; about one thousand tons of Coal have been got out during the twenty months since ground was broken; and the skill and ingenuity shown in the management of the very imperfect means placed at his disposal are highly creditable to that Officer

8 The operations should not, in my opinion, be considered as those of a Coal Mine, but as an experimental working, and when the large sums of money expended at the commencement of undertaking of this nature in other countries before Coal is reached, are also considered, I shall, I trust, be able to make it appear that the prospects from this Coal Field are not discouraging

The Coal formation

9. Nothing satisfactory appears in the nature of this Coal deposit, to enable me to refer it to the true Coal measures of the carboniferous system. There is no trace of limestone of any description, or of red sand stone, either old or new, within the distance of several miles to which observations of the structure of the country have been made. The surface of the hills on either side of the basin, and for a considerable space towards the centre, is covered by an overlying clay-stone porphyry, which bears no relation to a deposit of Coal. This is thickly penetrated by veins of quartz, and the hills on the West (judging by the large masses of quartz with which the ravine abound) consist principally of that rock, while the streams on the

An addition to the salary of the European Overseer, who has the responsible charge of tools, materials, &c., of 30 Rupees per month, is recommended, and I venture to suggest, that if the work proceed on the scale proposed, the allowances of the Superintendent be placed on the same footing as those of Engineer Officers holding charges of equal importance and responsibility. I consider Second Lieutenant Hutchinson qualified in every respect to conduct any operations at the Coal Field that may be determined upon.

25. It is proposed to raise the Coal from two shafts, by means of cattle-wheels, which can be constructed on the spot from a model which has been left with Lieutenant Hutchinson. There is abundance of good timber at hand (the Peemah) for this purpose.

Price at which Coal may be shipped at Mergui.

26. Placing the utmost limit of expenditure, with the means above detailed, provide for all contingencies at 2,200 Rupees per month. The cost of Coal at the Pit's mouth, when the machinery is fixed and the Mine fairly open, may be thus estimated :—If only 10 tons be raised daily from each shaft, 20 tons per day for 25 days = 500 tons per month, at a cost of 2,200 Rupees. The cost of one ton will therefore be 4 Rupees 6 Annas 5 Pie, or 2 Annas 6 Pie per maund. The Coal is at present brought down the river on bamboo rafts. The present cost of transport to Mergui by contract amounts to 2 Annas 9 Pie per maund, being carried on men's shoulders a distance of 1,300 yards to the river, but if conveyed on a tram road and lodged upon the raft, for which the new arrangements provide, the cost of carriage to Mergui would be reduced to 1 Anna 7 Pie per maund, making the total cost of Coal brought alongside shipping at that place 4 Annas 1 Pie per maund.

To be shipped if possible from the raft.

27. While upon the raft, the Coal is almost wholly immersed in water. Landing it at Mergui should be avoided as much as possible, and it should in all practicable cases be shipped from the rafts.

28. During four months of the year, from 15th June to 15th October, a steam tug, with tenders, lashed alongside, might be usefully employed in conveying Coal to Mergui, and would perform nine trips in the month, but owing to the sudden turns and set of the stream in various places before noticed, together with the shallowness of the water and the rapidity of the current at those parts during the rest of the year, I am unable to suggest any better or more economical method of conveying Coal down the river during that period than by the bamboo rafts hitherto used.

Supervisor of Bamboo Forests.

29. There is no apprehension of a deficiency of bamboos for their construction for an unlimited period, but to secure an unfailing supply within a moderate distance of the Coal Field, and to prevent waste and destruction by the contractors supplying the rafts, the services of a native supervisor are necessary. The wages of such a person are provided for in the estimate of future expenses.

30. On the 2nd of May I quitted the Coal Field. The river had then risen one cubit, but it fell afterwards to its former level. The water this year was considered unusually low. Some loaded rafts, which had been despatched on the first rise, were, after proceeding a few miles, detained at one of the shallows and had not arrived at Mergui on the 20th, the day on which I embarked.

Appendix B.

Extract of a Report on Coal discovered in the Tenasserim Provinces, by Dr. Helfer, 23rd May 1838.

Five localities of Coal have hitherto been found in the Tenasserim Provinces, all situated in the Province of Mergui.

1*st*, On the Great Tenasserim, nine days' journey from Tenasserim Town, near the creek called Nan their Koungmy, one and a quarter miles inland. Species, friable brown Coal, intermixed with iron pyrites. Three veins occur in different localities. 2*nd*, Eight days' journey from Tenasserim Town, along the banks of the river. Species of lignite and light slaty brown Coal occur in veins, three or four inches thick, &c. *(Vide Journal of the Asiatic Society*, 1838, p. 701.*)*

From the Report of Dr. Helfer in the "Journal of the Asiatic Society," vol. vii. 1838.

On the Coal river, a branch of the Little Tenasserim, five days' journey by water, in a South-east direction, slaty Coal, sp. gr. 1 26 occurs. The bed 6 feet thick, 240 feet long, dips at an angle of 20 degrees in the bank of the river. One hour distant, an immense Coal Field, of either slaty or conchoidal Pitch Coal occurs, highly bituminous, without pyrites. A succession of fourteen localities, where the Coal lies bare on clay on both sides of the river, occur, running at an angle of 25 degrees, and the river breaking its way through the Coal in all places 6 feet or more thick, resting on a stratum of slate.

This extensive Coal Field is situated on a high level table land, only diversified by an isolated range of mountains, from which the river passes through the Coal Fields. The river is above 15 yards broad, nearly dry part of the year, but uniformly navigable for rafts for five months of the year up to the Coal Field.

The Coal itself is of superior quality, being that peculiar species known in England as Pitch Coal, which is much higher in price than the common Coal, and on account of the greater quantity of bitumen which it contains is used for the generation of gas.

A great advantage of the locality is the total absence of land carriage, as the Pits are in fact opened by the river. The difficulty of navigation is confined to the last 20 miles, the passage being there obstructed by sunken trees and drift wood.

The last 30 miles being navigable only during five months of the year, it would be necessary to have a depôt of Coal near this situation, ready to be-shipped when the water begins to rise.

A depôt should also be formed at Mergui, where vessels could easily approach the shore.

The stratum above the Coal is nowhere more than 25 feet, and consists of bad slaty Coal, grey and debris of slate, with coarse gravel and alluvium.

Digging.

a, One person digs in one day 20 maunds, in six days 120, in a year 6,240. Wanted for 10,000 Tons, 43 men, say 45.

One convict, at 4 Rs. per month.....45 × 4 = 180 × 12 = 2 160 Rs.

b, Working 9 hours per day, a person transports from the Coal Pit (15 feet deep) to the water edge, 200 yards distant, in 10 minutes, a cart load. To transport 10,000 tons therefore, 38 men, say 40, are required.

Being convicts at 4 Rs. per month,..40 × 4 = 160 × 12 = 1,920 Rs.

Transport on Bamboo Rafts.

a, Each bamboo raft, 25 feet long by 6 feet broad (double bottom 2 feet high,) holds 1 Ton of Coal; 10,000 rafts therefore necessary.

b, Two men fill and construct such raft in one day; it is therefore necessary to employ 20,000 men's labour for one day, at 3 annas 1 pice wages per day, ... 6,666 Rs.

c, To load the rafts the same number of men is repuired as (*a. b.*) according to the above calculation, ... 1,920 „

d, The river is navigable for five months of the year, from June and to November exclusive. In this time 66 rafts must be despatched every day.

e, Going slowly, the rafts arrive during the monsoon in three days, at the junction of the Coal river, with the other forming the Little Tenasserim. To this point two men are required to direct each raft, 10,000 rafts each, ... 19,998 Rs.

f, Two men, three days' pay, from there to the junction of the Great Tenasserim River, going slowly two days' distance. At this place the river is so broad, that eight rafts fastened to abreast can be directed by two men.

1250 rafts × 2 days, at 5*a*. 1*p*., ... 1,806 „

g, From the village of Tenasserim to Mergui, two days (with the tide,) 16 rafts can be tied together, directed by two men.

625 rafts × 2m. at 5*a*. 1*p*., ... 938 „

Pay of the labourers going back by a straight road cut across the jungle.

Required 20,000 men's labor (each raft two men) three days, ... 20,000 „

Establishment.

1. One Superintendant.
2. One Cashier and Book-keeper.

Two Depôt Overseers.

d, One Overseer for transport down river.

e, One Overseer for building rafts.

f, Ten Minor Overseers in the Coal Pits, say Two Thousand Rupees per month.

24,000 Rupees.

1,000 Repair of different buildings, wear of implements and instruments.

2,000 Unforeseen Expenses.

East, containing tin and fragments of slate, denote the primitive structures of the mountains on that side of the river. The only other rock in the neighbourhood is a ferruginous grit-stone, dipping immediately below the Coal beds, but I saw in it no character to allow of its being placed so low as the carboniferous system.

The shales from the roof of the Coal have numerous vegetable impressions, but of small size, and they appear to be allied to existing species. The series of beds above the Coal, which are seen in the opposite side of the river and will be hereafter described, amounting to 500 feet, consist chiefly of soft shales of various colours, sand-stone, and shale conglomerate, composed of the debris of other strata similar to their own. They are also intersected in two places by parallel dykes of igneous rock, but none of them seem to have undergone that degree of pressure and solidification which is apparent in Coal measure shales of the older periods, nor have there been yet seen any specimen of organic substances amongst them to authorize their being referred thereto.

10. In the absence of guides by which these questions are usually decided, and with the anomalous character of the adjoining rocks, the true nature of the Coal must be determined by external characters, by its behaviour in the fire, and by its composition.

The quality of Coal.

11. It is found in a hard and solid bed, consisting of layers of slaty structure, parallel to the bed, and is easily separated in that direction. Between the lamin, there are thin plates of arsenical iron pyrites. It is brought to the surface in cuboidal pieces, which do not however preserve their size under rough treatment. Its cross fracture is conchoidal and it is fibrous, dividing into thin plates in the opposite direction, while its flat surfaces present a ringed appearance, much resembling the ringing of wood, as seen in transverse sections. Its lustre is somewhat glistening when freshly broken on the Mine, and colour dull black; but after exposure to the atmosphere, it loses this appearance and assumes a brownish black colour. It does not soil the fingers, but it is deficient in that "glow" or metallic lustre, which is eminently charateristic f Mineral Coal. Its specific gravity is 1.2. In the flame of a spirit lamp, it exhibits some inflammable gas and gives off a small quantity of brown oily bitumen; it does not swell and emits but little smoke. It consists chiefly of carbon, and leaves, when well burnt, a very small proportion of residue.

In an open fire it refuses to inflame without the action of the bellows, and will not do so without a strong draught. When burnt in the fire, its appearance very much resembles that of common charcoal, the thin plates before mentioned assuming that divergent shape observable in charred wood. The conclusion to which, from the foregoing considerations I have arrived, is, that it belongs to that description of Coal termed Wood Coal or Lignite.

12. Its serviceable qualities are not best determined in the Laboratory. It burns well in the fires of the Marine Engine at the Mine, and no difficulty is found there in keeping up the steam. The fire bars were placed at small intervals, to suit the Coal which is liable to break up into small pieces. No rate of expenditure had been determined, as the Engine was worked much under its full power. Twenty tons were shipped at Madras in the *India* Steamer, and the report by the Commander, Captain Henderson, and of the Chief Engineer on board, which was published, is satisfactory. It is stated to require great care and labor "to manage the fires well, but not more than is required with the Burdwan Coal; that it has a strong heat and could keep good steam with careful firing." Its consumption, when compared to English bituminous Coal, was estimated as 4 to 3 during a short trial, and from ten to twelve maunds per hour. I have heard, however, other statements, which are not so favorable. I find that a ton weight of the loose Coal occupies 165 cubic feet. There are at present about 100 tons at Mergui, and I would suggest that a careful trial be made of this quantity to ascertain its real effect in the duty of Steam Engines.

The strata penetrated.

13. I proceeded to trace the connection of the bed with the adjoining rocks, and to ascertain, if possible, the position of the Coal beds of this locality. The ground had been penetrated in four other places; besides the Mine marked 2, 3, 4, 5 in the plan, all in its immediate neighbourhood. No. 2 shaft passed through the six feet bed at the same level as in the Mine, and it was found to dip at the same angle; below this, smaller seams, not exceeding one foot, alternated with seams of under clay for eighteen feet; twenty feet of a quartzose rock and conglomerate were penetrated afterwards, and the shaft then discontinued for want of means to get the water out. The object of this sinking was to find deeper Coal. A detached fragment of Coal containing some bitumen was found. No. 3 shaft was driven through forty feet of shale with vegetable impressions covered only by the soil, and abandoned. No 4 shaft was sunk with reference to future work. After going through the clays and sands at the surface, and 61 feet of conglomerate, dipping in like manner with the Coal, it stopped at 95 feet, till means should be available for carrying it deeper, it being the intention to move the Engine here, at the commencement of the monsoon, when the old work would be no longer tenable; and if the dip of the Coal continued the same, it was expected to be reached at 300 feet. Boring No. 5 was carried forty feet lower than this shaft, but without showing any indications which could be relied upon.

The site of the working.

14. It will be seen on the plan, that the site of these shafts is in the immediate vicinity of the central part of the minor range of hills on the West bank of the river before noticed; their steep slopes extend within 250 yards of Nos. 1, 2 and 3, which are either upon or close to the up-turned edge of the bed of Coal. As this, as well as all the accompanying strata penetrated, rested at the inconvenient angle of not less than 24°, my first objects were to ascertain the extent of the Coal Field, and whether the same or other beds might not be found in a position more convenient for practical purposes.

The Coal Beds on the East side of the river.

15. The configuration of the ground, an elongated trough or basin between two ranges of hills, gave me reason to believe that these were the natural limits of the Coal beds which have been exposed to view; and having, on my passage up the river, observed shale and sand-stone with vegetable impressions in the left or East bank, about a mile below the Coal Wharf at V., I examined at an early period of my visit the rocks on that side. I found here the whole series of Coal beds, consisting of sand-stone, shales and coal interstratified, and lying with great regularity and low angle of dip between *p* and *c* for three quarters of a mile on the line A B in the plan. They are inclined down the stream, or towards the South-east, on the direction of the bank, and rest upon each other for the space mentioned, at an angle of from 9° to 7°. Tracing the beds from point V in the plan, two faults are found at *c* and *o*, between which points the strata are thrown down in the same direction, and to the East at an angle of 30°, but on the North side of the fault *o*, they are undisturbed and dip at an angle of 7°. At *n* a small seam of coal appears at *e*. The shale is of blue colour, with numerous vegetable impressions and Coal, and at *d* there is a seam of coal cropping out at the level of the river. The intermediate shales are variegated, brown, white, striped blue and black.

16. Section No. 1 represents these beds, as they appear at different points above the level of the river along the line of bank, A B The measurements taken on the line, and the uniform angle of dip, gives a total thickness of 500 feet.

Thickness of these Beds.

17. At the point *c*, there is a change in the rocks, and hardened red clay, with rounded fragments of shale, passes into the shales, but without any alternation on the angle of dip, and at 200 yards up the stream, they cease altogether, the bank being then composed entirely of clay.

18. In proceeding higher up the river, with a view to trace these beds and ascertain their true angle of dip, and after passing the hill at E. the northern extremity of the lesser range, there is a reach of the river bearing East and West, or nearly at right angles to its general course; and at the Western part of this reach. I again found the same series of Coal beds, well exposed on the bank for half a mile along the line C D, as shown in section No. 2. They have evidently been the cause of this short and sudden bend of the river. The rocks first appear in this reach near the point D, where, for a short distance, as at *h e*, on the other face, they are hardened by contact with a dyke of igneous rock, which shows itself at C″ in the line C D. At *p* soft shales, with seams of under clay and Coal, are found; at *d″* a seam of Coal crops out at the level of the river, which being at the same level, belongs without doubt to the same beds, which are indicated on the other side of this tongue of land at *d*. The beds upwards from *d″* consist of striped blue and soft grey shales, the whole resting uniformly upon each other and dipping at one angle of 12° up the stream, or to the Eastward, till we arrived at the point *o″*, where there is another igneous dyke and the strata are thrown down thereby to the Eastward at an angle of 30°. These were followed as far as the point S″ in the Yaibon River, to which they continue at the same high angle, but beyond this, and for some distance higher up the Yaibon, all trace of them is lost

19. The correspondence of the bed *c″ c d″ d* of the dykes *c″ c o″ o*, and faults S″ S, and the phenomena accompanying them, leads at once to the inference, that the edges of rock, as seen along the lines C, D, A, B, present two views of the same beds, that their angle of greatest dip is 12°, and that they are continuous from one side of this tongue of land to the other. In examining the country inland, the dyke *o* was distinctly marked at various points between *o* and *o″*, and its direction is shown on the plan.

Igneous rock was also found at intervals between *c* and *c″*, denoting that though these igneous dykes passed through the Coal Field and disturbed the continuity of the beds, they remained between the two dykes and across the tract between *o″ c″ c o* unbroken, and resting on one another with great regularity, at an angle with the horizon, varying from 7, 9 to 12°. The space covered thereby is 1¼ miles in length by 400 yards in average breadth.

20. The bed of Coal at *d″ d*, I believe to be of the same thickness and quality as that which has been worked at the Mine. There is in the bed of the stream, near the opening of the Mine at I, the fractured edge of a ferruginous rock distinctly marked, which dips immediately below the Coal at the same angle with it, and has been forced up at the same period. The bearing of this edge is 21° East of North, which is denoted by a black-dotted line in the plan. The position of the out-crop of Coal *d″*, which was arrived at by observations independent of the line of bearing alluded to, is, as nearly as possible, upon this line, and the Coal shown at these two points formed, I conceive, at one period, a continuous bed. A quantity of hard specimens were collected at the points *d d″*, as soon as the Coal was pointed out, but being on a level with, and below the water, with a high precipitous bank above, the depth of the bed could not be ascertained immediately.

The workable bed of Coal.

Instructions have been left with Lieutenant Hutchinson to penetrate the Coal near the two points *d″ d*, and report on the thickness of the working bed without delay.

Section No. 3, which is taken in a direction from West to East, from the gorge of the lesser range at G to the East bank of the river at *m*, shows the relative positions of the Coal which has been worked, and the bed *d d″*, at the point *m*, where the section strikes the opposite bank. It includes the shafts and other excavations, the depths of which are shown at their proper level. The space between these and the river is covered by sands, clays and other superficial deposits, without any indication of Coal. The beds are broken off abruptly along the line A B, and the depth at which they might be found on the West side of the river, in the absence of any other indication than the disturbed strata at 1, 2, 3, 4, would be subject to much uncertainty. The space to the Northward of this, between the line G W H, and the out-crop of Coal at *d* and the points *d* L, would be subject to the same chances; but supposing the bed to be continuous with regularity across the river to the South, it would not be reached at any intermediate point between L and M along this line, at a less depth than 330 feet below the lowest level of the river.

21. For these reasons, I am compelled to recommend that the work hitherto prosecuted on the West bank shall be entirely abandoned, and if it be desirable to raise Coal from this Coal Field, that the operations may be transferred to the other side of the river, within the limits of the space marked by a dark shade on the plan, and bounded by the igneous dykes before mentioned. The Coal measures within this space lie in a manner unusually favorable for mining, as independent of their moderate angle of dip, they are protected from all but surface waters by the high inclination of the strata on the outer side of the igneous dyke *o″ o*, which dips away from them to the East at an angle of 30°, and the Coal may be reached within the limits of the space *o d* and *d″ o″* in the plan at such depth as may be selected with reference to the extent of work intended (*vide* Sections Nos. 1 and 2.) The total depth of these beds ascertained is 500 feet. There is every reasonable probability of their containing the six feet seam of Coal (one most convenient size for working) as indicated at *d* and *d″*; and within this mass of Coal-bearing strata, there may be other beds of workable Coal. Experiments below the lowest beds here seen would not I think be attended with success.

Recommends the Mine, &c. to be abandoned, and work to be continued on the opposite side of the river.

22. The superficial area covered by the portion of the bed of Coal on this side of the river considered workable, I estimate at 280 acres. Its dip varies from 12° to the N. E. by N. at the Northern extremity *c* D to 9° and 7° to the S. E. by S. at its Southern edge A B. It crops out at the surface at the two points *d d″*, and to the Eastward of a line joining these points for the distance of 440 yards, it may be reached at any depth not exceeding 50 fathoms from the river level. Experimental shafts are in progress near the points *d d″*, but Pits for work should be placed first along the line *e″ g″* parallel to *d d″* and distant 160 yards, where the Coal will be found at 100 feet below the same level, provided the field is not otherwise broken up by faults and dykes than by the two longitudinal igneous dykes represented in the plan. No indication of such further disturbance has been yet observed; but to provide for the contingency, I should recommend that the line for pit-work should be kept, as above suggested, within a moderate distance to the Eastward of the line of out-crop of Coal. The ground near this line is low and favorable for work, and Coal may be raised at either end of the bed at 500 yards from the river and lowered from the bank over deep water.

The extent of workable Coal.

23. It would lead however only to disappointment if work be commenced on this side of the river without some important additions to the machinery at present available. The Engine itself is of old construction and requires frequent repair, but for power it is effective, when in order. Its speed, forty revolutions per minute, is not adapted for mining purposes, which must be reduced to fifteen per minute by additional wheel-work, to make it available as a Pumping Engine. The rest of the machinery on the spot consists of one forcing pump, 5 inch diameter and 10 inch lift, without air vessel; three suction pipes, 5 in diameter and 1 foot lift, without pipes; 72 feet of 3 inch pipe, and two iron winches worked by hand. These, excepting the winches, are too small for use, and pumps of proper dimensions are indispensably necessary and should be supplied before it is attempted to raise Coal. A memorandum of the machinery and stores required for immediate use, together with drawings of gear, &c., by Lieut. Hutchinson, is submitted herewith, enclosure No. 1. It involves the smallest outlay, which will enable the work to proceed with advantage.

Additional Machinery required.

General Post Office Notifications.

NOTICE TO THE PUBLIC.

AN Act No. XVII. of 1854 "for the management of the Post Office, the regulation of duties of postage, and for the punishment of offences against the Post Office," will come into operation on the 1st of October next, the attention of the public is drawn to some of the most material of the changes which have been made in the rates of postage to be paid, and to the conditions under which letters, banghy-parcels, newspapers, pamphlets, &c., will be conveyed by post.

On and after the 1st October 1854, no money payments will be received at any Post Office on account of letters to be despatched pre-paid; letters which the sender wishes to despatch pre-paid, must have postage stamp labels pasted or gummed on them, of value sufficient to cover the postage.

If the value of the stamps affixed to any letter be less than the full amount of postage chargeable, twice the difference between the value of the stamps affixed and the proper postage will be charged on delivery.

Letters sent unpaid, will, on delivery, be charged double postage.

Parcels, newspapers, pamphlets and printed and engraved papers may be sent paid or unpaid, at the discretion of the sender.

No receipt will be given for any but registered letters, on which the authorised registration fee has been paid.

Letters re-directed or forwarded, will be charged, in addition to the postage paid or due on them with the rate of postage which they would be liable to had they been posted and pre-paid at the place at which they may be re-directed.

Provided that the full amount of postage is pre-paid, the following rates of postage will be charged for the conveyance of a letter from one Post Office to another within the territories under the Government of the East India Company, with-

out reference to the distance to which it may be carried :—

Letters not exceeding in weight.	Postage Charge.	Number of rates of Postage.
A Quarter Tolah, ...	Half Anna,	1 Rate.
Half a Tolah, ...	One Anna,	2 Rates.
One Tolah, ...	Two Annas,	4 Rates.
One Tolah and a Half,	Three Annas,	6 Rates.
Two Tolahs, ...	Four Annas,	8 Rates.

For every tolah weight above two tolahs, two additional annas, or 4 rates of postage. Every fraction of a tolah above two tolahs will be charged as an additional tolah.

Postage stamp labels should be pasted or gummed on the upper right hand corner of the letter, on the side on which the direction is written, as in the specimen given in the margin. Postage stamps can only be used once.

J. Smith, Esq.,

No. Jaun Bazar Lane,

Calcutta.

The postage chargeable on a newspaper, pamphlet, or other printed or engraved paper published in India, and not exceeding 3½ tolahs in weight, will be two annas; without reference to the distance to which it may be conveyed. Imported newspapers, &c., not exceeding 6 tolahs in weight, will be conveyed for the same charge. The conditions under which newspapers are received and transmitted by post remain unaltered.

Banghy parcels will be charged by weight and distances according to the following Scale :—

For Distances.		If not exceeding in weight													
		20 Tolahs		100 Tolahs		200 Tolahs		300 Tolahs		400 Tolahs		500 Tolahs		600 Tolahs

When Letter and Banghy Mails are conveyed in the same carriage, letters must not be enclosed in Banghy Parcels, under a penalty of 50 Rupees.

On all parcels chargeable with Banghy postage according to distance when conveyed by land, Shippostage is chargeable when they are conveyed bymeans of the East India Company's post by Sea, according to the following scale, *viz.* :

On every parcel not exceeding one hundred tolahs in weight, eight annas.

And for every hundred tolahs in weight, above one hundred tolahs, eight additional annas; and every fraction of one hundred tolahs above one hundred tolahs, shall be charged as one hundred additional tolahs; and if such parcel be conveyed by the East India Company's post, partly by Banghy and partly by Sea, Ship-postage shall be charged in addition to inland Banghy Postage.

No person shall knowingly post or send, or tender, or deliver in order to be sent by the post, any letter, parcel or packet, containing any explosive or other dangerous material or substance; and any person contravening this prohibition, shall forfeit for every such offence, a sum not exceeding Two Hundred Rupees. Section XXIV. Act XVII. of 1854.

Postage stamps, in small quantities, can be purchased for Cash at every Post Office and Receiving House, and from every licensed stamp vender. Persons requiring more than nine rupees' worth of stamps, can procure them at any public Treasury, and will be entitled to receive a discount at the rate of four annas for every nine rupees paid.

Unclaimed letters, if the sender's name and address be written on the cover, will be returned to the Posting Office, to be delivered to the sender free of all charge. If the sender's name and address is not on the cover, the letters will be sent to the Post Master General of the Presidency, to be by him opened and returned (if possible) to the sender.

No letter on which the Indian rate of postage is not pre-paid, can be despatched by H. M.'s Mails, or to any place to which a communication shall not have been established by the East India Company.

Letters conveyed by the East India Company's packets or posts from place to place by Sea, or partly by land and partly by Sea, are liable to Inland postage only. But letters sent by Her Majesty's Mail Packets, are liable to British packet postage, and letters sent or received by private ship, are chargeable on delivery with a Ship-postage of one anna in addition to the Inland Postage chargeable according to their weight under Act No. XVII. of 1854

Letter boxes for the receipt of unpaid and stamped letters, will remain open at every Post Office day and night, except for a quarter of an hour after the hour fixed for the closing of each Mail.

Letters may be registered on payment of a fee of four annas, which must be pre-paid. A receipt will be given to the person posting a registered letter, and a receipt will be demanded from the addressee on the letter being delivered.

No. 2259.

THE Deputy Post Master General regrets to inform the public, that from a communication received from the Post Master of Tezpore it appears, that the Calcutta Mails of the 22nd ultimo, for Tezpore, Assam, Seebsaugor and Debrooghur, and also the Mails for those places sent from Gowhatty and Mungledye on the 31st idem, were totally lost, with the Dak Boat, on the night of the latter date, at "Pobamaree Chapree," a little above Mungledye. The accident is attributable to the falling in of the bank, which fell on the boat, and caused the same to sink immediately.

Rangoon Post Office Notice.

LETTERS and Newspapers, which should be addressed to RANGOON only, are frequently directed by mistake to Pegu or Burmah, and letters, &c. intended for delivery in Pegu, Prome, Bassein and other places in the Provinces, are in like manner erroneously addressed to "Rangoon, Burmah." The Rangoon Post Master begs to notify that, with such *vague* directions, this Department is left to find out to which of the Stations such letters should be forwarded, and from want of information, great disappointment is felt when they are despatched to the wrong Station. To obviate this, it is desirable, that parties posting letters in Calcutta or elsewhere, should be careful to direct them to their respective Stations, and to inform their Agents and Correspondents, when leaving one place for another, of their change of address, to ensure letters being directed to the proper Station. A list of places in the Pegu Provinces or in Burmah, and their distance from Rangoon, is annexed below, *viz.*:

Notice to Mariners.

DEVAAR LIGHTHOUSE.

THE COMMISSIONERS of NORTHERN LIGHTHOUSES hereby give Notice, that a LIGHTHOUSE has been built upon the ISLAND of DEVAAR, at the Entrance to the BAY of CAMPBELTOWN, in the County of ARGYLL, the Light of which will be exhibited on the Night of MONDAY 10th July 1854, and every Night thereafter, from the going away of daylight in the evening till the return of daylight in the morning.

The following is a Specification of the Lighthouse, and the Appearance of the Light, by MR. DAVID STEVENSON, *Engineer to the Commissioners.*

The LIGHTHOUSE is in N. Lat. 55° 25′ 45″, and W. Long. 5° 32′ 16″.

The DEVAAR LIGHT will be known to Mariners as a REVOLVING LIGHT, which shows a bright white Light once every half-minute.

The Light is elevated about 120 feet above the level of high water of ordinary spring tides, and may be seen at the distance of about 15 nautic miles, and at lesser distances, according to the state of the atmosphere: to a nearer observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness. The arc, illuminated by this Light, extends from about S. ¼ E. by compass to about W. *b.* N., and faces Northwards.

And the COMMISSIONERS hereby further GIVE NOTICE, that Her Majesty, by Order in Council, dated 29th December 1853, was pleased to order and direct that, upon the Erection and Lighting of the said Light upon the Island of Devaar, there should be paid, in respect thereof, for every Vessel belonging to the United Kingdom of Great Britain and Ireland (the same not belonging to Her Majesty or being navigated wholly in ballast.) and for every Foreign Vessel, which by any Act of Parliament, Order in Council, Convention or Treaty, shall be privileged to enter the Ports of the United Kingdom, upon paying the same Duties of Tonnage as are paid by British Vessels, the same not being navigated wholly in ballast, which shall pass or derive benefit from the said Light, that is, which shall arrive at or depart from any Port or Place in the Bay or Loch of Campbeltown, if the burthen of the same shall not exceed Fifty Tons, Six-pence, and if the same shall exceed Fifty Tons, for each additional Fifty Tons, or part of Fifty Tons, Six-pence.

And Her Majesty was further pleased to order and direct, by the said Order in Council, that in respect of the said Light on Devaar, and in respect of another light in Loch Ryan, on the South side of the Basin of the Clyde erected by the said Commissioners, there shall be paid by every Vessel before described, and under the exemptions aforesaid, which shall navigate on a distinct voyage within the Great Basin of the Clyde, bounded by a line drawn from the Point of Corsewall to Glenarm in Ireland, on the South-east, and from another line drawn from the Mull of Kintyre to Fairhead, in Ireland, on the North-west, and on all other sides by the coasts of Ireland and Scotland surrounding the said Basin, a similar rate of Toll to that above set forth, being at the rate of Three-pence for each of the said Lights.

Double the said respective Tolls for every Foreign Vessel not privileged, as aforesaid.

Provided always, that Vessels arriving at or departing from any port or place within Loch Ryan, or within Campbeltown Loch, and paying the rates for such respective voyages, shall not in addition be liable in payment of the rates for navigating the Basin of the Clyde.

The above rates are, by another Order in Council, declared to be subject to the following abatements on payment:—

Over-sea Vessels, Twenty-five per cent.
Coasting Vessels, Ten per cent.

Secretary.

Preamble.

WHEREAS it is expedient that every decision, sentence, or final order, made or passed by any Officer of the East India Company acting judicially, together with the reasons for the same, should be written in English or in the Vernacular language of the Officer by whom the same is made or passed, and should be signed by him at the time of pronouncing such decision, sentence, or order; It is enacted as follows :—

Decisions to be written in the Vernacular language of the Judge and to be signed by him and filed.

I. Every decision, sentence, or final order, which shall hereafter be made or passed by any Officer of the East India Company acting judicially, together with the reasons for making or passing the same, shall be written in the Vernacular language of such Officer, and shall be dated and signed by such Officer in Court at the time of his making or passing the same, and the original shall be filed with the record or proceedings in the case, and a translation thereof, where the original is recorded in a different language to that in ordinary use in proceedings before such Officer, shall be incorporated in the decree, or record of the decision, sentence, or order.

Translation when to be recorded.

Points to be established shall be written in the Vernacular language of the Judge, and signed by him in Court.

II. Whenever, in any suit before any Officer of the East India Company acting judicially, the points to be established by the parties respectively, or on which proof is required by the Court, are directed by law to be recorded, the points shall be written in the Vernacular language of such Officer, and the writing shall be dated and signed by him in Court at the time of his announcing the points to the parties; and if the Vernacular language of such Officer be different from the language in ordinary use in proceedings before the Court, a translation shall be incorporated in the record.

III. Nothing in this Act, or in Act No. XII. of 1843, shall be so construed as to require the Officers of the East India Company acting judicially to write their decisions, sentences, injunctions, or orders, or to record the point or points to be established by the parties respectively, under the last preceding Section in open Court.

No appeal for non-compliance with this Act or Act No. XII. of 1843.

Legislative Council.

16th September 1854.

THE following Bill was read a second time in the Legislative Council on the 16th of September 1854, and referred to a Select Committee, who are to report thereon after the 20th of November next :—

A Bill for the more effectual suppression of affrays concerning the possession of Property.

Preamble.

WHEREAS the provisions of the existing law for preventing affrays concerning the possession of land within the Presidency of Fort William in Bengal have been found to be insufficient, and it is expedient to extend and alter the same; It is hereby enacted as follows:—

Acts repealed.

I. Act No. IV. of 1840 Sections VI. and VII., Act XV. of 1845, and Act XXVII. of 1845, are hereby repealed, except in so far as they repeal any previous enactments, and except as to any order passed, acts done, offences committed, or liabilities incurred, before the passing of this Act.

If a dispute about property causes, or is likely to cause, a breach of the peace, Magistrate is to inquire who was the actual possessor before dispute.

II. Whenever a Magistrate has reason to believe, that a dispute exists concerning any property of whatever description, moveable or immoveable, or concerning any right to collect rents or dues, or concerning any road, water, fishery, or common, or the mode of using the same, and that such dispute has led, or is likely to lead, to a breach of the peace respecting the possession or use of such property, he may record the grounds of such belief, and summon all, or any of the parties concerned in the dispute, whether proprietors, dependent talookdars, under-farmers, ryots, or other persons, to attend his Court, in person or by agent, and make judicial inquiry in respect to the actual possession or use of the subject in dispute when the dispute arose, without reference to any question of right.

Pending the inquiry Magistrate may take possession.

III. Pending such inquiry, a Magistrate may attach, and take possession of the subject of dispute, and may retain possession thereof and may employ such Officers or other servants as may seem to him to be necessary for the due care and custody of such subject of dispute.

The person having the actual possession or use before the dispute, to be put and maintained in possession.

IV. On the conclusion of such inquiry, the Magistrate shall record a proceeding, declaring who was in actual possession of the subject in dispute when the dispute arose, or (where the right to use, and not the property itself, is in dispute, and such use is capable of being exercised at all times of the year,) who may have exercised such right within three months from the date of the institution of such inquiry, or (where the right to use exists at particular seasons) who may have exercised such right when least capable of being exercised; and the proportions in which the expenses of the inquiry and of the custody and care of the subject in dispute are to be borne by all or any of those concerned, and may issue a warrant directing the Police Officers of his district to put such person or persons in possession of the subject of dispute, or to maintain him or them in the exercise of the right of use therein, employing force if necessary, until ousted by order of a competent Court.

Expense of inquiry, &c., how to be realized.

And he may realize such expenses from each of the parties by whom they are to be borne, by distress and sale of the moveable or immoveable property, other than the subject in dispute, of such party, in the manner prescribed for the levy of fines under Act II of 1839.

Upon complaint of forcible dispossession or disturbance party may be put and maintained in possession.

V. If any party complain to a Magistrate that he has been, without authority of law, forcibly dispossessed of any land, premises, water-courses, fisheries, crops, trees, or other produce of land, or of the right of use of any land or water within the jurisdiction of such Magistrate, whether the same were possessed by such party as proprietor, dependent talookdar, farmer, under-farmer, ryot, or otherwise, the Magistrate shall direct the issue of a notice requiring the party or parties complained against to appear and make defence, in person or by agent, within 15 days from the date of the service of such notice, and if after the examination of the necessary witnesses and documents, the complaint appears to him to be substantiated, he shall record a proceeding, ordering the party complaining to be put again into possession of the subject of dispute, and maintained in possession, until the right to possession be determined by a competent Court; provided that no such order shall be passed unless the party complaining of having been so dispossessed prefer his claim within one month from the time of such dispossession, or if such party be a Native Officer or Soldier, within such period as may be considered by the Magistrate reasonable, with reference to the distance of such Native Officer or Soldier and the means of communication.

Proviso.

Newly-formed land or property to be attached by Collector, who shall certify who is entitled to possession.

VI. If the subject of dispute be newly-formed land or other immoveable property, of which it appears to the Magistrate on enquiry that no party has ever had possession, the Magistrate may require the Collector to certify who is entitled to be put in possession of the disputed property, and to attach and manage the same until one of the contending parties shall be put in possession. For this purpose the Collector may exercise all the powers prescribed by Regulations VII. of 1822 and IX. of 1825 of the Bengal Code, and in making the said declaration shall be guided, as far as possible, by the principles laid down in Regulation XI. of 1825 of the Bengal Code.

Collector to exercise powers of Regulation VII. of 1822 and Regulation IX. of 1825.

And to be guided by Regulation XI. of 1825.

Magistrate to put the party in possession and Collector to pay him the rents.

VII. On the receipt of such declaration the Magistrate shall put the party named in such declaration as entitled to the possession of such property, in possession thereof, and it shall be lawful for the Collector to pay to such party the rents and produce, or such portion thereof as may remain after satisfying the expenses attendant on, and incident to, the management of such property

Reference to Arbitration.

VIII. The Magistrate may, with the consent of the parties concerned, refer any case brought before him under Section 11. of this Act, to an Arbitrator or Arbitrators, for inquiry and decision, and in such case the Magistrate, in recording the Official proceeding specified in Section III., shall be guided by the award of the Arbitrators as to the party to be put in possession of the subject in dispute.

No appeal from order of Magistrate or Collector, but Sessions Judge may, within a month, call for the record and require further evidence to be taken.

IX. There shall be no appeal from any order passed by a Magistrate or Collector under the foregoing Sections of this Act, but at any time within one month after the date of such order or declaration, the Sessions Judge may, on application of any of the parties concerned, call for the record, and if it should appear that there has been any fault in the proceedings of the Magistrate or Collector, whereby any party has been denied a fair hearing, or there has been otherwise a failure of substantial justice, he may require the Magistrate to take further evidence, and, if necessary, to review his former decision. But no order of a Magistrate or Collector passed under the foregoing provisions of this Act shall be suspended or stayed, nor shall any such order be modified or reversed, except under the provisions of this Section, or by the judgment of a Civil Court passed on a regular suit.

Magistrate may in certain cases require land-holder, &c., to discharge servant.

INSTRUCTIONS CONCERNING THE REGISTER BOOKS.

Every Government Church or Station will continue, as at present, to be supplied, on application, through the officiating Minister or Chaplain, with three separate Books as above, of proper size, namely, one for the Registry of Baptisms, one for the Registry of Marriages, and one for the Registry of Burials.

Each of these Books to be carefully lithographed or printed, and each page to be headed and ruled in divisions or compartments, in conformity with the Forms prescribed and as set forth above.

That with reference to these Books, every Minister, when requested to perform any of the ministrations to be thus entered, do, before the ceremony, require the parties interested, either to state to him personally, or to deliver to him or the Clerk, a memorandum containing the full particulars necessary, to enable him as the Minister, to prepare the proper Register.

The entry in each compartment to be independent and complete in itself, by the insertion of the Year, Month and Day. The names in full, and description of parties, as set forth, and to be signed in the last column by the Officiating Minister.

It will be observed, that in the form of Marriage Register, a column has been added for the signatures of the contracting parties. This column to be placed immediately preceding the column for the signatures of the Witnesses to the Marriage.

Fresh Register Books, for the Registry of Marriages, will contain this additional column and the alteration in the headings.

The Register Books to be in the custody and keeping of the Minister of the Church or Station, or in case of avoidance or absence, to be made over or placed in mean while with the Magistrate or other chief authority of the Station.

As each Book is filled, the same (except at the Presidency Churches, to be forwarded to the Registrar, to be deposited in the Bishop's Registry at Calcutta, for general reference.

That with the view of avoiding any omission or mistake, and of rendering the proper entries in these Books as correct as possible, as to dates and names or otherwise, the parties interested therein be required by the Minister to inspect and examine at the time or after the ceremony such entry, and any error pointed out in the spelling of the proper-names or otherwise, be corrected by the Minister *immediately*, and in the *presence* of such parties.

That should the parties concerned in any entry, not avail themselves of such requisition, and should fail to examine carefully such entry, or to point out any error at the time aforesaid, they, or others in their behalf, be allowed to inspect the Registers during the existing and following quarter without fee.

That upon such after examination, should any error be detected, the same be pointed out to the Minister, who, if satisfied as to such mistake, shall then, in the presence of at least one of the principal parties or at the request in writing of such party, correct such mistake, signing his own initials as Minister, against the same, in the margin of the Register.

That should the Returns have been already forwarded for the particular quarter, containing such error, the Minister shall, with his next immediate Quarterly Returns and not afterwards, forward an amended Return of such corrected entry, to be transmitted to Government with the then general Returns. Such amended Return to be final. After which period, namely, the quarter next following that within which the mistake occurred, no correction or alteration whatever shall be permitted to take place.

That a Notice be placed up in some conspicuous part of every Church of this Rule, and of the period thus allowed, the parties to examine the correctness of any entry, in which they are concorned; and the Clergy are also required to bring the Rule in question prominently to the attention of the parties interested, previous to, or immediately after, the performance of the ceremony.

In the case of a Burial beyond the immediate Station of the Minister, or at a distant place, considered as attached to the local charge, or as nearest to the Chaplaincy, when the Service is read by a Layman or other proper functionary on the spot, or is performed by any other authorized Minister than the Minister of the Station, the Return of such Burial in the form prescribed, is to be signed or attested by the signature of the person so officiating, and to be forthwith transmitted to the Chaplain nearest, for the purpose of being copied and entered by him, in the Burial Register of the Station; such Return to be entered as an extra Return, and to be so entered with any others received during the existing quarter and immediately after the last entry of the quarter: which extra entries to be attested as follows:—"The foregoing extra Returns have been officially received and registered by me as the Minister, during the above quarter." "Signed A. B., Minister of————"

The foregoing mode of registering a Burial beyond the Station, is to supply, in the only way possible, the defects arising from the still anomalous state of this Diocese.

THE QUARTERLY RETURNS.

The quarterly attested copies of the Registers, as transmitted to the Episcopal Registrar, being in the nature of Duplicate Registers, are to be continued to be made as now quarterly, namely, from the 1st of January to the end of March, from the 1st of April to the end of June, from the 1st day of July, to the end of September, and from the 1st day of October to the end of December. These Returns to be attested in the following form and signed by the Minister:—

"I hereby certify, that the foregoing Returns of Marriages, Baptisms, or Burials, [as the case may be] are true copies of the entries in the Register of [Marriages, Baptisms, or Burials, as may be] belonging to and kept at the Church or Station of————in the Archdeaconry of Calcutta, as therein entered, from the First day of———— ————to the————day of————being the first————(or any other quarter as may be) in the year of our Lord 18——.

"Witness my hand this————day of———— 18——.

"A. B.

"*Minister and Chaplain.*"

These Returns to be made out separately as to Marriages, Baptisms and Burials, and verified and attested respectively.

In case of no ministrations being performed during the quarter, such fact to be always certified by the Minister to the Registrar.

With the view to facilitate these Returns and their general correctness, a sufficient number of printed sheets will be supplied periodically by the Government to each Minister, commencing from 1855.

The Ministers requiring such forms to apply by letter to the Registrar. Such application to be made, once only, in every year, unless upon any unexpected emergency, to be satisfactorily explained. The application to set forth the probable number of sheets or forms required for the year, or any further period.

All such Returns, when completed, to be transmitted to the Registrar on service within a month from the expiration of every quarter.

The Minister to preserve and keep the forms thus to be supplied, in the chest, with the Register Books, who will be careful in filling them up in a plain legible hand.

Any erasures or material alterations in these copies, to have the initials of the Minister prefixed in the margin, as having been made by him.

In addition, the following directions of Archdeacon Dealtry, published in the *Gazette* in March 1843, on the subject of the Returns, are given for continued observance:—

Ecclesiastical.—"Viewing the importance to "the public of the regularity and completeness of "the Official Returns of the Clergy, it is with the "approbation of Government, in future directed by "the Archdeacon—

"That any Chaplain or Minister, applying for "any permanent leave of absence from his Station, "or to retire on Furlough, shall forward with his "application a Declaration, that he has duly made "his Official Returns to the Registrar, or is prepared to do so, to the date up to which he requests to be permitted so to be absent or to retire.

"That the same Rule is to apply to those removed from one Station to another, and that every Chaplain so removed shall, before quitting his Station, not only forward his Returns up to the date of leaving, but forward a declaration to the authorities that he has done so.

"That in case of the death of a Chaplain at his Station, especially so if at a remote distance, a "copy of the Returns from the date of his last "Quarterly Returns to the period of his demise be "made out by the Clerk, or other local public authority, in whose official possession the original "public Registers may happen for the time to be "lodged or come, and be immediately forwarded "by such local Officer to the Registrar, the same "being also duly examined and verified under the signature of the chief Lay Public Authority of the Station as being the best mode at present of supplying such, so as to complete the General Quarterly Returns, transmitted home by the Orders of the Court of Directors."—*Government Gazette, 31st March* 1843.

The foregoing suggestions as to the Registers and Returns having been approved both by the Supreme Government and the Bishop, the Commissary is desired to add that any unauthorized deviation of them, or any repetition of irregularity, is to be submitted by the Registrar to the Bishop, and that his Lordship will, considering the important interests involved, proceed to pass such admonition or sentence, or take such other steps, as the case may seem to call for and justify.

A printed copy of these suggestions to be furnished also to every Clergyman of the Episcopal Church, hereafter ordained, or arriving in the Diocese, or when licensed.

H. S. Fisher,
Commissary.

Legislative Council.

16th September 1854.

THE following Bill was read a second time in the Legislative Council on the 16th of September 1854, and referred to a Select Committee, who are to report thereon after the 20th of November next :—

A Bill for the more effectual suppression of affrays concerning the possession of Property.

Preamble.

WHEREAS the provisions of the existing law for preventing affrays concerning the possession of land within the Presidency of Fort William in Bengal have been found to be insufficient, and it is expedient to extend and alter the same; It is hereby enacted as follows:—

Acts repealed.

I. Act No. IV. of 1840 Sections VI. and VII., Act XV. of 1845, and Act XXVII. of 1845, are hereby repealed, except in so far as they repeal any previous enactments, and except as to any order passed, acts done, offences committed, or liabilities incurred, before the passing of this Act.

If a dispute about property causes, or is likely to cause, a breach of the peace, Magistrate is to inquire who was the actual possessor before dispute.

II. Whenever a Magistrate has reason to believe, that a dispute exists concerning any property of whatever description, moveable or immoveable, or concerning any right to collect rents or dues, or concerning any road, water, fishery, or common, or the mode of using the same, and that such dispute has led, or is likely to lead, to a breach of the peace respecting the possession or use of such property, he may record the grounds of such belief, and summon all, or any of the parties concerned in the dispute, whether proprietors, dependent talookdars, under-farmers, ryots, or other persons, to attend his Court, in person or by agent, and make judicial inquiry in respect to the actual possession or use of the subject in dispute when the dispute arose, without reference to any question of right.

Pending the inquiry Magistrate may take possession.

III. Pending such inquiry, a Magistrate may attach, and take possession of the subject of dispute, and may retain possession thereof and may employ such Officers or other servants as may seem to him to be necessary for the due care and custody of such subject of dispute.

The person having the actual possession or use before the dispute, to be put and maintained in possession.

IV. On the conclusion of such inquiry, the Magistrate shall record a proceeding, declaring who was in actual possession of the subject in dispute when the dispute arose, or (where the right to use, and not the property itself, is in dispute, and such use is capable of being exercised at all times of the year,) who may have exercised such right within three months from the date of the institution of such inquiry, or (where the right to use exists at particular seasons) who may have exercised such right when least capable of being exercised; and the proportions in which the expenses of the inquiry and of the custody and care of the subject in dispute are to be borne by all or any of those concerned, and may issue a warrant directing the Police Officers of his district to put such person or persons in possession of the subject of dispute, or to maintain him or them in the exercise of the right of use therein, employing force if necessary, until ousted by order of a competent Court.

Expense of inquiry, &c., how to be realized.

And he may realize such expenses from each of the parties by whom they are to be borne, by distress and sale of the moveable or immoveable property, other than the subject in dispute, of such party, in the manner prescribed for the levy of fines under Act II. of 1839.

Upon complaint of forcible dispossession or disturbance party may be put and maintained in possession.

V. If any party complain to a Magistrate that he has been, without authority of law, forcibly dispossessed of any land, premises, water-courses, fisheries, crops, trees, or other produce of land, or of the right of use of any land or water within the jurisdiction of such Magistrate, whether the same were possessed by such party as proprietor, dependent talookdar, farmer, under-farmer, ryot, or otherwise, the Magistrate shall direct the issue of a notice requiring the party or parties complained against to appear and make defence, in person or by agent, within 15 days from the date of the service of such notice, and if after the examination of the necessary witnesses and documents, the complaint appears to him to be substantiated, he shall record a proceeding, ordering the party complaining to be put again into possession of the subject of dispute, and maintained in possession, until the right to possession be determined by a competent Court; provided that no such order shall be passed unless the party complaining of having been so dispossessed prefer his claim within one month from the time of such dispossession, or if such party be a Native Officer or Soldier, within such period as may be considered by the Magistrate reasonable, with reference to the distance of such Native Officer or Soldier and the means of communication.

Proviso.

Newly-formed land or property to be attached by Collector, who shall certify who is entitled to possession.

VI. If the subject of dispute be newly-formed land or other immoveable property, of which it appears to the Magistrate on enquiry that no party has ever had possession, the Magistrate may require the Collector to certify who is entitled to be put in possession of the disputed property, and to attach and manage the same until one of the contending parties shall be put in possession.

Collector to exercise powers of Regulation VII. of 1822 and Regulation IX. of 1825.

For this purpose the Collector may exercise all the powers prescribed by Regulations VII. of 1822 and IX. of 1825 of the Bengal Code, and in making the said declaration shall be guided, as far as possible, by the principles laid down in Regulation XI. of 1825 of the Bengal Code.

And to be guided by Regulation XI. of 1825.

Magistrate to put the party in possession and Collector to pay him the rents.

VII. On the receipt of such declaration the Magistrate shall put the party named in such declaration as entitled to the possession of such property, in possession thereof, and it shall be lawful for the Collector to pay to such party the rents and produce, or such portion thereof as may remain after satisfying the expenses attendant on, and incident to, the management of such property.

Reference to Arbitration.

VIII. The Magistrate may, with the consent of the parties concerned, refer any case brought before him under Section II. of this Act, to an Arbitrator or Arbitrators, for inquiry and decision, and in such case the Magistrate, in recording the Official proceeding specified in Section III., shall be guided by the award of the Arbitrators as to the party to be put in possession of the subject in dispute.

No appeal from order of Magistrate or Collector, but Sessions Judge may, within a month, call for the record and require further evidence to be taken.

IX. There shall be no appeal from any order passed by a Magistrate or Collector under the foregoing Sections of this Act, but at any time within one month after the date of such order or declaration, the Sessions Judge may, on application of any of the parties concerned, call for the record, and if it should appear that there has been any fault in the proceedings of the Magistrate or Collector, whereby any party has been denied a fair hearing, or there has been otherwise a failure of substantial justice, he may require the Magistrate to take further evidence, and, if necessary, to review his former decision. But no order of a Magistrate or Collector passed under the foregoing provisions of this Act shall be suspended or stayed, nor shall any such order be modified or reversed, except under the provisions of this Section, or by the judgment of a Civil Court passed on a regular suit.

Saving of legal right of attachment or seizure.

X. Nothing in this Act contained shall affect the legal exercise of any right of attachment or seizure vested by law in any parties.

Penalty for opposing the execution of an order.

XI. Whoever, by force or threats, opposes or impedes the execution of an order passed by a Magistrate under any of the preceding Sections of this Act, or knowingly contravenes the same, is liable to imprisonment, with or without labour, at the discretion of the Magistrate, for a term not exceeding six months, or to fine not exceeding Rupees 200, commutable, if not paid, to a period of imprisonment not exceeding six months, or to both imprisonment and fine as aforesaid.

If breach of peace appear probable, Magistrate may employ Police for prevention, and charge the cost of their maintenance upon the parties.

XII. Whenever it shall appear to the Magistrate that a breach of the peace is likely to be committed, or that it is necessary to take special measures for the prevention of any heinous violence, he may employ any reasonable number of Police, for such time as may appear to him to be necessary, for the purpose of preventing a breach of the peace or other crime, and may, after summoning and hearing the parties, charge the cost of maintaining such Police, in such proportions as he may think proper, upon the persons by, or on whose behalf, or with whose consent, such breach of the peace or other crime was likely to be committed; and such cost, when charged, shall be realized in the manner prescribed in Section III.

Penalty for not giving correct list of retainers, &c.

XIII. Any land-holder, farmer, or other person, owning or occupying land, who, on being required by the Magistrate at any time of the year to furnish him with a list, in the form A. appended to this Act, of all guards, watchmen, messengers, retainers, and other like servants, (not being actually and ordinarily employed in household or menial offices) in his employ at that time, or of such servants employed or discharged during the current calendar year, refuses or omits to do so, or who omits to include in such list the name of any such servant employed by him during the year, or who makes any untrue statement therein, shall for every such offence be liable to fine not exceeding Rupees 100.

Magistrate may in certain cases require land-holder, &c., to discharge servant.

XIV. If a Magistrate see reason to believe that any servant or retainer of any land-holder, farmer, or other person owning or occupying land, is likely to be employed to commit riot or breach of the peace, he may record the grounds of such belief and require the discharge of such servant or retainer. Whoever, on being so required, shall refuse or omit to discharge such servant or retainer, shall be liable to fine not exceeding Rupees 100.

Penalty for refusal.

Penalty for hiring club-men, &c.

XV. Whoever, with intent to cause, or to facilitate the commission of riot or affray, hires, engages, or employs club-men, fighting-men, or others, for the purpose of taking forcible possession of any property contrary to law, or for the purpose of intimidating any person or compelling him to give possession of any property, or authorizes, or induces another to do so, is liable for each person so hired, engaged, or employed, to imprisonment for a term not exceeding six months, with or without labour, at the discretion of the Magistrate, or to a fine not exceeding Rupees 200, commutable, if not paid, to imprisonment, with or without labour as aforesaid, for a period not exceeding six months, or to both.

Penalty for taking hire to commit riot.

XVI. Whoever takes hire, or otherwise engages himself, for the purpose of committing or aiding the commission of riot or affray, is liable to the penalties specified in the last preceding Section of this Act.

Magistrate may in certain cases require a person to enter into a Mochulka or security under Act V. of 1848.

XVII. Whenever it shall appear to a Magistrate, upon the report of a Police Officer or other credible information, that a riot or an aggravated breach of the peace is likely to be committed, and that it is necessary for the maintenance of the peace to require any person to enter into a Mochulka or security under Act V. of 1848, such Magistrate may, if he deem it necessary, issue a warrant for the arrest of such person and proceed further as directed in the said Act.

A portion of the Sunderbuns, known as the Tuffal Aurungs, of the late 24-Pergunnahs Salt Agency, has been specially set apart for this purpose, and Licences to manufacture will be granted to applicants on the following terms and conditions :—

1. The Sunderbun Lots 131 and 132, in the first instance, afterwards Lot 149, and subsequently Lots 127, 128, 150, 151 and 152, in such order as may hereafter be judged expedient, will be made available for the manufacture of Salt on the system of Excise.

2. Lands suitably situated in the above locality will be divided into allotments of 50 beegahs each and rented at the rate of one anna per beegah, to parties engaging to manufacture not less than maunds 2,000 of Salt per annum. The rent of the lands must be paid half at the beginning and half at the end of the Season.

3. The supervision of the manufacture will be entrusted to the Superintendent of the Barripore Salt Chokies, assisted by an establishment, whose duty it will be to take an account of the daily manufacture of each Khalary and to prevent mal-practices.

4. The Salt when made, may, at the option and convenience of the Manufacturer, be delivered to purchasers from the Aurungs or stored in Golahs, which will be provided by Government, free of charge; or a Manufacturer may, if he prefers it, under certain conditions, remove his Salt to be stored elsewhere than in the Government Golahs. The weighment on delivery must be made in presence of one of the Supervisor's Officers, and the Permit must be endorsed by the Aurung Assistant.

6. When Salt is to be removed for the purpose of being stored in the Government Golahs (which for the present will be established at Bungundee,) the Boats must be laden and the Salt stamped over in the presence of one of the Supervisor's Officers. It will then be transported to the Golahs by a certain prescribed route under Chellauns, specifying the quantity by Coot measurement. The Chellauns will be numbered and signed and the Boats passed by the Aurung Assistant, who will keep a Register of the Chellauns. On arrival at the Golahs, the despatch will be examined by the Officer in charge of the Golahs, the condition of the Stamps noted, and the Chellaun registered. The Salt will then be weighed into store and the result of the weighment entered in the Chellaun Register, as well as in the Store Account to be kept by the Golah Darogah. The expense of weighing the Salt into store will be borne by the Manufacturer.

7. Each Manufacturer's Salt will be piled in a separate heap and stamped with his own stamp. When a whole Golah is stored with Salt of a single Manufacturer, the Golah will be secured with two locks, one key being kept by the Manufacturer and the other by the Golah Darogah. When a Golah contains the Salt of more than one Manufacturer there will be only one lock, the key of which will be kept by the Golah Darogah.

8. The Registers of Chellauns kept by the Aurung Assistant, and the Officer in charge of the Golahs, will be carefully compared by the Superintendent, for which purpose Extracts will

be sent to him weekly; and if any despatch be not duly accounted for, or if any despatch appear to have been tampered with and the quantity received at the Depôt from such despatch be deficient as compared with the Estimate, no Salt belonging to the party concerned will be allowed to be delivered from the Depôt until the duty chargeable on the deficient quantity shall have been made good.

9. Salt will be delivered to purchasers from the Golahs on the production of Permits to be obtained from the Board's Office in the manner described in Rule 5.

10. Wastage at the rates specified in the margin will be allowed in accounting for Salt stored under these Rules, and duty must be paid by the Manufacturer on any deficiency beyond the allowed wastage, which may not be accounted for to the Board's satisfaction. For the realization of this duty, a sufficient portion of the Salt may be detained and sold by Government.

	Md.	*Srs.*
First Quarter after Storage per 100 maunds.	2	10
Second Do. Do. Do.	3	10
Third Do. Do. Do.	3	30
Fourth Do. Do. Do.	4	0

And an additional allowance at the rate of one maund per annum for Salt kept in store above one year.

11. The Salt of each year's manufacture will be kept separate, in order that the Accounts of each year's store may be duly made up.

12. Manufacturers, who may not choose to store their Salt at the fixed Depôt, must make a deposit of the duty in Company's Paper before removing it, and the duty must be paid in full within six months from the close of the Season, that is, before the 1st December of each year. The Salt must be weighed before removal and an excess of 3 per cent. above the quantity registered for duty will be allowed for wastage. Salt so removed will be protected by special Passes, to be filled up and signed by the Superintendent, and after removal will be at the free disposal of the Manufacturer, subject only to the provisions of Section 46 Regulation X. of 1819. Manufacturers intending to remove their Salt under this Rule must give notice to the Superintendent at the commencement of the Season.

13. The manufacture will be closed on or before the 31st May, and all Salt must be removed from the Aurungs not later than the 15th June. Any Salt remaining in the Aurungs after that date will be liable to be destroyed by the Supervisor's Officers.

14. For a breach of any of the provisions of the Rules, the Licence of the party offending will be liable to be immediately withdrawn, and, in the event of smuggling or connivance at smuggling being proved against the Manufacturer or his duly-authorized Agent, the whole of the Salt manufactured or stored by him will be liable to confiscation.

15. Applicants before receiving their Licences will be required to bind themselves to accept and abide by the conditions embodied in the foregoing Rules.

16. Should any individual or Joint Stock Company desire to manufacture Salt on a large scale elsewhere than in the locality above described, Licences will be granted for such manufacture, provided the site chosen appear on enquiry suitable for the purpose, and a compliance with the application be otherwise unobjectionable. The foregoing terms, except in so far as they may be in part modified by special conditions to be entered in the Licence, will be applicable to Licences granted under this Rule.

No. 1038.

Notice.

It is hereby notified, that measures are in progress for discontinuing the sale of Salt by retail from the Government Depôts on the Mainland of Bullooah and the Island of Dukhin Shabazpore.

From the 1st January 1855, all the Retail Chokies on the Mainland will be closed with the exception of that at Sooderam, where a Stock of Salt will be stored and sold wholesale and retail till such time as there is reason to suppose that arrangements have been made by private Traders for keeping up a constant and adequate supply. Similarly in the Island of Shabazpore a single Depôt for the wholesale and retail sale of Salt, will be maintained at Dowlut Khan.

The Salt delivered from the Depôts will, for the present, be Arracan Salt, and the price Rupees 345 per 100 maunds on purchases of 100 maunds and upwards. Payments on such purchases must be made into the Bullooah Treasury, and Rowannahs to protect the Salt will be granted by the Superintendent of the Bullooah Salt Chokies. For quantities less than 100 maunds, the price will be rupees 3-8 per maund, and the Golah Darogahs will grant Chars for the removal of Salt purchased in such small quantities; but no sales of less than 5 maunds at a time will be allowed.

Rowannah Salt will be allowed free admission both in Shabazpore and on the Mainland, and the prices at the Depôts have been purposely so fixed as to give fair encouragement for a regular trade on the part of private Merchants.

By Order of the Board of Revenue,

A. R. Young,
Offg. Junior Secretary.

Preamble.

WHEREAS it is expedient to make the process of execution on all sides of Her Majesty's Supreme Courts, and in the Courts for the Relief of Insolvent Debtors as near as may be the same; and also to extend and amend the provisions for giving effect to the decrees and orders of Her Majesty's Supreme Court in certain cases

which are contained in Act No. XXV. of 1841. It is enacted as follows:—

Process of contempt not to issue to compel performance of decree, &c. to pay money, or to execute a deed, &c.

I. No process of contempt shall issue to compel the performance of so much of any judgment, decree, sentence, or order, either decretal or interlocutory, made by any of Her Majesty's Supreme Courts or by any of the Courts for the Relief of Insolvent Debtors, as directs any person to pay any money or costs, or to execute any conveyance or other deed or instrument, or to make any transfer or surrender, or to do any act which a constituted Attorney of such person if ordered by the Court to do the same for his Principal would have the means of performing.

Party in default after judgment or order to pay money or costs, to be proceeded against by *Ca. Sa.* or *Fi. Fa.* &c.

II. Where any person is liable to pay any money or costs upon a judgment recovered against him in any of the said Courts or has made default in the payment of any money or costs which by any order, decree, or sentence made in any proceeding by any of the said Courts on any side thereof he has been ordered to pay, execution may be issued either against his person by a writ in the nature of the ordinary writ of *Capias ad Satisfaciendum*, or to levy such money or costs out of his property by a writ of *Fieri Facias* or *Venditioni Exponas* according to the course and practice of the Court as the same shall be settled by the rules and orders to be made for giving effect to the provisions of this Act. Provided that nothing herein contained shall extend to a fine unpaid for a criminal offence, or alter the mode of compelling the payment of such fine.

Proviso.

Sheriff how to deal with money levied.

III. The Sheriff shall pay the money which he may levy under any execution, either to the party named in the writ in satisfaction of his demand or into Court according to the exigency of the writ which shall be in conformity with the order under which the money is payable.

Power to the Court to appoint an Officer to execute any instrument, or to do any act for the person who has been ordered but has failed to execute or do the same.

IV. Whenever any person has been directed by any judgment, decree, sentence, or order of any of the said Courts to execute any conveyance, deed, or instrument; or to make any transfer or surrender; or to do any act which a constituted attorney of such person, if directed by the Court to do the same for his principal, would have the means of performing; and such person has refused or neglected to obey such direction, or has evaded compliance therewith, either by absenting himself in order to avoid service of the judgment, decree, sentence, or order, wherein such direction is contained, or by any other means; it shall be lawful for the Court by which such direction has been given, whether the person disobeying or evading compliance with such direction is in custody or not, upon application made to the said Court for that purpose, and upon proof to its satisfaction of such default or evasion as aforesaid, to order or appoint the Registrar, Master, or other Officer of the said Court to execute such conveyance, deed, or instrument, or to make such transfer or surrender, or to do such other act as aforesaid, for and in the name of the person by whom the same ought to have been executed, made, or done; and every conveyance, deed, and instrument, which shall have been executed, and every transfer and surrender which shall have been made, and every other act which shall have been done by an Officer of Court under the authority of this Act, shall in all respects have the same force and validity as it would have if it had been duly executed, made, or done by the persons for and in whose name it shall have been so executed, made, or done.

Or in certain cases to dispense with the execution of an instrument, or the signature of a writing

V. If it shall appear to any of the said Courts upon an application made to it under this Act, that it can safely dispense with the formal execution of any conveyance, deed, or instrument which the person directed to execute the same has failed to execute, or with the signature of any writing required for the formal performance of any act required to be done but omitted to be done by the person directed to do the same, it shall be lawful for the said Court, in lieu of ordering its Officer to execute the said conveyance, deed, or instrument, or to sign the said writing, by its order to declare that such conveyance, deed, instrument, or writing shall be as valid and effectual to all intents and purposes without the execution or signature of the person directed to execute or sign the same, as it would have been if he had duly executed or signed the same; and thereupon and by virtue of the said order every estate and interest limited by, or intended to pass, or to be released under such conveyance, deed, or instrument, and every interest intended to be transferred by such other act as aforesaid, shall pass to, and become vested in, or be released in favor of, the person or persons to whom such estate or interest is intended to be transferred, or for whose benefit such release is intended to enure, as fully and effectually as the same would have passed or have been released, if such conveyance, deed, or instrument had been duly executed, or the writing required for the performance of such other act as aforesaid had been duly signed, by the person directed to execute or sign the same.

The court empowered to enforce the delivery of any immovable property or any specific chattel, or the deposit of any books, papers, or other articles or things, by seizure.

VI. When any person has been directed by any judgment, decree, sentence, or order of any of the said Courts to deliver up possession of any immovable property or of any specific chattel or security, or to deliver to any person or persons, or to deposit in Court or elsewhere any books, papers, writings, or other articles or things, and has refused or neglected to obey such direction, or has evaded compliance therewith either by absenting himself to avoid service of the said judgment, decree, sentence, or order, or by any other means, it shall be lawful for the Court by which such direction has been given, whether such person is in custody or not, on proof of such default or evasion as aforesaid, to issue a writ or writs to the Sheriff, directing him either to put the party therein named into possession, or to seize and take such chattel, security, books, papers, writings, or other articles or things, and to deal with the same according to the exigency of the writ which in all cases shall be con-

formable to the order to compel the performance whereof the same is issued. But nothing herein contained shall authorize the Sheriff to disturb the possession of any person other than the person against whom such order is made, who either adversely to such person or by title derived through him, has *bonâ fide* acquired an interest in any property movable or immovable which is the subject of such writ.

Proviso.

VII. The first and second Sections of Act No. XXV. of 1841, except as to all proceedings which shall have been had or commenced thereunder before this Act comes into operation, are hereby repealed.

Repeal of 1st and 2nd Sections of Act XXV. of 1841.

VIII. Nothing in this Act contained shall prevent any of the said Courts from issuing process of contempt according to its present course of practice on its Equity side against the person of any party who has been ordered to do any act other than the payment of money, or costs, or the execution of a conveyance, deed, or other instrument, if obedience to such order cannot otherwise be enforced, or against the person of any party who has committed a breach of any injunction; and the Court may issue such process of contempt on any of its sides, and in such cases shall have and may exercise all powers which it now has touching the commitment, detention, or discharge of any person taken under process of contempt issued on its Equity side.

Power reserved to issue process of contempt to compel obedience to orders which cannot be otherwise enforced.

IX. It shall be lawful for Her Majesty's Supreme Courts to frame such new or altered writs of execution as they shall deem necessary or expedient for giving effect to the provisions hereinbefore contained, and by the Rules or orders to be made under this Act, to regulate the mode of issuing and executing such writs of execution.

Court may frame writs of execution.

X. The words "person" and "party" as used in this Act shall be understood to include any body corporate, and though used so as to import the singular number or the masculine gender only, shall be understood to include several persons as well as one person, and females as well as males, unless there be something in the context repugnant to such construction.

Notification.

Salt.

On the re-opening of the Public Offices after the Holidays, *i. e.*, from the 9th proximo, applications for Licences will be received by the Board of Revenue, and also by the Superintendent of the Barripore Salt Chokies, for transmission to the Board, from parties desirous to engage in the manufacture of Salt under an Excise system. A portion of the Sunderbuns, known as the Tuffal Aurungs, of the late 24-Pergunnahs Salt Agency, has been specially set apart for this purpose, and Licences to manufacture will be granted to applicants on the following terms and conditions:—

1. The Sunderbun Lots 131 and 132, in the first instance, afterwards Lot 149, and subsequently Lots 127, 128, 150, 151 and 152, in such order as may hereafter be judged expedient, will be made available for the manufacture of Salt on a system of Excise.

2. Lands suitably situated in the above locality will be divided into allotments of 50 beegahs each and rented at the rate of one anna per beegah, to parties engaging to manufacture not less than maunds 2,000 of Salt per annum. Each new allotment must be contiguous to the one last granted, or as nearly so as the nature of the ground will admit; but any number of allotments may be assigned to a single individual, on his satisfying the Board of his ability and *bonâ fide* intention to work them. The rent of the lands must be paid half at the beginning and half at the end of the Season.

3. The supervision of the manufacture will be entrusted to the Superintendent of the Barripore Salt Chokies, assisted by an establishment, whose duty it will be to take an account of the daily manufacture of each Khalary and to prevent mal-practices.

4. The Salt when made, may, at the option and convenience of the Manufacturer, be delivered to purchasers from the Aurungs or stored in Golahs, which will be provided by Government, free of charge; or a Manufacturer may, if he prefers it, under certain conditions, remove his Salt to be stored elsewhere than in the Government Golahs. In each case the following Rules must be observed :—

5. When Salt is sold for delivery from the Aurungs, the amount of duty leviable upon it, at the rate of Rupees 2·8 per maund, must be paid into the General Treasury, and on production of receipts for such payment, Permits will be granted at the Board's Office for the protection of the Salt, in the same manner as in the case of Salt imported by Sea. The weighment on delivery must be made in presence of one of the Supervisor's Officers, and the Permit must be endorsed by the Aurung Assistant.

6. When Salt is to be removed for the purpose of being stored in the Government Golahs (which for the present will be established at Bungundee,) the Boats must be laden and the Salt stamped over in the presence of one of the Supervisor's Officers. It will then be transported to the Golahs by a certain prescribed route under Chellauns, specifying the quantity by Coot measurement. The Chellauns will be numbered and signed and the Boats passed by the Aurung Assistant, who will keep a Register of the Chellauns. On arrival at the Golahs, the despatch will be examined by the Officer in charge of the Golahs, the condition of the Stamps noted, and the Chellaun registered. The Salt will then be weighed into store and the result of the weighment entered in the Chellaun Register, as well as in the Store Account to be kept by the Golah Darogah. The expense of weighing the Salt into store will be borne by the Manufacturer.

7. Each Manufacturer's Salt will be piled in a separate heap and stamped with his own stamp. When a whole Golah is stored with Salt of a single Manufacturer, the Golah will be secured with two locks, one key being kept by the Manufacturer and the other by the Golah Darogah. When a Golah contains the Salt of more than one Manufacturer there will be only one lock, the key of which will be kept by the Golah Darogah.

8. The Registers of Chellauns kept by the Aurung Assistant, and the Officer in charge of the Golahs, will be carefully compared by the Superintendent, for which purpose Extracts will be sent to him weekly; and if any despatch be not duly accounted for, or if any despatch appear to have been tampered with and the quantity received at the Depôt from such despatch be deficient as compared with the Estimate, no Salt belonging to the party concerned will be allowed to be delivered from the Depôt until the duty chargeable on the deficient quantity shall have been made good.

9. Salt will be delivered to purchasers from the Golahs on the production of Permits to be obtained from the Board's Office in the manner described in Rule 5.

10. Wastage at the rates specified in the margin will be allowed in accounting for Salt stored under these Rules, and duty must be paid by the Manufacturer on any deficiency beyond the allowed wastage, which may not be accounted for to the Board's satisfaction. For the realization of this duty, a sufficient portion of the Salt may be detained and sold by Government.

			Md.	*Srs.*
First Quarter after Storage per		100 maunds.	2	10
Second	Do.	Do. Do.	3	10
Third	Do.	Do. Do.	3	30
Fourth	Do.	Do. Do.	4	0
And an additional allowance at the rate of one maund per annum for Salt kept in store above one year.				

11. The Salt of each year's manufacture will be kept separate, in order that the Accounts of each year's store may be duly made up.

12. Manufacturers, who may not choose to store their Salt at the fixed Depôt, must make a deposit of the duty in Company's Paper before removing it, and the duty must be paid in full within six months from the close of the Season, that is, before the 1st December of each year. The Salt must be weighed before removal and an excess of 3 per cent. above the quantity registered for duty will be allowed for wastage. Salt so removed will be protected by special Passes, to be filled up and signed by the Superintendent, and after removal will be at the free disposal of the Manufacturer, subject only to the provisions of Section 46 Regulation X. of 1819. Manufacturers intending to remove their Salt under this Rule must give notice to the Superintendent at the commencement of the Season.

13. The manufacture will be closed on or before the 31st May, and all Salt must be removed from the Aurungs not later than the 15th June. Any Salt remaining in the Aurungs after that date will be liable to be destroyed by the Supervisor's Officers.

14. For a breach of any of the provisions of the Rules, the Licence of the party offending will be liable to be immediately withdrawn, and, in the event of smuggling or connivance at smuggling being proved against the Manufacturer or his duly-authorized Agent, the whole of the Salt manufactured or stored by him will be liable to confiscation.

15. Applicants before receiving their Licences will be required to bind themselves to accept and abide by the conditions embodied in the foregoing Rules.

16. Should any individual or Joint Stock Company desire to manufacture Salt on a large scale elsewhere than in the locality above described, Licences will be granted for such manufacture, provided the site chosen appear on enquiry suitable for the purpose, and a compliance with the application be otherwise unobjectionable. The foregoing terms, except in so far as they may be in part modified by special conditions to be entered in the Licence, will be applicable to Licences granted under this Rule.

THE following Bill was read a second time in the Legislative Council on the 23rd of September 1854, and referred to a Select Committee, who are to report thereon after the 27th of December next:—

A Bill to assimilate the process of Execution on all sides of Her Majesty's Supreme Courts, and in the Courts for the Relief of Insolvent Debtors; and to extend and amend the Provisions of Act XXV. of 1841.

Preamble.

WHEREAS it is expedient to make the process of execution on all sides of Her Majesty's Supreme Courts, and in the Courts for the Relief of Insolvent Debtors as near as may be the same; and also to extend and amend the provisions for giving effect to the decrees and orders of Her Majesty's Supreme Court in certain cases

which are contained in Act No. XXV. of 1841. It is enacted as follows:—

Process of contempt not to issue to compel performance of decree, &c. to pay money, or to execute a deed, &c.

I. No process of contempt shall issue to compel the performance of so much of any judgment, decree, sentence, or order, either decretal or interlocutory, made by any of Her Majesty's Supreme Courts or by any of the Courts for the Relief of Insolvent Debtors, as directs any person to pay any money or costs, or to execute any conveyance or other deed or instrument, or to make any transfer or surrender, or to do any act which a constituted Attorney of such person if ordered by the Court to do the same for his Principal would have the means of performing.

Party in default after judgment or order to pay money or costs, to be proceeded against by *Ca. Sa.* or *Fi. Fa.* &c.

II. Where any person is liable to pay any money or costs upon a judgment recovered against him in any of the said Courts or has made default in the payment of any money or costs which by any order, decree, or sentence made in any proceeding by any of the said Courts on any side thereof he has been ordered to pay, execution may be issued either against his person by a writ in the nature of the ordinary writ of *Capias ad Satisfaciendum*, or to levy such money or costs out of his property by a writ of *Fieri Facias* or *Venditioni Exponas* according to the course and practice of the Court as the same shall be settled by the rules and orders to be made for giving effect to the provisions of this Act. Provided that nothing herein contained shall extend to a fine unpaid for a criminal offence, or alter the mode of compelling the payment of such fine.

Proviso.

Sheriff how to deal with money levied.

III. The Sheriff shall pay the money which he may levy under any execution, either to the party named in the writ in satisfaction of his demand or into Court according to the exigency of the writ which shall be in conformity with the order under which the money is payable.

Power to the Court to appoint an Officer to execute any instrument, or to do any act for the person who has been ordered but has failed to execute or do the same.

IV. Whenever any person has been directed by any judgment, decree, sentence, or order of any of the said Courts to execute any conveyance, deed, or instrument; or to make any transfer or surrender; or to do any act which a constituted attorney of such person, if directed by the Court to do the same for his principal, would have the means of performing; and such person has refused or neglected to obey such direction, or has evaded compliance therewith, either by absenting himself in order to avoid service of the judgment, decree, sentence, or order, wherein such direction is contained, or by any other means; it shall be lawful for the Court by which such direction has been given, whether the person disobeying or evading compliance with such direction is in custody or not, upon application made to the said Court for that purpose, and upon proof to its satisfaction of such default or evasion as aforesaid, to order or appoint the Registrar, Master, or other Officer of the said Court to execute such conveyance, deed, or instrument, or to make such transfer or surrender, or to do such other act as aforesaid, for and in the name of the person by whom the same ought to have been executed, made, or done; and every conveyance, deed, and instrument, which shall have been executed, and every transfer and surrender which shall have been made, and every other act which shall have been done by an Officer of Court under the authority of this Act, shall in all respects have the same force and validity as it would have if it had been duly executed, made, or done by the persons for and in whose name it shall have been so executed, made, or done.

Or in certain cases to dispense with the execution of an instrument, or the signature of a writing.

V. If it shall appear to any of the said Courts upon an application made to it under this Act, that it can safely dispense with the formal execution of any conveyance, deed, or instrument which the person directed to execute the same has failed to execute, or with the signature of any writing required for the formal performance of any act required to be done but omitted to be done by the person directed to do the same, it shall be lawful for the said Court, in lieu of ordering its Officer to execute the said conveyance, deed, or instrument, or to sign the said writing, by its order to declare that such conveyance, deed, instrument, or writing shall be as valid and effectual to all intents and purposes without the execution or signature of the person directed to execute or sign the same, as it would have been if he had duly executed or signed the same; and thereupon and by virtue of the said order every estate and interest limited by, or intended to pass, or to be released under such conveyance, deed, or instrument, and every interest intended to be transferred by such other act as aforesaid, shall pass to, and become vested in, or be released in favor of, the person or persons to whom such estate or interest is intended to be transferred, or for whose benefit such release is intended to enure, as fully and effectually as the same would have passed or have been released, if such conveyance, deed, or instrument had been duly executed, or the writing required for the performance of such other act as aforesaid had been duly signed, by the person directed to execute or sign the same.

The Court empowered to enforce the delivery of any immovable property or any specific chattel, or the deposit of any books, papers, or other articles or things, by seizure.

VI. When any person has been directed by any judgment, decree, sentence, or order of any of the said Courts to deliver up possession of any immovable property or of any specific chattel or security, or to deliver to any person or persons, or to deposit in Court or elsewhere any books, papers, writings, or other articles or things, and has refused or neglected to obey such direction, or has evaded compliance therewith either by absenting himself to avoid service of the said judgment, decree, sentence, or order, or by any other means, it shall be lawful for the Court by which such direction has been given, whether such person is in custody or not, on proof of such default or evasion as aforesaid, to issue a writ or writs to the Sheriff, directing him either to put the party therein named into possession, or to seize and take such chattel, security, books, papers, writings, or other articles or things, and to deal with the same according to the exigency of the writ which in all cases shall be con-

formable to the order to compel the performance whereof the same is issued. But nothing herein contained shall authorize the Sheriff to disturb the possession of any person other than the person against whom such order is made, who either adversely to such person or by title derived through him, has *bonâ fide* acquired an interest in any property movable or immovable which is the subject of such writ.

Proviso.

VII. The first and second Sections of Act No. XXV. of 1841, except as to all proceedings which shall have been had or commenced thereunder before this Act comes into operation, are hereby repealed.

Repeal of 1st and 2nd Sections of Act XXV. of 1841.

VIII. Nothing in this Act contained shall prevent any of the said Courts from issuing process of contempt according to its present course of practice on its Equity side against the person of any party who has been ordered to do any act other than the payment of money, or costs, or the execution of a conveyance, deed, or other instrument, if obedience to such order cannot otherwise be enforced, or against the person of any party who has committed a breach of any injunction; and the Court may issue such process of contempt on any of its sides, and in such cases shall have and may exercise all powers which it now has touching the commitment, detention, or discharge of any person taken under process of contempt issued on its Equity side.

Power reserved to issue process of contempt to compel obedience to orders which cannot be otherwise enforced.

IX. It shall be lawful for Her Majesty's Supreme Courts to frame such new or altered writs of execution as they shall deem necessary or expedient for giving effect to the provisions hereinbefore contained, and by the Rules or orders to be made under this Act, to regulate the mode of issuing and executing such writs of execution.

Court may frame writs of execution.

X. The words "person" and "party" as used in this Act shall be understood to include any body corporate, and though used so as to import the singular number or the masculine gender only, shall be understood to include several persons as well as one person, and females as well as males, unless there be something in the context repugnant to such construction.

Interpretation Clause.

X. This Act shall take effect from the day of next.

Salt.

On the re-opening of the Public Offices after the Holidays, *i. e.*, from the 9th proximo, applications for Licences will be received by the Board of Revenue, and also by the Superintendent of the Barripore Salt Chokies, for transmission to the Board, from parties desirous to engage in the manufacture of Salt under an Excise system. A portion of the Sunderbuns, known as the Tuffal Aurungs, of the late 24-Pergunnahs Salt Agency, has been specially set apart for this purpose, and Licences to manufacture will be granted to applicants on the following terms and conditions :—

1. The Sunderbun Lots 131 and 132, in the first instance, afterwards Lot 149, and subsequently Lots 127, 128, 150, 151 and 152, in such order as may hereafter be judged expedient, will be made available for the manufacture of Salt on a system of Excise.

2. Lands suitably situated in the above locality will be divided into allotments of 50 beegahs each and rented at the rate of one anna per beegah, to parties engaging to manufacture not less than maunds 2,000 of Salt per annum. Each new allotment must be contiguous to the one last granted, or as nearly so as the nature of the ground will admit; but any number of allotments may be assigned to a single individual, on his satisfying the Board of his ability and *bonâ fide* intention to work them. The rent of the lands must be paid half at the beginning and half at the end of the Season.

3. The supervision of the manufacture will be entrusted to the Superintendent of the Barripore Salt Chokies, assisted by an establishment, whose duty it will be to take an account of the daily manufacture of each Khalary and to prevent mal-practices.

4. The Salt when made, may, at the option and convenience of the Manufacturer, be delivered to purchasers from the Aurungs or stored in Golahs, which will be provided by Government, free of charge; or a Manufacturer may, if he prefers it, under certain conditions, remove his Salt to be stored elsewhere than in the Government Golahs. In each case the following Rules must be observed :—

5. When Salt is sold for delivery from the Aurungs, the amount of duty leviable upon it, at the rate of Rupees 2-8 per maund, must be paid into the General Treasury, and on production of receipts for such payment, Permits will be granted at the Board's Office for the protection of the Salt, in the same manner as in the case of Salt imported by Sea. The weighment on delivery must be made in presence of one of the Supervisor's Officers, and the Permit must be endorsed by the Aurung Assistant.

6. When Salt is to be removed for the purpose of being stored in the Government Golahs (which for the present will be established at Bungundee,) the Boats must be laden and the Salt stamped over in the presence of one of the Supervisor's Officers. It will then be transported to the Golahs by a certain prescribed route under Chellauns, specifying the quantity by Coot measurement. The Chellauns will be numbered and signed and the Boats passed by the Aurung Assistant, who will keep a Register of the Chellauns. On arrival at the Golahs, the despatch will be examined by the Officer in charge of the Golahs, the condition of the Stamps noted, and the Chellaun registered. The Salt will then be weighed into store and the result of the weighment entered in the Chellaun Register, as well as in the Store Account to be kept by the Golah Darogah. The expense of weighing the Salt into store will be borne by the Manufacturer.

7. Each Manufacturer's Salt will be piled in a separate heap and stamped with his own stamp. When a whole Golah is stored with Salt of a single Manufacturer, the Golah will be secured with two locks, one key being kept by the Manufacturer and the other by the Golah Darogah. When a Golah contains the Salt of more than one Manufacturer there will be only one lock, the key of which will be kept by the Golah Darogah.

8. The Registers of Chellauns kept by the Aurung Assistant, and the Officer in charge of the Golahs, will be carefully compared by the Superintendent, for which purpose Extracts will be sent to him weekly; and if any despatch be not duly accounted for, or if any despatch appear to have been tampered with and the quantity received at the Depôt from such despatch be deficient as compared with the Estimate, no Salt belonging to the party concerned will be allowed to be delivered from the Depôt until the duty chargeable on the deficient quantity shall have been made good.

9. Salt will be delivered to purchasers from the Golahs on the production of Permits to be obtained from the Board's Office in the manner described in Rule 5.

10. Wastage at the rates specified in the margin will be allowed in accounting for Salt stored under these Rules, and duty must be paid by the Manufacturer on any deficiency beyond the allowed wastage, which may not be accounted for to the Board's satisfaction. For the realization of this duty, a sufficient portion of the Salt may be detained and sold by Government.

	Md.	*Srs.*
First Quarter after Storage per 100 maunds.	2	10
Second Do. Do. Do.	3	10
Third Do. Do. Do.	3	30
Fourth Do. Do. Do.	4	0

And an additional allowance at the rate of one maund per annum for Salt kept in store above one year.

11. The Salt of each year's manufacture will be kept separate, in order that the Accounts of each year's store may be duly made up.

12. Manufacturers, who may not choose to store their Salt at the fixed Depôt, must make a deposit of the duty in Company's Paper before removing it, and the duty must be paid in full within six months from the close of the Season, that is, before the 1st December of each year. The Salt must be weighed before removal and an excess of 3 per cent. above the quantity registered for duty will be allowed for wastage. Salt so removed will be protected by special Passes, to be filled up and signed by the Superintendent, and after removal will be at the free disposal of the Manufacturer, subject only to the provisions of

Section 46 Regulation X. of 1819. Manufacturers intending to remove their Salt under this Rule must give notice to the Superintendent at the commencement of the Season.

13. The manufacture will be closed on or before the 31st May, and all Salt must be removed from the Aurungs not later than the 15th June. Any Salt remaining in the Aurungs after that date will be liable to be destroyed by the Supervisor's Officers.

14. For a breach of any of the provisions of the Rules, the Licence of the party offending will be liable to be immediately withdrawn, and, in the event of smuggling or connivance at smuggling being proved against the Manufacturer or his duly-authorized Agent, the whole of the Salt manufactured or stored by him will be liable to confiscation.

15. Applicants before receiving their Licences will be required to bind themselves to accept and abide by the conditions embodied in the foregoing Rules.

16. Should any individual or Joint Stock Company desire to manufacture Salt on a large scale elsewhere than in the locality above described, Licences will be granted for such manufacture, provided the site chosen appear on enquiry suitable for the purpose, and a compliance with the application be otherwise unobjectionable. The foregoing terms, except in so far as they may be in part modified by special conditions to be entered in the Licence, will be applicable to Licences granted under this Rule.

Offg. Junior Secretary.

Notification.

Salt.

ON the re-opening of the Public Offices after the Holidays, *i. e.*, from the 9th proximo, applications for Licences will be received by the Board of Revenue, and also by the Superintendent of the Barripore Salt Chokies, for transmission to the Board, from parties desirous to engage in the manufacture of Salt under an Excise system. A portion of the Sunderbuns, known as the Tuffal Aurungs, of the late 24-Pergunnahs Salt Agency, has been specially set apart for this purpose, and Licences to manufacture will be granted to applicants on the following terms and conditions :—

1. The Sunderbun Lots 131 and 132, in the first instance, afterwards Lot 149, and subsequently Lots 127, 128, 150, 151 and 152, in such order as may hereafter be judged expedient, will be made available for the manufacture of Salt on a system of Excise.

2. Lands suitably situated in the above locality will be divided into allotments of 50 beegahs each and rented at the rate of one anna per beegah, to parties engaging to manufacture not less than maunds 2,000 of Salt per annum. Each new allotment must be contiguous to the one last granted, or as nearly so as the nature of the ground will admit; but any number of allotments may be assigned to a single individual, on his satisfying the Board of his ability and *bonâ fide* intention to work them. The rent of the lands must be paid half at the beginning and half at the end of the Season.

3. The supervision of the manufacture will be entrusted to the Superintendent of the Barripore Salt Chokies, assisted by an establishment, whose duty it will be to take an account of the daily manufacture of each Khalary and to prevent mal-practices.

4. The Salt when made, may, at the option and convenience of the Manufacturer, be delivered to purchasers from the Aurungs or stored in Golahs, which will be provided by Government, free of charge; or a Manufacturer may, if he prefers it, under certain conditions, remove his Salt to be stored elsewhere than in the Government Golahs. In each case the following Rules must be observed :—

5. When Salt is sold for delivery from the Aurungs, the amount of duty leviable upon it, at the rate of Rupees 2·8 per maund, must be paid into the General Treasury, and on production of receipts for such payment, Permits will be granted at the Board's Office for the protection of the Salt, in the same manner as in the case of Salt imported by Sea. The weighment on delivery must be made in presence of one of the Supervisor's Officers, and the Permit must be endorsed by the Aurung Assistant.

6. When Salt is to be removed for the purpose of being stored in the Government Golahs (which for the present will be established at Bungundee,) the Boats must be laden and the Salt stamped over in the presence of one of the Supervisor's Officers. It will then be transported to the Golahs by a certain prescribed route under Chellauns, specifying the quantity by Coot measurement. The Chellauns will be numbered and signed and the Boats passed by the Aurung Assistant, who will keep a Register of the Chellauns. On arrival at the Golahs, the despatch will be examined by the Officer in charge of the Golahs, the condition of the Stamps noted, and the Chellaun registered. The Salt will then be weighed into store and the result of the weighment entered in the Chellaun Register, as well as in the Store Account to be kept by the Golah Darogah. The expense of weighing the Salt into store will be borne by the Manufacturer.

7. Each Manufacturer's Salt will be piled in a separate heap and stamped with his own stamp. When a whole Golah is stored with Salt of a single Manufacturer, the Golah will be secured with two locks, one key being kept by the Manufacturer and the other by the Golah Darogah. When a Golah contains the Salt of more than one Manufacturer there will be only one lock, the key of which will be kept by the Golah Darogah.

8. The Registers of Chellauns kept by the Aurung Assistant, and the Officer in charge of the Golahs, will be carefully compared by the Superintendent, for which purpose Extracts will be sent to him weekly; and if any despatch be not duly accounted for, or if any despatch appear to have been tampered with and the quantity received at the Depôt from such despatch be deficient as compared with the Estimate, no Salt belonging to the party concerned will be allowed to be delivered from the Depôt until the duty chargeable on the deficient quantity shall have been made good.

9. Salt will be delivered to purchasers from the Golahs on the production of Permits to be obtained from the Board's Office in the manner described in Rule 5.

10. Wastage at the rates specified in the margin will be allowed in accounting for Salt stored under these Rules, and duty must be paid by the Manufacturer on any deficiency beyond the allowed wastage, which may not be accounted for to the Board's satisfaction. For the realization of this duty, a sufficient portion of the Salt may be detained and sold by Government.

	Md.	*Srs*
First Quarter after Storage per 100 maunds.	2	10
Second Do. Do. Do.	3	10
Third Do. Do. Do.	3	30
Fourth Do. Do. Do.	4	0

And an additional allowance at the rate of one maund per annum for Salt kept in store above one year.

11. The Salt of each year's manufacture will be kept separate, in order that the Accounts of each year's store may be duly made up.

12. Manufacturers, who may not choose to store their Salt at the fixed Depôt, must make a deposit of the duty in Company's Paper before removing it, and the duty must be paid in full within six months from the close of the Season, that is, before the 1st December of each year. The Salt must be weighed before removal and an excess of 3 per cent. above the quantity registered for duty will be allowed for wastage. Salt so removed will be protected by special Passes, to be filled up and signed by the Superintendent, and after removal will be at the free disposal of the Manufacturer, subject only to the provisions of Section 46 Regulation X. of 1819. Manufacturers intending to remove their Salt under this Rule must give notice to the Superintendent at the commencement of the Season.

13. The manufacture will be closed on or before the 31st May, and all Salt must be removed from the Aurungs not later than the 15th June. Any Salt remaining in the Aurungs after that date will be liable to be destroyed by the Supervisor's Officers.

14. For a breach of any of the provisions of the Rules, the Licence of the party offending will be liable to be immediately withdrawn, and, in the event of smuggling or connivance at smuggling being proved against the Manufacturer or his duly-authorized Agent, the whole of the Salt manufactured or stored by him will be liable to confiscation.

15. Applicants before receiving their Licences will be required to bind themselves to accept and abide by the conditions embodied in the foregoing Rules.

16. Should any individual or Joint Stock Company desire to manufacture Salt on a large scale elsewhere than in the locality above described, Licences will be granted for such manufacture, provided the site chosen appear on enquiry suitable for the purpose, and a compliance with the application be otherwise unobjectionable. The foregoing terms, except in so far as they may be in part modified by special conditions to be entered in the Licence, will be applicable to Licences granted under this Rule.

No. 2259.

THE Deputy Post Master General regrets to inform the public, that from a communication received from the Post Master of Tezpore, it appears that the Calcutta Mails of the 22nd ultimo, for Tezpore, Assam, Seebsaugor and Debrooghur, and also the Mails for those places sent from Gowhatty and Mungledye on the 31st idem, were totally lost, with the Dak Boat, on the night of the latter date, at "Pobamaree Chapree," a little above Mungledye. The accident is attributable to the falling in of the bank, which fell on the boat, and caused the same to sink immediately.

Provided that the functions of the punchayet shall not thereby absolutely cease and determine, but may be resumed at any time, only not so as to invalidate any act done by the Magistrate under this Section.

If punchayet refuse or omit to act, Magistrate may assume their functions.

Proviso.

XIX. *Clause* 1.—No person shall be bound to act on a punchayet unless he shall reside or carry on business within the limits of the city, town, or other place for which the assessment is to be made.

Limitation of service on punchayet.

If the person aforesaid appear to the Magistrate to be unfit for the situation to which he has been nominated, the Magistrate may cancel his appointment, specifying in the order for such cancellation the cause thereof, and may direct the punchayet to make a fresh nomination; and if the punchayet do not, within 15 days from the date of such order, nominate such a person as the Magistrate shall approve, the Magistrate may himself nominate and appoint a Chowkeydar to fill the said vacancy.

No. 1038.

Notice.

IT is hereby notified, that measures are in progress for discontinuing the sale of Salt by retail from the Government Depôts on the Mainland of Bullooah and the Island of Dukhin Shabazpore.

From the 1st January 1855, all the Retail Chokies on the Mainland will be closed with the exception of that at Sooderam, where a Stock of Salt will be stored and sold wholesale and retail till such time as there is reason to suppose that arrangements have been made by private Traders for keeping up a constant and adequate supply. Similarly in the Island of Shabazpore, a single Depôt for the wholesale and retail sale of Salt, will be maintained at Dowlut Khan.

The Salt delivered from the Depôts will, for the present, be Arracan Salt, and the price, Rupees 345 per 100 maunds on purchases of 100 maunds and upwards. Payments on such purchases must be made into the Bullooah Treasury, and Rowannahs to protect the Salt will be granted by the Superintendent of the Bullooah Salt Chokies. For quantities less than 100 maunds, the price will be rupees 3-8 per maund, and the Golah Darogahs will grant Chars for the removal of Salt purchased in such small quantities ; but no sales of less than 5 maunds at a time will be allowed.

Rowannah Salt will be allowed free admission both in Shabazpore and on the Mainland, and the prices at the Depôts have been purposely so fixed as to give fair encouragement for a regular trade on the part of private Merchants.

By Order of the Board of Revenue,

A. R. YOUNG,
Offg. Junior Secretary.

No. 1039.

Notification.

Salt.

APPLICATIONS for Licences will be received by the Board of Revenue, and also by the Superintendent of the Barripore Salt Chokies, for transmission to the Board, from parties desirous to engage in the manufacture of Salt under an Excise system. A portion of the Sunderbuns, known as the Tuffal Aurungs, of the late 24-Pergunnahs Salt Agency, has been specially set apart for this purpose, and Licences to manufacture will be granted to applicants on the following terms and conditions :—

1. The Sunderbun Lots 131 and 132, in the first instance, afterwards Lot 149, and subsequently Lots 127, 128, 150, 151 and 152, in such order as may hereafter be judged expedient, will be made available for the manufacture of Salt on a system of Excise.

2. Lands suitably situated in the above locality will be divided into allotments of 50 beegahs each and rented at the rate of one anna per beegah, to parties engaging to manufacture not less than maunds 2,000 of Salt per annum. Each new allotment must be contiguous to the one last granted, or as nearly so as the nature of the ground will admit ; but any number of allotments may be assigned to a single individual, on his

satisfying the Board of his ability and *bonâ fide* intention to work them. The rent of the lands must be paid half at the beginning and half at the end of the Season.

3. The supervision of the manufacture will be entrusted to the Superintendent of the Barripore Salt Chokies, assisted by an establishment, whose duty it will be to take an account of the daily manufacture of each Khalary and to prevent mal-practices.

4. The Salt when made, may, at the option and convenience of the Manufacturer, be delivered to purchasers from the Aurungs or stored in Golahs, which will be provided by Government, free of charge; or a Manufacturer may, if he prefers it, under certain conditions, remove his Salt to be stored elsewhere than in the Government Golahs. In each case the following Rules must be observed:—

5. When Salt is sold for delivery from the Aurungs, the amount of duty leviable upon it, at the rate of Rupees 2-8 per maund, must be paid into the General Treasury, and on production of receipts for such payment, Permits will be granted at the Board's Office for the protection of the Salt, in the same manner as in the case of Salt imported by Sea. The weighment on delivery must be made in presence of one of the Supervisor's Officers, and the Permit must be endorsed by the Aurung Assistant.

6. When Salt is to be removed for the purpose of being stored in the Government Golahs (which for the present will be established at Bungundee,) the Boats must be laden and the Salt stamped over in the presence of one of the Supervisor's Officers. It will then be transported to the Golahs by a certain prescribed route under Chellauns, specifying the quantity by Coot measurement. The Chellauns will be numbered and signed and the Boats passed by the Aurung Assistant, who will keep a Register of the Chellauns. On arrival at the Golahs, the despatch will be examined by the Officer in charge of the Golahs, the condition of the Stamps noted, and the Chellaun registered. The Salt will then be weighed into store and the result of the weighment entered in the Chellaun Register, as well as in the Store Account to be kept by the Golah Darogah. The expense of weighing the Salt into store will be borne by the Manufacturer.

7. Each Manufacturer's Salt will be piled in a separate heap and stamped with his own stamp. When a whole Golah is stored with Salt of a single Manufacturer, the Golah will be secured with two locks, one key being kept by the Manufacturer and the other by the Golah Darogah. When a Golah contains the Salt of more than one Manufacturer, there will be only one lock, the key of which will be kept by the Golah Darogah

8 The Registers of Chellauns kept by the Aurung Assistant, and the Officer in charge of the Golahs, will be carefully compared by the Superintendent, for which purpose Extracts will be sent to him weekly; and if any despatch be not duly accounted for, or if any despatch appear to have been tampered with and the quantity received at the Depôt from such despatch be deficient as compared with the Estimate, no Salt belonging to the party concerned will be allowed to be delivered from the Depôt until the duty chargeable on the deficient quantity shall have been made good.

9. Salt will be delivered to purchasers from the Golahs, on the production of Permits to be obtained from the Board's Office in the manner described in Rule 5.

10. Wastage at the rates specified in the margin will be allowed in accounting for Salt stored under these Rules, and duty must be paid by the Manufacturer on any deficiency beyond the allowed wastage, which may not be accounted for to the Board's satisfaction. For the realization of this duty, a sufficient portion of the Salt may be detained and sold by Government.

	Md.	*Srs.*
First Quarter after Storage per 100 maunds.	2	10
Second Do. Do. Do.	3	10
Third Do. Do. Do.	3	30
Fourth Do. Do. Do.	4	0
And an additional allowance at the rate of one maund per annum for Salt kept in store above one year.		

11. The Salt of each year's manufacture will be kept separate, in order that the Accounts of each year's store may be duly made up.

12. Manufacturers, who may not choose to store their Salt at the fixed Depôt, must make a deposit of the duty in Company's Paper before removing it, and the duty must be paid in full within six months from the close of the Season, that is, before the 1st December of each year. The Salt must be weighed before removal and an excess of 3 per cent. above the quantity registered for duty will be allowed for wastage. Salt so removed will be protected by special Passes, to be filled up and signed by the Superintendent, and after removal will be at the free disposal of the Manufacturer, subject only to the provisions of Section 46 Regulation X. of 1819. Manufacturers intending to remove their Salt under this Rule must give notice to the Superintendent at the commencement of the Season.

13. The manufacture will be closed on or before the 31st May, and all Salt must be removed from the Aurungs not later than the 15th June. Any Salt remaining in the Aurungs after that date will be liable to be destroyed by the Supervisor's Officers.

14. For a breach of any of the provisions of the Rules, the Licence of the party offending will be liable to be immediately withdrawn, and, in the event of smuggling or connivance at smuggling being proved against the Manufacturer or his duly-authorized Agent, the whole of the Salt manufactured or stored by him will be liable to confiscation.

15. Applicants before receiving their Licences will be required to bind themselves to accept and abide by the conditions embodied in the foregoing Rules.

16. Should any individual or Joint Stock Company desire to manufacture Salt on a large scale elsewhere than in the locality above described, Licences will be granted for such manufacture, provided the site chosen appear on enquiry suitable for the purpose, and a compliance with the application be otherwise unobjectionable. The foregoing terms, except in so far as they may be in part modified by special conditions to be entered in the Licence, will be applicable to Licences granted under this Rule.'

Fort William, 10th October 1854.

No. 1004 *of* 1854.—The Honorable the Court of Directors, in sanctioning the recent re-organization of the Department of Public Works, having authorized such arrangements as might be deemed necessary for the general conduct of business connected with the Engineers, as a Corps of Officers, the Most Noble the Governor General in Council is pleased to lay down the following rules on the subject.

2. The Senior Officer of Engineers (not being a General Officer) serving within the limits of the Presidency, is to be Commandant of the Corps of Engineers.

3. The Head Quarters of the Corps of Engineers is to be established at the Head Quarters of the Sappers and Miners.

4. The Commandant of Engineers is not required to reside at Head Quarters, but wherever his particular Office finds him located.

5. All Returns, Reports, &c., which have heretofore been forwarded to the Chief Engineer in Fort William, will be transmitted to the Commandant of the Sappers and Miners.

6. The Ordinary Military business of the Corps of Engineers will be conducted by the Commandant of the Sappers and Miners, who is to prepare and forward to the Commandant of Engineers all Returns, Reports, &c., which require his signature.

7. All Records, Plans, &c., in the Office of the Chief Engineer (with the exception of those relating to Fort William, which will be made over to the Garrison Engineer) are to be transferred to the Head Quarters of the Sappers and Miners.

8. All Engineer Officers unemployed are to be considered as attached to the Head Quarters of the Corps of Engineers; and young Engineer Officers and others ordered to, or required to remain at, the Presidency, are to place themselves under the orders of the Commandant of Fort William, in the absence of the Officer Commanding the Corps of Engineers.

No. 1005 *of* 1854.—The Most Noble the Governor General in Council having had before him the Proceedings of a Court of Inquiry which was convened in July last at Agra, to investigate into certain charges made by Native Subordinates of the Agra Magazine Establishment, against Major G. L. Cooper, of Artillery, Commissary of Ordnance, alleging the "systematic embezzlement of Stores" from the Agra Magazine, with the knowledge and connivance of that Officer, it has given His Lordship in Council great satisfaction to observe that the Court has declared the charges to be false and malicious, and that His Excellency the Commander-in-Chief entirely concurs in the opinion of the Court.

2. The Governor General in Council most readily exonerates Major Cooper of all imputation of dishonest conduct and of improper motives; but His Lordship in Council must observe that, in lending to private parties Stores, the property of Government, which he is shown to have done without any authority whatever, and without entering those loans in the regular Magazine Books and Periodical Returns, Major Cooper has violated the established Regulations for Magazines and engaged in clandestine transactions, and as a necessary consequence has made false Returns of Stock to the Military Board.

3. The Governor General in Council considers it very necessary to check such irregularities, not only because they tend to the probability of inflicting loss upon the Government, but because they are likely to be misapprehended, and to bring reproach on the Department, as they have done in the present case. As an example, therefore, in order to deter others from such improprieties, His Lordship in Council is pleased to remove Major Cooper from the 1st to the 2nd Class of Commissaries of Ordnance, and he will rank in the 2nd Class next below Major A. Robertson.

Fort William, 12th October 1854.

No. 1006 *of* 1854.—The following Extract from the *Fort St. George Gazette*, dated 8th September 1854, is confirmed:—

No. 1008 *of* 1854.—The following Notification issued in Orders by the Hon'ble the Lieutenant Governor, North-Western Provinces, is published in General Orders:—

No. 1924 *A., Judicial Department, 30th September* 1854.—The services of Assistant Surgeon C. R. Francis, M. B., are placed at the disposal of His Excellency the Commander-in-Chief, from the date of the expiry of the leave granted him in Orders of 9th August last.

Salt.

APPLICATIONS for Licences will be received by the Board of Revenue, and also by the Superintendent of the Barripore Salt Chokies, for transmission to the Board, from parties desirous to engage in the manufacture of Salt under an Excise system. A portion of the Sunderbuns, known as the Tuffal Aurungs, of the late 24-Pergunnahs Salt Agency, has been specially set apart for this purpose, and Licences to manufacture will be granted to applicants on the following terms and conditions:—

1. The Sunderbun Lots 131 and 132, in the first instance, afterwards Lot 149, and subsequently Lots 127, 128, 150, 151 and 152, in such order as may hereafter be judged expedient, will be made available for the manufacture of Salt on a system of Excise.

2. Lands suitably situated in the above locality will be divided into allotments of 50 beegahs each and rented at the rate of one anna per beegah, to parties engaging to manufacture not less than maunds 2,000 of Salt per annum. Each new allotment must be contiguous to the one last granted, or as nearly so as the nature of the ground will admit; but any number of allotments may be assigned to a single individual, on his satisfying the Board of his ability and *bonâ fide* intention to work them. The rent of the lands must be paid half at the beginning and half at the end of the Season.

3. The supervision of the manufacture will be entrusted to the Superintendent of the Barripore Salt Chokies, assisted by an establishment whose duty it will be to take an account of the daily manufacture of each Khalary and to prevent mal-practices.

4. The Salt when made, may, at the option and convenience of the Manufacturer, be delivered to purchasers from the Aurungs or stored in Golahs, which will be provided by Government, free of charge; or a Manufacturer may, if he prefers it, under certain conditions, remove his Salt to be stored elsewhere than in the Government Golahs. In each case the following Rules must be observed:—

5. When Salt is sold for delivery from the Aurungs, the amount of duty leviable upon it, at the rate of Rupees 2-8 per maund, must be paid into the General Treasury, and on production of receipts for such payment, Permits will be granted at the Board's Office for the protection of the Salt, in the same manner as in the case of Salt imported by Sea. The weighment on delivery must be made in presence of one of the Supervisor's Officers, and the Permit must be endorsed by the Aurung Assistant.

6. When Salt is to be removed for the purpose of being stored in the Government Golahs (which for the present will be established at Bungundee,) the Boats must be laden and the Salt stamped over in the presence of one of the Supervisor's Officers. It will then be transported to the Golahs by a certain prescribed route under Chellauns, specifying the quantity by Coot measurement. The Chellauns will be numbered and signed and the Boats passed by the Aurung Assistant, who will keep a Register of the Chellauns. On arrival at the Golahs, the despatch will be examined by the Officer in charge of the Golahs, the condition of the Stamps noted, and the Chellaun registered. The Salt will then be weighed into store and the result of the weighment entered in the Chellaun Register, as well as in the Store Account to be kept by the Golah Darogah. The expense of weighing the Salt into store will be borne by the Manufacturer.

7. Each Manufacturer's Salt will be piled in a separate heap and stamped with his own stamp. When a whole Golah is stored with Salt of a single Manufacturer, the Golah will be secured with two locks, one key being kept by the Manufacturer and the other by the Golah Darogah. When a Golah contains the Salt of more than one Manufacturer, there will be only one lock, the key of which will be kept by the Golah Darogah.

8. The Registers of Chellauns kept by the Aurung Assistant, and the Officer in charge of the Golahs, will be carefully compared by the Superintendent, for which purpose Extracts will be sent to him weekly; and if any despatch be not duly accounted for, or if any despatch appear to have been tampered with and the quantity received at the Depôt from such despatch be deficient as compared with the Estimate, no Salt belonging to the party concerned will be allowed to be delivered from the Depôt until the duty chargeable on the deficient quantity shall have been made good.

9. Salt will be delivered to purchasers from the Golahs, on the production of Permits to be obtained from the Board's Office in the manner described in Rule 5.

10. Wastage at the rates specified in the margin will be allowed in accounting for Salt stored under these Rules, and duty must be paid by the Manufacturer on any deficiency beyond the allowed wastage, which may not be accounted for to the Board's satisfaction. For the realization of this duty, a sufficient portion of the Salt may be detained and sold by Government.

	Md.	*Srs.*
First Quarter after Storage per 100 maunds.	2	10
Second Do. Do. Do.	3	10
Third Do. Do. Do.	3	30
Fourth Do. Do. Do.	4	0

And an additional allowance at the rate of one maund per annum for Salt kept in store above one year.

11. The Salt of each year's manufacture will be kept separate, in order that the Accounts of each year's store may be duly made up.

12. Manufacturers, who may not choose to store their Salt at the fixed Depôt, must make a deposit of the duty in Company's Paper before removing it, and the duty must be paid in full within six months from the close of the Season, that is, before the 1st December of each year. The Salt must be weighed before removal and an excess of 3 per cent. above the quantity registered for duty will be allowed for wastage. Salt so removed will be protected by special Passes, to be filled up and signed by the Superintendent, and after removal will be at the free disposal of the Manufacturer, subject only to the provisions of Section 46 Regulation X. of 1819. Manufacturers intending to remove their Salt under this Rule must give notice to the Superintendent at the commencement of the Season.

13. The manufacture will be closed on or before the 31st May, and all Salt must be removed from the Aurungs not later than the 15th June. Any Salt remaining in the Aurungs after that date will be liable to be destroyed by the Supervisor's Officers.

14. For a breach of any of the provisions of the Rules, the Licence of the party offending will be liable to be immediately withdrawn, and, in the event of smuggling or connivance at smuggling being proved against the Manufacturer or his duly-authorized Agent, the whole of the Salt manufactured or stored by him will be liable to confiscation.

15. Applicants before receiving their Licences will be required to bind themselves to accept and abide by the conditions embodied in the foregoing Rules.

16. Should any individual or Joint Stock Company desire to manufacture Salt on a large scale elsewhere than in the locality above described, Licences will be granted for such manufacture, provided the site chosen appear on enquiry suitable for the purpose, and a compliance with the application be otherwise unobjectionable. The foregoing terms, except in so far as they may be in part modified by special conditions to be entered in the Licence, will be applicable to Licences granted under this Rule.

Unions may be formed.

II. The Government may, by Notification to be published in the Official *Gazette*, unite for the purposes of this Act any city, town, suburb, station, or bazaar, or any part or parts of a city, town, suburb, station, or bazaar with any other city, town, suburb, station, or bazaar, or part or parts of a city, town, suburb, station, or bazaar ; and in such case the law applicable to a city, town, suburb, station, or bazaar shall apply to such union.

Government may define limits of cities, towns, &c. Occupiers of houses, &c., may be assessed.

Proviso.

Magistrate to appoint punchayet.

IX. *Clause* 1.—By a sunnud of appointment drawn up according to the form prescribed in Appendix A. of this Act, or to the like effect, the Magistrate shall nominate and appoint five respectable persons, residing or carrying on business in or near to any such city, town, or other place as aforesaid, or any quarter or other convenient division thereof in such town or place, to be a punchayet for the purposes hereinafter mentioned.

Member of punchayet need not be a resident of the city, &c.

Clause 2.—The Magistrate may appoint any one person whom he may think fit to be a member of the punchayet, notwithstanding such person may not reside or carry on business in or near to such city, town, or other place as aforesaid, or in or near to any such division thereof as aforesaid; and in any case in which he may deem it necessary, he may appoint any three or more persons, not residing or carrying on business in or near to such city, town, or other place as aforesaid, to act as a punchayet for any city, town, or other place as aforesaid, or any division thereof.

Duties of punchayet.

X. *Clause* 1.—The punchayet so appointed, or the majority of them, shall once, in every year, if required so to do by the Magistrate, make out and furnish to the Magistrate, in accordance with the rules laid down in the requisition, a rate or assessment upon the several persons liable to be rated in respect of their occupation of property within the district for which the punchayet shall be appointed, and which rate shall specify the names of the several occupiers of property within the district liable to be rated under the provisions of this Act, and the trade, business, or other description of such occupier, the property occupied, the annual rateable value of such property, and the monthly assessment payable by such occupier.

Form of Magistrate's requisition.

Clause 2.—The requisition of the Magistrate to the punchayet, to make out such list, shall be in the form marked B., set forth in the Appendix to this Act annexed, or to the like effect.

The previous rate may be revised.

Clause 3.—The punchayet shall, if required by the Magistrate so to do, instead of making out a new rate in pursuance of Clause 1 of this Section, revise and amend the latest rate or assessment previously published; and after such revision the punchayet shall return the revised or amended rate to the Magistrate.

Form of requisition for revising rate.

Clause 4.—The requisition for revising and amending a rate shall be in the form marked C., set forth in the Appendix to this Act, or to the like effect.

Magistrate may amend the rate

XI. On receipt of the aforesaid rate, or revised rate, as the case may be, the Magistrate may revise, and if necessary amend and finally settle the same.

Rate to be published.

XII. *Clause* 1.—When the rate, or revised rate, shall have been finally settled, the Magistrate shall sign the same, and shall cause one fair copy thereof, together with a notification prepared according to the form marked D. in the Appendix to this Act, or to the like effect, and written in the language of the district, to be stuck up in some conspicuous place in the district in which the property has been assessed; and another fair copy, together with a like notification, at the nearest Police Thannah; and shall also cause a third fair copy to be deposited in his own Office.

Clause 2.—Every assessment under this Act shall stand good for one whole year, and until a new one is made; and in case the occupier of any property included in any assessment shall be changed before a new assessment is made, the new occupier shall be liable in respect of such property for any portion of the assessment which shall have become payable during his occupation instead of the former occupier thereof; and after notification to such person, the Magistrate may cause his name to be substituted in the assessment for the name of the former occupier. Provided that no assessment shall continue in force for a longer period than 12 months from the date thereof, unless the same shall be dated afresh and re-published according to the provisions of Section XII. of this Act; and every rate which shall be re-published shall be deemed a new rate. Previously to the re-publication of any rate, the Magistrate shall cause the same to be revised and amended so far as any amendment shall be necessary in consequence of a change in the occupation of any property included therein.

Assessment to stand good for one year.

Change of occupation before a new assessment.

Proviso.

XIII. Any person assessed, who shall be dissatisfied with the rate or assessment, or who shall dispute his occupation of any property or his liability to be rated, may appeal on unstamped paper to the Magistrate, and the Magistrate, after examining such person on oath or solemn affirmation as to the truth of the matters alleged in the petition of appeal, and making such further inquiries as he deems necessary, may confirm the assessment or amend the same. In case the Magistrate confirm the assessment, he may award costs against the appellant. The decision of the Magistrate in such cases shall be final, and no objection shall be taken to the assessment, nor shall the liability of any person to be assessed be questioned in other manner or by any other Court.

Objections how to be made and dealt with.

No appeal shall be preferred after the expiration of one month from the time of the notification of the assessment prescribed by Section XII., or of the notification of the substitution of the name of an occupier under Clause 2 Section XII., unless the Magistrate, upon reasonable cause shown, shall extend the time for preferring such appeal.

Limitation of appeal.

XIV. If the Commissioner of Circuit has reason to believe that the assessment of any city, town, or place is generally too high, or otherwise essentially wrong and defective, he may at any time direct the Magistrate to revise the assessment, and the Magistrate shall revise the assessment according to such direction, and if necessary amend the same.

Commissioner of Circuit may direct general revision of assessment.

XV. The Magistrate may require the punchayet to revise the assessment at any period during the year; but on every such occasion, he shall address a written order to the punchayet, specifying the reasons which render such revision necessary, and requiring an amended return, within a stated period, in the form prescribed in Appendix C. of this Act.

Magistrate may direct revision at any time of the year for reasons to be stated.

XVI. Whenever, during the year, any assessment is revised under the orders of the Commissioner of Circuit, a revised list, together with a notification as prescribed in Section XII., shall be prepared and published in the manner therein directed; and all objections to such revised assessment shall be made and dealt with in the manner prescribed in Section XIII.

Revised list to be published.

XVII. CIRCULAR No. 1163.

WAR OFFICE,
12th June 1854.

Schools, General, No. 91.

SIR,

1.—In transmitting herewith for your information and guidance, copies of New Army School Regulations, I am directed to draw your particular attention to the chief alterations to be effected thereby.

2.—School-masters, instead of as before, being classed as Garrison, Regimental and Assistant, will be divided into four classes, the fourth class being Assistant School-masters.

3.—Each of these classes will have a different rate of pay assigned to it, and promotion to the higher classes will be made by the Secretary at War, for good conduct and ability only.

4.—The pay of each class will be as follows :—

	s.	d.	
First class School-masters, ...	7	0	a day.
Second class ditto, ...	5	6	„
Third class ditto.	4	0	„
Fourth class (Assistant School-masters)	2	0	„

5.—The first class School-masters will receive warrants from the Secretary at War, which will entitle them to be classed as Warrant Officers, and to rank next to a Commissioned Officer; and will bring them specially under certain clauses of the Articles of War.

6.—Instead of being clothed in the uniform of their respective Regiments, all School-masters will, when they are entitled to their next issue of clothing, receive a plain uniform of one general character.

7.—The fees paid by Soldiers who attend School, three-fourths of which fees have hitherto been paid to the School-master, will henceforward be wholly credited to the public.

8.—The allowance to the School-master for instructing, or superintending the instruction of the female children, will be discontinued; but he will not be relieved from the performance of this duty.

9.—Beer money is not in future to be issued to any class of trained School-masters.

10.—Notwithstanding the above-mentioned deductions from the former emoluments of the School-master, the increase of pay and pension now awarded will be an increase over his previous average receipts; while the prospect of promotion (depending upon his own conduct and exertions), and the fixed nature of his income, will greatly improve his situation.

11.—You will observe that the payment hitherto required from voluntary attendants at the School for the cost of copy-books will no longer be demanded; it being considered desirable to afford every proper encouragement to voluntary attendance.

12.—The allowance to the School-mistress will remain the same as before; but she will not be required to provide out of it materials and implements of work, which will be paid for by the public.

13.—The new Regulations will take effect from the 1st July 1854.

14.—In conclusion, I am to observe, that the Secretary at War feels that the success of the present system of Army Education, by means of trained Masters, depends in a great degree upon the interest taken in its operation by the Commanding Officers of Regiments or Garrisons; and I am accordingly to express Mr. Sidney Herbert's earnest hope, that you will co-operate with him in endeavouring to promote this important object, the attainment of which he has had chiefly in view in the alterations pointed out in this letter, in the position, rank and pay of the trained School-master.

No. 1017 *of* 1854.—The Most Noble the Governor General of India in Council is pleased to lay down the following rules regarding the pay and passage from India of European Soldiers of Her Majesty's and the Honorable Company's Services enlisted in Europe, who may obtain a free discharge.

1. Soldiers who obtain a free discharge will be entitled to their pay and rations to the date on which they may embark, provided they do so within two months of their arrival at the port of embarkation, after which all claim to pay or subsistence of any kind will cease.

2. In order to prevent as far as practicable the detention at the Presidency of Soldiers desirous of embarking for England or the Colonies, it will be ascertained, under the orders of His Excellency the Commander-in-Chief, periodically from the Marine Department, through the Quarter Master General of the Army, when ships are most likely to sail from the different ports, in order that the Soldiers may be warned, and thus deterred from taking their discharge and proceeding to the Presidency at a time when there may be no probability of procuring a passage.

3. All men who may have been two months at the Presidency will, on the expiration of that period, be furnished by the Town Major or the Brigade Major, Queen's Troops, as the case may be, with the confirmed parchment certificates of discharge, and they are not, under any circumstances, to be included in the arrangements for embarking men of Her Majesty's Service for the Australian Colonies under Military control, who may have more recently arrived at the port of embarkation.

4. Men obtaining free discharge can claim a free passage to England only; but in cases when His Excellency the Commander-in-Chief may recommend the indulgence, a free passage to any of the Colonies will, as at present, be allowed to them, provided the cost does not exceed that of passage to England.

5. On the arrival of the men at the Presidency, the Town Major or Brigade Major Queen's Troops, as the case may be, will apply at once to the Super-

intendent of Marine through the department of the Quarter Master General of the Army for passage to the place to which the men are allowed to proceed. The Superintendent of Marine will provide passage if practicable or intimate his inability to do so, and in the latter case the men will have to make their own arrangements for passage, and will be allowed towards the cost of it such sum as the Superintendent of Marine may certify to be the average cost of a passage to England at the time if one be procurable, or the average cost during the preceding season.

6. This allowance will be payable to the agent of the ship on a certificate that the men have embarked.

7. A free passage or an allowance as above explained will be granted for Soldiers' wives and legitimate children, including in the latter term their unmarried daughters of whatever age, their sons under the age of fourteen years and such of their sons above that age as may be crippled or ill.

8. Soldiers who have embarked and who return in consequence of the ship putting back from sea will be allowed pay and rations only for any portion of the two months subsequent to arrival at the Presidency, which may have remained unexpired on the date of their embarkation. Should they have received pay for the full two months, they will have no claim on the State after their return.

9. Should the number of discharged Soldiers of Her Majesty's Service wishing to proceed to Australia amount to thirty or upwards, but in no other case, (and provided these men embark within the period of two months, with reference to paras. 2 and 3 of this order,) they will be allowed, when such an arrangement may be practicable, to proceed to their destination under charge of an Officer, ordinarily of the Company's Service, who may be proceeding to those Colonies.

10. Soldiers of Her Majesty's Service embarking for the Australian Colonies under the charge of an Officer, will not be provided with their discharge certificates prior to embarkation, but these certificates will be made up to the last day of the month, two months in advance of that on which the party embarks and will be given to the Officer in charge for delivery to the men with the balance of their pay on arrival at their destination.

The above rules are to be considered applicable to the three Presidencies.

Notice.

It is hereby notified, that measures are in progress for discontinuing the sale of Salt by retail from the Government Depôts on the Mainland of Bullooah and the Island of Dukhin Shabazpore.

From the 1st January 1855, all the Retail Chokies on the Mainland will be closed with the exception of that at Sooderam, where a Stock of Salt will be stored and sold wholesale and retail till such time as there is reason to suppose that arrangements have been made by private Traders for keeping up a constant and adequate supply. Similarly in the Island of Shabazpore, a single Depôt for the wholesale and retail sale of Salt, will be maintained at Dowlut Khan.

The Salt delivered from the Depôts will, for the present, be Arracan Salt, and the price, Rupees 345 per 100 maunds on purchases of 100 maunds and upwards. Payments on such purchases must be made into the Bullooah Treasury, and Rowannahs to protect the Salt will be granted by the Superintendent of the Bullooah Salt Chokies. For quantities less than 100 maunds, the price will be rupees 3-8 per maund, and the Golah Darogahs will grant Chars for the removal of Salt purchased in such small quantities; but no sales of less than 5 maunds at a time will be allowed.

Rowannah Salt will be allowed free admission both in Shabazpore and on the Mainland, and the prices at the Depôts have been purposely so fixed as to give fair encouragement for a regular trade on the part of private Merchants.

By Order of the Board of Revenue,

A. R. Young,
Offg. Junior Secretary.

APPLICATIONS for Licences will be received by the Board of Revenue, and also by the Superintendent of the Barripore Salt Chokies, for transmission to the Board, from parties desirous to engage in the manufacture of Salt under an Excise system. A portion of the Sunderbuns, known as the Tuffal Aurungs, of the late 24-Pergunnahs Salt Agency, has been specially set apart for this purpose, and Licences to manufacture will be granted to applicants on the following terms and conditions :—

1. The Sunderbun Lots 131 and 132, in the first instance, afterwards Lot 149, and subsequently Lots 127, 128, 150, 151 and 152, in such order as may hereafter be judged expedient, will be made available for the manufacture of Salt on a system of Excise.

2. Lands suitably situated in the above locality will be divided into allotments of 50 beegahs each and rented at the rate of one anna per beegah, to parties engaging to manufacture not less than maunds 2,000 of Salt per annum. Each new allotment must be contiguous to the one last granted, or as nearly so as the nature of the ground will admit; but any number of allotments may be assigned to a single individual, on his satisfying the Board of his ability and *bonâ fide* intention to work them. The rent of the lands must be paid half at the beginning and half at the end of the Season.

3. The supervision of the manufacture will be entrusted to the Superintendent of the Barripore Salt Chokies, assisted by an establishment, whose duty it will be to take an account of the daily manufacture of each Khalary and to prevent mal-practices.

4. The Salt when made, may, at the option and convenience of the Manufacturer, be delivered to purchasers from the Aurungs or stored in Golahs, which will be provided by Government, free of charge; or a Manufacturer may, if he prefers it, under certain conditions, remove his Salt to be stored elsewhere than in the Government Golahs. In each case the following Rules must be oberved :—

5. When Salt is sold for delivery from the Aurungs, the amount of duty leviable upon it, at the rate of Rupees 2-8 per maund, must be paid into the General Treasury, and on production of receipts for such payment, Permits will be granted at the Board's Office for the protection of the Salt, in the same manner as in the case of Salt imported by Sea. The weighment on delivery must be made in presence of one of the Supervisor's Officers, and the Permit must be endorsed by the Aurung Assistant.

6. When Salt is to be removed for the purpose of being stored in the Government Golahs (which for the present will be established at Bungundee,) the Boats must be laden and the Salt stamped over in the presence of one of the Supervisor's Officers. It will then be transported to the Golahs by a certain prescribed route under Chellauns, specifying the quantity by Coot measurement. The Chellauns will be numbered and signed and the Boats passed by the Aurung Assistant, who will keep a Register of the Chellauns. On arrival at the Golahs, the despatch will be examined by the Officer in charge of the Golahs, the condition of the Stamps noted, and the Chellaun registered. The Salt will then be weighed into store and the result of the weighment entered in the Chellaun Register, as well as in the Store Account to be kept by the Golah Darogah. The expense of weighing the Salt into store will be borne by the Manufacturer.

7. Each Manufacturer's Salt will be piled in a separate heap and stamped with his own stamp. When a whole Golah is stored with Salt of a single Manufacturer, the Golah will be secured with two locks, one key being kept by the Manufacturer and the other by the Golah Darogah. When a Golah contains the Salt of more than one Manufacturer, there will be only one lock, the key of which will be kept by the Golah Darogah.

8. The Registers of Chellauns kept by the Aurung Assistant, and the Officer in charge of the Golahs, will be carefully compared by the Superintendent, for which purpose Extracts will be sent to him weekly; and if any despatch be not duly accounted for, or if any despatch appear to have been tampered with and the quantity received at the Depôt from such despatch be deficient as compared with the Estimate, no Salt belonging to the party concerned will be allowed to be delivered from the Depôt until the duty chargeable on the deficient quantity shall have been made good.

9. Salt will be delivered to purchasers from the Golahs, on the production of Permits to be obtained from the Board's Office in the manner described in Rule 5.

10. Wastage at the rates specified in the margin will be allowed in accounting for Salt stored under these Rules, and duty must be paid by the Manufacturer on any deficiency beyond the allowed wastage, which may not be accounted for to the Board's satisfaction. For the realization of this duty, a sufficient portion of the Salt may be detained and sold by Government.

	Md.	*Srs.*
First Quarter after Storage per 100 maunds.	2	10
Second Do. Do. Do.	3	10
Third Do. Do. Do.	3	.30
Fourth Do. Do. Do.	4	0

And an additional allowance at the rate of one maund per annum for Salt kept in store above one year.

11. The Salt of each year's manufacture will be kept separate, in order that the Accounts of each year's store may be duly made up.

12. Manufacturers, who may not choose to store their Salt at the fixed Depôt, must make a deposit of the duty in Company's Paper before removing it, and the duty must be paid in full within six months from the close of the Season, that is, before the 1st December of each year. The Salt must be weighed before removal and an excess of 3 per cent. above the quantity registered for duty will be allowed for wastage. Salt so removed will be protected by special Passes, to be filled up and signed by the Superintendent, and after removal will be at the free disposal of the Manufacturer, subject only to the provisions of Section 46 Regulation X. of 1819. Manufacturers intending to remove their Salt under this Rule must give notice to the Superintendent at the commencement of the Season.

13. The manufacture will be closed on or before the 31st May, and all Salt must be removed from the Aurungs not later than the 15th June. Any Salt remaining in the Aurungs after

that date will be liable to be destroyed by the Supervisor's Officers.

14. For a breach of any of the provisions of the Rules, the Licence of the party offending will be liable to be immediately withdrawn, and, in the event of smuggling or connivance at smuggling being proved against the Manufacturer or his duly-authorized Agent, the whole of the Salt manufactured or stored by him will be liable to confiscation.

15. Applicants before receiving their Licences will be required to bind themselves to accept and abide by the conditions embodied in the foregoing Rules.

16. Should any individual or Joint Stock Company desire to manufacture Salt on a large scale elsewhere than in the locality above described, Licences will be granted for such manufacture, provided the site chosen appear on enquiry suitable for the purpose, and a compliance with the application be otherwise unobjectionable. The foregoing terms, except in so far as they may be in part modified by special conditions to be entered in the Licence, will be applicable to Licences granted under this Rule.

Salt.

APPLICATIONS for Licences will be received by the Board of Revenue, and also by the Superintendent of the Barripore Salt Chokies, for transmission to the Board, from parties desirous to engage in the manufacture of Salt under an Excise system. A portion of the Sunderbuns, known as the Tuffal Aurungs, of the late 24-Pergunnahs Salt Agency, has been specially set apart for this purpose, and Licences to manufacture will be granted to applicants on the following terms and conditions :—

1. The Sunderbun Lots 131 and 132, in the first instance, afterwards Lot 149, and subsequently Lots 127, 128, 150, 151 and 152, in such order as may hereafter be judged expedient, will be made available for the manufacture of Salt on a system of Excise.

2. Lands suitably situated in the above locality will be divided into allotments of 50 beegahs each and rented at the rate of one anna per beegah, to parties engaging to manufacture not less than maunds 2,000 of Salt per annum. Each new allotment must be contiguous to the one last granted, or as nearly so as the nature of the ground will admit; but any number of allotments may be assigned to a single individual, on his satisfying the Board of his ability and *bonâ fide* intention to work them. The rent of the lands must be paid half at the beginning and half at the end of the Season.

3. The supervision of the manufacture will be entrusted to the Superintendent of the Barripore Salt Chokies, assisted by an establishment, whose duty it will be to take an account of the daily manufacture of each Khalary and to prevent mal-practices.

4. The Salt when made, may, at the option and convenience of the Manufacturer, be delivered to purchasers from the Aurungs or stored in Golahs, which will be provided by Government, free of charge; or a Manufacturer may, if he prefers it, under certain conditions, remove his Salt to be stored elsewhere than in the Government Golahs. In each case the following Rules must be observed :—

5. When Salt is sold for delivery from the Aurungs, the amount of duty leviable upon it, at the rate of Rupees 2-8 per maund, must be paid into the General Treasury, and on production of receipts for such payment, Permits will be granted at the Board's Office for the protection of the Salt, in the same manner as in the case of Salt imported by Sea. The weighment on delivery must be made in presence of one of the Supervisor's Officers, and the Permit must be endorsed by the Aurung Assistant.

6. When Salt is to be removed for the purpose of being stored in the Government Golahs (which for the present will be established at Bungundee,) the Boats must be laden and the Salt stamped over in the presence of one of the Supervisor's Officers. It will then be transported to the Golahs by a certain prescribed route under Chellauns, specifying the quantity by Coot measurement. The Chellauns will be numbered and signed and the Boats passed by the Aurung Assistant, who will keep a Register of the Chellauns. On arrival at the Golahs, the despatch will be examined by the Officer in charge of the Golahs, the condition of the Stamps noted, and the Chellaun registered. The Salt will then be weighed into store and the result of the weighment entered in the Chellaun Register, as well as in the Store Account to be kept by the Golah Darogah. The expense of weighing the Salt into store will be borne by the Manufacturer.

7. Each Manufacturer's Salt will be piled in a separate heap and stamped with his own stamp.

When a whole Golah is stored with Salt of a single Manufacturer, the Golah will be secured with two locks, one key being kept by the Manufacturer and the other by the Golah Darogah. When a Golah contains the Salt of more than one Manufacturer, there will be only one lock, the key of which will be kept by the Golah Darogah.

8. The Registers of Chellauns kept by the Aurung Assistant, and the Officer in charge of the Golahs, will be carefully compared by the Superintendent, for which purpose Extracts will be sent to him weekly; and if any despatch be not duly accounted for, or if any despatch appear to have been tampered with and the quantity received at the Depôt from such despatch be deficient as compared with the Estimate, no Salt belonging to the party concerned will be allowed to be delivered from the Depôt until the duty chargeable on the deficient quantity shall have been made good.

9. Salt will be delivered to purchasers from the Golahs, on the production of Permits to be obtained from the Board's Office in the manner described in Rule 5.

10. Wastage at the rates specified in the margin will be allowed in accounting for Salt stored under these Rules, and duty must be paid by the Manufacturer on any deficiency beyond the allowed wastage, which may not be accounted for to the Board's satisfaction. For the realization of this duty, a sufficient portion of the Salt may be detained and sold by Government.

	Md.	*Srs.*
First Quarter after Storage per 100 maunds.	2	10
Second Do. Do. Do.	3	10
Third Do. Do. Do.	3	30
Fourth Do. Do. Do.	4	0

And an additional allowance at the rate of one maund per annum for Salt kept in store above one year.

11. The Salt of each year's manufacture will be kept separate, in order that the Accounts of each year's store may be duly made up.

12. Manufacturers, who may not choose to store their Salt at the fixed Depôt, must make a deposit of the duty in Company's Paper before removing it, and the duty must be paid in full within six months from the close of the Season, that is, before the 1st December of each year. The Salt must be weighed before removal and an excess of 3 per cent. above the quantity registered for duty will be allowed for wastage. Salt so removed will be protected by special Passes, to be filled up and signed by the Superintendent, and after removal will be at the free disposal of the Manufacturer, subject only to the provisions of Section 46 Regulation X. of 1819. Manufacturers intending to remove their Salt under this Rule must give notice to the Superintendent at the commencement of the Season.

13. The manufacture will be closed on or before the 31st May, and all Salt must be removed from the Aurungs not later than the 15th June. Any Salt remaining in the Aurungs after that date will be liable to be destroyed by the Supervisor's Officers.

14. For a breach of any of the provisions of the Rules, the Licence of the party offending will be liable to be immediately withdrawn, and, in the event of smuggling or connivance at smuggling being proved against the Manufacturer or his duly-authorized Agent, the whole of the Salt manufactured or stored by him will be liable to confiscation.

15. Applicants before receiving their Licences will be required to bind themselves to accept and abide by the conditions embodied in the foregoing Rules.

16. Should any individual or Joint Stock Company desire to manufacture Salt on a large scale elsewhere than in the locality above described, Licences will be granted for such manufacture, provided the site chosen appear on enquiry suitable for the purpose, and a compliance with the application be otherwise unobjectionable. The foregoing terms, except in so far as they may be in part modified by special conditions to be entered in the Licence, will be applicable to Licences granted under this Rule.

Notice.

It is hereby notified, that measures are in progress for discontinuing the sale of Salt by retail from the Government Depôts on the Mainland of Bullooah and the Island of Dukhin Shahazpore.

From the 1st January 1855, all the Retail Chokies on the Mainland will be closed with the exception of that at Sooderam, where a Stock of Salt will be stored and sold wholesale and retail till such time as there is reason to suppose that arrangements have been made by private Traders for keeping up a constant and adequate supply Similarly in the Island of Shahazpore, a single Depôt for the wholesale and retail sale of Salt, will be maintained at Dowlut Khan

The Salt delivered from the Depôts will, for the present, be Arracan Salt, and the price, Rupees 345 per 100 maunds on purchases of 100 maunds and upwards Payments on such purchases must be made into the Bullooah Treasury, and Rowannahs to protect the Salt will be granted by the Superintendent of the Bullooah Salt Chokies. For quantities less than 100 maunds, the price will be rupees 3 8 per maund, and the Golah Darogahs will grant Chits for the removal of Salt purchased in such

small quantities ; but no sales of less than 5 maunds at a time will be allowed.

Rowanuah Salt will be allowed free admission both in Shahazpore and on the Mainland, and the prices at the Depôts have been purposely so fixed as to give fair encouragement for a regular trade on the part of private Merchants.

Notification.

Salt.

APPLICATIONS for Licences will be received by the Board of Revenue, and also by the Superintendent of the Barripore Salt Chokies, for transmission to the Board, from parties desirous to engage in the manufacture of Salt under an Excise system. A portion of the Sunderbuns, known as the Tuffal Aurungs, of the late 24-Pergunnahs Salt Agency, has been specially set apart for this purpose, and Licences to manufacture will be granted to applicants on the following terms and conditions :—

1. The Sunderbun Lots 131 and 132, in the first instance, afterwards Lot 149, and subsequently Lots 127, 128, 150, 151 and 152, in such order as may hereafter be judged expedient, will be made available for the manufacture of Salt on a system of Excise.

2. Lands suitably situated in the above locality will be divided into allotments of 50 beegahs each and rented at the rate of one anna per beegah, to parties engaging to manufacture not less than maunds 2,000 of Salt per annum. Each new allotment must be contiguous to the one last granted, or as nearly so as the nature of the ground will admit ; but any number of allotments may be assigned to a single individual, on his satisfying the Board of his ability and *bonâ fide* intention to work them. The rent of the lands must be paid half at the beginning and half at the end of the Season

3. The supervision of the manufacture will be entrusted to the Superintendent of the Barripore Salt Chokies, assisted by an establishment, whose duty it will be to take an account of the daily manufacture of each Khalary and to prevent mal-practices.

4. The Salt when made, may, at the option and convenience of the Manufacturer, be delivered to purchasers from the Aurungs or stored in Golahs, which will be provided by Government, free of charge ; or a Manufacturer may, if he prefers it, under certain conditions, remove his Salt to be stored elsewhere than in the Government Golahs. In each case the following Rules must be observed :—

5. When Salt is sold for delivery from the Aurungs, the amount of duty leviable upon it, at the rate of Rupees 2-8 per maund, must be paid into the General Treasury, and on production of receipts for such payment, Permits will be granted at the Board's Office for the protection of the Salt, in the same manner as in the case of Salt imported by Sea. The weighment on delivery must be made in presence of one of the Supervisor's Officers, and the Permit must be endorsed by the Aurung Assistant.

6. When Salt is to be removed for the purpose of being stored in the Government Golahs (which for the present will be established at Bungundee,) the Boats must be laden and the Salt stamped over in the presence of one of the Supervisor's Officers. It will then be transported to the Golahs by a certain prescribed route under Chellauns, specifying the quantity by Coot measurement. The Chellauns will be numbered and signed and the Boats passed by the Aurung Assistant, who will keep a Register of the Chellauns. On arrival at the Golahs, the despatch will be examined by the Officer in charge of the Golahs, the condition of the Stamps noted, and the Chellaun registered. The Salt will then be weighed into store and the result of the weighment entered in the Chellaun Register, as well as in the Store Account to be kept by the Golah Darogah. The expense of weighing the Salt into store will be borne by the Manufacturer.

7. Each Manufacturer's Salt will be piled in a separate heap and stamped with his own stamp. When a whole Golah is stored with Salt of a single Manufacturer, the Golah will be secured with two locks, one key being kept by the Manufacturer and the other by the Golah Darogah. When a Golah contains the Salt of more than one Manufacturer, there will be only one lock, the key of which will be kept by the Golah Darogah.

8. The Registers of Chellauns kept by the Aurung Assistant, and the Officer in charge of the Golahs, will be carefully compared by the Superintendent, for which purpose Extracts will be sent to him weekly ; and if any despatch be not duly accounted for, or if any despatch appear to have been tampered with and the quantity received at the Depôt from such despatch be deficient as compared with the Estimate, no Salt belonging to the party concerned will be allowed to be delivered from the Depôt until the duty chargeable on the deficient quantity shall have been made good.

9. Salt will be delivered to purchasers from the Golahs, on the production of Permits to be obtained from the Board's Office in the manner described in Rule 5.

10. Wastage at the rates specified in the margin will be allowed in accounting for Salt stored under these Rules, and duty must be paid by the Manufacturer on any deficiency beyond the allowed wastage, which may not be accounted for to the Board's satisfaction. For the realization of this duty, a sufficient portion of the Salt may be detained and sold by Government.

	Md.	*Srs.*
First Quarter after Storage per 100 maunds.	2	10
Second Do. Do. Do.	3	10
Third Do. Do. Do.	3	30
Fourth Do. Do. Do.	4	0
And an additional allowance at the rate of one maund per annum for Salt kept in store above one year.		

11. The Salt of each year's manufacture will be kept separate, in order that the Accounts of each year's store may be duly made up.

12. Manufacturers, who may not choose to store their Salt at the fixed Depôt, must make a

deposit of the duty in Company's Paper before removing it, and the duty must be paid in full within six months from the close of the Season, that is, before the 1st December of each year. The Salt must be weighed before removal and an excess of 3 per cent. above the quantity registered for duty will be allowed for wastage. Salt so removed will be protected by special Passes, to be filled up and signed by the Superintendent, and after removal will be at the free disposal of the Manufacturer, subject only to the provisions of Section 46 Regulation X. of 1819. Manufacturers intending to remove their Salt under this Rule must give notice to the Superintendent at the commencement of the Season.

13. The manufacture will be closed on or before the 31st May, and all Salt must be removed from the Aurungs not later than the 15th June. Any Salt remaining in the Aurungs after that date will be liable to be destroyed by the Supervisor's Officers.

14. For a breach of any of the provisions of the Rules, the Licence of the party offending will be liable to be immediately withdrawn, and, in the event of smuggling or connivance at smuggling being proved against the Manufacturer or his duly-authorized Agent, the whole of the Salt manufactured or stored by him will be liable to confiscation.

15. Applicants before receiving their Licences will be required to bind themselves to accept and abide by the conditions embodied in the foregoing Rules.

16. Should any individual or Joint Stock Company desire to manufacture Salt on a large scale elsewhere than in the locality above described, Licences will be granted for such manufacture, provided the site chosen appear on enquiry suitable for the purpose, and a compliance with the application be otherwise unobjectionable. The foregoing terms, except in so far as they may be in part modified by special conditions to be entered in the Licence, will be applicable to Licences granted under this Rule.

The annexed Table gives full information regarding the rates of Steam postage and the places to which pre-payment is optional or otherwise; by attention to it, all risk of inconvenience will be obviated. ACT No. XXIII. OF 1854.

An Act for the suppression of Outrages in the District of Malabar, in the Presidency of Fort St. George.

Preamble.

WHEREAS in the District of Malabar, in the Presidency of Fort St. George, murderous outrages have been frequently committed by persons of the class called Moplas against inhabitants of those Districts belonging to other classes, the offenders in such outrages intending therein to sacrifice their own lives ; and the general law of the country is not adequate to suppress such outrages : It is enacted as follows :—

Governor in Council empowered to proclaim the whole or any part of Malabar to come under this Act

I. It shall be lawful for the Governor in Council of Fort St. George, whenever he shall see fit, by a proclamation published in the *Fort St. George Gazette*, from time to time to declare the whole or any part or parts of the District of Malabar to be subject to the operation of all or any of the following provisions.

The property of Moplas convicted of outrages to be forfeited.

II. Any Mopla, who murders or attempts to murder any person belonging to any other class, or who takes part in any outrage directed by Moplas against persons of any other class, wherein murder is committed or is attempted to be committed, or is likely to be committed, and any person who shall procure or promote the commission of any such crime as aforesaid, or shall incite or encourage any other person or persons to commit the same ; or who, after having committed, or having been accessary to any such crime as aforesaid, shall forcibly resist any person or persons having lawful authority to apprehend him ; or who shall join or assist, or incite or encourage other persons to join or assist in such resistance ; shall, on conviction thereof, be liable not only to the punishment provided by the existing law for the offence of which he may be convicted, but also to the forfeiture of all his property, of whatever kind, to Government, by the sentence of the Court by which he is tried ; and

Also the property of persons killed in committing outrages.

whenever any person shall be killed in the act of committing any such offence as aforesaid, or being wounded and taken prisoner in the act of committing any such offence as aforesaid, shall afterwards die of his wounds, it shall be competent to the Court which would have had cognizance of the offence, if the offender could have been brought to trial, to proceed on the application of the Magistrate to hold an inquest into the circumstances of the death of the offender ; and on proof of his having been killed as aforesaid, or of his having died of wounds received as aforesaid, to adjudge that the whole of his property shall be forfeited to Government.

Bodies of offending Moplas sentenced to death, or killed, may be burned or buried within the precincts of the Jail.

III. If any Mopla shall be sentenced to death for any capital offence, punishable also with forfeiture of property under this Act, it shall be lawful for the Court, by which such offender is convicted, by its sentence, to direct the body of such offender to be burned or buried

Also the property of persons killed in committing outrages.

whenever any person shall be killed in the act of committing any such offence as aforesaid, or being wounded and taken prisoner in the act of committing any such offence as aforesaid, shall afterwards die of his wounds, it shall be competent to the Court which would have had cognizance of the offence, if the offender could have been brought to trial, to proceed on the application of the Magistrate to hold an inquest into the circumstances of the death of the offender; and on proof of his having been killed as aforesaid, or of his having died of wounds received as aforesaid, to adjudge that the whole of his property shall be forfeited to Government.

Bodies of offending Moplas sentenced to death, or killed, may be burned or buried within the precincts of the Jail.

III. If any Mopla shall be sentenced to death for any capital offence, punishable also with forfeiture of property under this Act, it shall be lawful for the Court, by which such offender is convicted, by its sentence, to direct the body of such offender to be burned or buried

III. If it shall appear to the Collector inexpedient to place any such minor at a school or college, he shall, if the proceeds of the Estate are sufficient for that purpose, cause such minor to be educated by a private tutor, properly qualified, either at the family residence of such minor, or at the sudder station or elsewere within the said Presidency; and in that case also the Collector shall have power to determine from time to time the place of residence of such minor, and to make such provision as may be necessary for his proper tuition and maintenance during the period of his education.

Or in certain cases to cause such wards to be educated privately.

IV. All charges and expenses which may be incurred on account of any male minor ward under the provisions of this Act, for college or school fees or for other charges of tuition or education, or by reason of his residence in any place other than his own home or otherwise, shall be defrayed from the profits of his estate in the same manner as other

It shall be lawful for the Court of Wards, on the application of a Collector, to remove from office, any guardian who shall neglect or refuse to obey, or shall evade compliance with any orders passed, or directions given by such Collector under the provisions of this Act, and to cause a new guardian to be appointed in his place, whether the person so removed shall have been first invested with the guardianship of the minor upon the nomination of a Collector acting under the Court of Wards, or by a testamentary appointment confirmed by the Court of Wards, and if in any such case the guardian to be removed shall be also the manager of the minor's estate, it shall be lawful for the Court of Wards, at its discretion, either to remove him from both the said offices, or to continue him in that of Manager only.

Continued liability of guardian removed: powers and responsibilities of new guardian.

VI. The right to the custody of the person of a male minor to be vested in guardian appointed by the Court of Wards, or, failing him, in the Collector.

VII. The right to the custody of the person of any male minor, whose property is under the management of the Court of Wards, is hereby vested in the person appointed with the sanction of the Court of Wards, either originally or upon the removal of a former guardian, to be the guardian of such minor, or in the absence of any such person, in the Collector of Revenue having the superintendence of the education of such minor under the provisions of this Act.

Appeal from the orders of a Collector to lie to Commissioner of Revenue acting as a Court of Wards.

General Orders by the Most Noble the Governor General of India in Council.

Fort William, 15th November 1854.

No. 1136 *of* 1854.—The following Notification from the Foreign Department is published in General Orders:—

No. 4824, *dated 15th November* 1854.—The Most Noble the Governor General in Council has the highest satisfaction in publishing, for general information in India, the annexed copies of Despatches contained in the *London Gazette Extraordinary* and in the *Moniteur*, which announced the Victory gained by the Allied Forces over the Russian Troops on the Banks of the River Alma.

The Governor General in Council is pleased to direct that, in honor of this great Victory, a Royal Salute shall be fired at every principal Station of the Army in India.

By order of the Most Noble the Governor General in Council,

(Signed) G. F. EDMONSTONE,
Secy. to the Govt. of India.

Battle of the Alma.

War Department, October 8, 1854, 8½ *o'clock, a. m.*

MAJOR the Lord Burghersh arrived this morning with a Despatch from General the Lord Raglan, G C. B., to His Grace the Duke of Newcastle, of which the following is a copy:

Head Quarters, Katscha River,
September 23, 1854.

MY LORD DUKE,

I HAVE the honour to inform your Grace, that the Allied Troops attacked the position occupied by the Russian Army, behind the Alma, on the 20th instant; and I have great satisfaction in adding, that they succeeded, in less than three hours, in driving the enemy from every part of the ground which they had held in the morning, and in establishing themselves upon it.

The English and French Armies moved out of their first encampment in the Crimea on the 19th, and bivouacked for the night on the left bank of the Bulganac, the former having previously supported the advance of a part of the Earl of Cardigan's brigade of Light Cavalry, which had the effect of inducing the enemy to move up a large body of Dragoons and Cosaques, with artillery.

On this, the first occasion of the English encountering the Russian force, it was impossible for any troops to exhibit more steadiness than did this portion of Her Majesty's cavalry.

It fell back upon its supports with the most perfect regularity under the fire of the Artillery, which was quickly silenced by that of the batteries I caused to be brought into action.

Our loss amounted to only four men wounded.

The day's march had been most wearisome and, under a burning sun, the absence of water, until we reached the insignificant but welcome stream of the Bulganac, made it to be severely felt.

Both Armies moved towards the Alma the following morning, and it was arranged that Marshal St Arnaud should assail the enemy's left by crossing the river at its junction with the sea, and immediately above it, and that the remainder of the French divisions should move up the heights in their front, whilst the English Army should attack the right and centre of the enemy's position.

In order that the gallantry exhibited by Her Majesty's troops, and the difficulties they had to meet may be fairly estimated, I deem it right, even at the risk of being considered tedious, to endeavour to make your Grace acquainted with the position the Russians had taken up.

It crossed the great road about 2½ miles from the sea, and is very strong by nature.

The bold and almost precipitous range of heights, of from 350 to 400 feet, that from the sea closely border the left bank of the river here ~~cross~~, and formed their left, and turning thence round a great amphitheatre or wide valley, terminates at a salient pinnacle where their right rested, and whence the descent to the plain was more gradual.

The front was about two miles in extent.

Across the mouth of this great opening is a lower ridge at different heights, varying from 60 to 150 feet, parallel to the river, and at distances from it of from 600 to 800 yards.

The river itself is generally fordable for troops, but its banks are extremely rugged, and in most parts steep; the willows along it had been cut down, in order to prevent them from affording cover to the attacking party, and in fact everything had been done to deprive an assailant of any species of shelter.

In front of the position on the right bank, at about 200 yards from the Alma, is the village of Boulouk, and near it a timber bridge, which had been partly destroyed by the enemy.

The high pinnacle and ridge before alluded to was the key of the position, and consequently there the greatest preparations had been made for defence.

Halfway down the height, and across its front, was a trench of the extent of some hundred yards, to afford cover against an advance up the even steep slope of the hill. On the right, and a little retired, was a powerful covered battery, armed with heavy guns, which flanked the whole of the right of the position.

Artillery, at the same time, was posted at the points that best commanded the passage of the river and its approaches generally.

On the slopes of these hills (forming a sort of table land) were placed dense masses of the enemy's infantry, whilst on the heights above was his great reserve, the whole amounting, it is supposed, to between 45,000 and 50,000 men

The combined Armies advanced on the same alignement, Her Majesty's troops in contiguous double columns, with the front of two divisions covered by light infantry and a troop of horse artillery, the 2nd Division, under Lieutenant-General Sir De Lacy Evans, forming the right, and touching the left of the 3rd Division of the French Army, under His Imperial Highness Prince Napoleon, and the Light Division, under Lieutenant-General Sir George Brown, the left; the first being supported by the 3rd Division, under Lieutenant-General Sir Richard England, and the last by the 1st Division, commanded by Lieutenant-General His Royal Highness the Duke of Cambridge.

The 4th Division, under Lieutenant-General Sir George Cathcart, and the cavalry under Major-General the Earl of Lucan, were held in reserve to protect the left flank and rear against large bodies of the enemy's cavalry, which had been seen in those directions.

On approaching to near the fire of the guns, which soon became extremely formidable, the two

leading divisions deployed into line, and advanced to attack the front, and the supporting divisions followed the movement. Hardly had this taken place, when the village of Boulouk, immediately opposite the centre, was fired by the enemy at all points, creating a continuous blaze for three hundred yards, obscuring their position and rendering a passage through it impracticable. Two regiments of Brigadier-General Adams' brigade, part of Sir De Lacy Evans' division, had, in consequence, to pass the river at a deep and difficult ford to the right under a sharp fire, whilst his first brigade, under Major-General Pennefather, and the remaining regiment of Brigadier-General Adams crossed to the left of the conflagration, opposed by the enemy's artillery from the heights above, and pressed on towards the left of their position, with the utmost gallantry and steadiness.

In the meanwhile, the Light Division, under Sir George Brown, effected the passage of the Alma in his immediate front. The banks of the river itself were from their rugged and broken nature, most serious obstacles, and the vineyards, through which the troops had to pass, and the trees which the enemy had felled, created additional impediments, rendering every species of formation, under a galling fire, nearly an impossibility. Lieutenant-General Sir George Brown advanced against the enemy under great disadvantages.

In this difficult operation he nevertheless persevered, and the 1st Brigade, under Major-General Codrington, succeeded in carrying a redoubt, materially aided by the judicious and steady manner in which Brigadier-General Buller moved on the left flank, and by the advance of four companies of the Rifle Brigade, under Major Norcott, who promises to be a distinguished officer of light troops.

The heavy fire of grape and musketry, however, to which the troops were exposed, and the losses consequently sustained by the 7th, 23rd, and 33rd Regiments, obliged this brigade partially to relinquish its hold.

By this time, however, the Duke of Cambridge had succeeded in crossing the river, and had moved up in support, and a brilliant advance of the brigade of Foot Guards, under Major-General Bentinck, drove the enemy back, and secured the final possession of the work.

The Highland Brigade, under Major-General Sir Colin Campbell, advanced in admirable order and steadiness up the high ground to the left, and in co-operation with the Guards; and Major-General Pennefather's Brigade, which had been connected with the right of the Light Division, forced the enemy completely to abandon the position they had taken such pains to defend and secure.

The 95th Regiment, immediately on the right of the Royal Fusiliers in the advance, suffered equally with that corps an immense loss.

The aid of the Royal Artillery in all these operations was most effectual. The exertions of the field officers and the Captains of troops and batteries to get the guns into action were unceasing, and the precision of their fire materially contributed to the great results of the day.

Lieutenant-General Sir Richard England brought his division to the immediate support of the troops in advance, and Lieutenant-General the Honorable Sir George Cathcart was actively engaged in watching the left flank.

The nature of the ground did not admit of the employment of the cavalry under the Earl of Lucan; but they succeeded in taking some prisoners at the close of the battle.

In the detail of these operations, which I have gone into as far as the space of a despatch would allow, your Grace will perceive, that the services in which the General and other Officers of the Army were engaged were of no ordinary character, and I have great pleasure in submitting them for your Grace's most favourable consideration.

The mode in which Lieutenant-General Sir George Brown conducted his division, under the most trying circumstances, demands the expression of my warmest approbation. The fire to which his division was subjected, and the difficulties he had to contend against, afford no small proof that his best energies were applied to the successful discharge of his duty.

I must speak in corresponding terms of Lieutenant-General Sir De Lacy Evans, who likewise conducted his division to my perfect satisfaction and exhibited equal coolness and judgment in carrying out a most difficult operation.

His Royal Highness the Duke of Cambridge brought his division into action in support of the Light Division with great ability, and had for the first time an opportunity of showing the enemy his devotion to Her Majesty and to the profession of which he is so distinguished a member.

My best thanks are due to Lieutenant-General Sir R. England, Lieutenant-General the Honorable Sir George Cathcart, and Lieutenant-General the Earl of Lucan, for their cordial assistance, wherever it could be afforded, and I feel it my duty especially to recommend to your Grace's notice the distinguished conduct of Major-General Bentinck, Major-General Sir Colin Campbell, Major-General Pennefather, Major-General Codrington, Brigadier-General Adams, and Brigadier-General Buller.

In the affair of the previous day, Major-General the Earl of Cardigan exhibited the utmost spirit and coolness, and kept his brigade under perfect command.

The manner in which Brigadier-General Strangway directed the Artillery, and exerted himself to bring it forward, met my entire satisfaction.

Lieutenant-General Sir John Burgoyne was constantly by my side, and rendered me, by his counsel and advice, the most valuable assistance, and the Commanding Royal Engineer, Brigadier-General Tylden, was always at hand to carry out any service I might direct him to undertake.

I deeply regret to say that he has since fallen a victim to cholera, as has Major Wellesley, who was present in the affair of the previous day, notwithstanding that he was then suffering from serious illness. He had, during the illness of Major-General Lord de Ros, acted for him in the most efficient manner. I cannot speak too highly of Brigadier-General Estcourt, Adjutant-General, or of Brigadier-General Airey, who, in the short time he has conducted the duties of the Quarter-master-General, has displayed the greatest ability, as well as aptitude for the office.

I am much indebted to my Military Secretary, Lieutenant-Colonel Steele, Major Lord Burghersh, and the Officers of my personal Staff, for the zeal, intelligence, and gallantry they all, without exception, displayed.

Lieutenant Derriman, R.N., the Commander of the Caradoc, accompanied me during the whole of

the operation, and rendered me an essential service, by a close observation of the enemy's movements, which his practised eye enabled him accurately to watch.

I lament to say that Lieutenant-Colonel Lagondie, who was attached to my head-quarters by the Emperor of the French, fell into the enemy's hands on the 19th, on his return from Prince Napoleon's division, where he had obligingly gone at my request, with a communication to his Imperial Highness.

This misfortune is deeply regretted, both by myself and the officers of my personal staff.

The other officer placed with me under similar circumstances, Major Vico, afforded me all the assistance in his power, sparing no exertion to be of use.

I cannot omit to make known to your Grace the cheerfulness with which the regimental officers of the Army have submitted to most unusual privations.

My anxiety to bring into the country every cavalry and infantry soldier who was available, prevented me from embarking their baggage animals, and these officers have with them at this moment nothing but what they can carry, and they, equally with the men, are without tents or covering of any kind.

I have not heard a single murmur. All seem impressed with the necessity of the arrangement; and they feel, I trust, satisfied that I shall bring up their kit horses at the earliest moment.

The conduct of the troops has been admirable. When it is considered that they have suffered severely from sickness during the last two months; that, since they landed in the Crimea, they have been exposed to the extremes of wet, cold, and heat; that the daily toil to provide themselves with water has been excessive, and that they have been pursued by cholera to the very battle-field, I do not go beyond the truth in declaring that they merit the highest commendation.

In the ardour of attack they forgot all they had endured, and displayed that high courage, that gallant spirit, for which the British soldier is ever distinguished; and under the heaviest fire they maintained the same determination to conquer, as they had exhibited before they went into action. I should be wanting in my duty, my Lord Duke, if I did not express to your Grace, in the most earnest manner, my deep feeling of gratitude to the officers and men of the Royal Navy for the invaluable assistance they afforded the Army upon this, as on every occasion where it could be brought to bear upon our operations.

They watched the progress of the day with the most intense anxiety; and as the best way of evincing their participation in our success, and their sympathy in the sufferings of the wounded, they never ceased, from the close of the battle till we left the ground this morning, to provide for the sick and wounded, and to carry them down to the beach, a labour in which some of the Officers even volunteered to participate, an act which I shall never cease to recollect with the warmest thankfulness.

I mention no names, fearing I might omit some who ought to be spoken of; but none who were associated with us, spared any exertion they could apply to so sacred a duty.

Sir Edmond Lyons, who had charge of the whole, was, as always, most prominent in rendering assistance, and providing for emergencies.

I enclose the return of killed and wounded. It is, I lament to say, very large; but I hope, all circumstances considered, that it will be felt that no life was unnecessarily exposed, and that such an advantage could not be achieved without a considerable sacrifice.

I cannot venture to estimate the amount of the Russian loss. I believe it to have been great, and such is the report in the country.

The number of prisoners who are not hurt is small; but the wounded amount to 800 or 900. Two General Officers, Major Generals Karganoff and Shokanoff fell into our hands. The former is very badly wounded.

I will not attempt to describe the movements of the French Army; that will be done by an abler hand; but it is due to them to say that their operations were eminently successful, and that under the guidance of their distinguished commander, Marshal St. Arnaud, they manifested the utmost gallantry, the greatest ardour for the attack, and the high military qualities for which they are so famed.

This despatch will be delivered to your Grace by Major Lord Burghersh, who is capable of affording you the fullest information, and whom I beg to recommend to your especial notice.

I have, &c.,

RAGLAN.

P. S.—I enclose a sketch of the field of battle.

His Grace the Duke of Newcastle,

Head Quarters, Alma River,
September 22, 1854.

GENERAL ORDER.—No. 1.

THE Commander of the Forces congratulates the troops on the brilliant success that attended their unrivalled efforts in the Battle of the 20th instant, on which occasion they carried a most formidable position, defended by large masses of Russian Infantry and a most powerful and numerous Artillery.

Their conduct was in unison with that of our gallant Allies, whose spirited and successful attack of the left of the heights occupied by the enemy cannot fail to have attracted their notice and admiration.

The Commander of the Forces thanks the Army most warmly for its gallant exertions. He witnessed them with pride and satisfaction, and it will be his pleasing duty to report, for the Queen's information, how well they have earned Her Majesty's approbation, and how gloriously maintained the honour of the British name.

Lord Raglan condoles most sincerely with the troops on the loss of so many gallant officers and brave men, whose memory it will be a consolation to their friends to feel, will ever be cherished in the annals of our Army.

War Department, October 8, 1854, 8½ *o'clock, a. m*

THE Duke of Newcastle has received private letters from Lord Raglan, expressing his great regret that the harassing duties imposed upon the troops, by the operations after the Battle of Alma, had prevented the nominal returns of the killed and wounded of the non-commissioned officers and privates being made out in the different regiments in time to be sent with the Despatches now published.

The Duke of Newcastle expects them by an early mail, and they shall be published the moment they are received.

Admiralty, October 8, 1854

THE Lords Commissioners of the Admiralty have this day received Despatches from Vice-Admiral Dundas, containing intelligence as to the proceedings of Her Majesty's Fleet in the Black Sea, of which the following are copies :—

ATTACK OF THE RUSSIAN ENTRENCHMENTS ON THE ALMA BY THE ALLIED ARMIES.

No. 485. *Britannia, off the Alma,*
SIR, *September* 21, 1854.

IN my letter of the 18th instant (No. 480,) I reported to you, for the information of the Lords Commissioners of the Admiralty, that the Allied Armies were ready to move, and I now beg you will acquaint their Lordships that, on the morning of the 19th, they marched to a position about two miles north of the Alma River, where they halted

for the night; the French and Turks on the right, close to the sea, and the English to the left, about four miles inland.

The Russians, with some 5,000 or 6,000 cavalry and artillery, and 15,000 infantry, made a demonstration north of the river, but returned on the approach of the armies, and re-crossed the river at sunset.

About noon, on the 20th, the Allies advanced in the same order to force the Russian position and entrenchments south of the Alma. This was effected by 4 o'clock, the Russians retreating apparently to the eastward of the main road to Sebastopol.

The Russians left fell back before the French very rapidly, and their batteries on the right were carried by the bayonet by the English.

Our loss has necessarily been severe, and is estimated at about 1,200 killed and wounded; that of the French about 900.

The Russian loss has also been great, two general officers and 3 guns were captured by our men, but we have few prisoners beyond the wounded, in consequence it is believed of our deficiency of cavalry.

Lieutenant Derriman, of the *Caradoc*, accompanied the Staff of General Lord Raglan during the action, and I also sent Lieutenant Glynn of this ship to convey any message to me from his lordship.

All the medical officers of the fleet (excepting one in each ship,) 600 seamen and marines, and all the boats have been assisting the wounded, and conveying them to the transports, that will sail for the Bosphorus as soon as possible.

I believe it is the intention of the Allied Forces to move to-morrow, and the *Sampson*, which I detached last night with the *Terrible* off Sebastopol, has signalized that the Russians were retreating on Sebastopol, and that they have burnt the villages on the Katscha.

I have, &c.,

Vice-Admiral.

The Secretary of the Admiralty.

MOVEMENTS OF THE FLEETS AND ARMIES.

No. 487. *Britannia, off the Katscha,*

SIR, *September* 23, 1854.

I BEG you will inform the Lords Commissioners of the Admiralty, that since my letter to you of the 21st instant (No. 485,) the men and boats of the fleet have been employed in bringing from the field (about four miles distant,) and carrying on board the transports, the English and Russian officers and men wounded in the battle of the Alma, as well as the sick of the Army.

2 All the medical officers of the different ships have been zealously and usefully occupied in attending them, and I have been obliged to send several assistant-surgeons in the vessels with the wounded to Constantinople.

3. The *Vulcan* and *Andes*, with 800 wounded and sick, sailed for Constantinople yesterday, and to-day the *Orinoco* and *Colombo*, with 900, including some sixty or seventy Russians, will follow.

Another vessel (by the request of Lord Raglan,) with about 500 wounded Russians, will also proceed, under charge of the *Fury*, to land them at Odessa.

4. On the night of the 21st instant, the Russians made a very great alteration in the position of their fleet in Sebastopol. I enclose a report made by Captain Jones, of the *Sampson*; and I propose attacking the outer line in the first favourable opportunity.

5 Captain Jones also reports that great exertions appear to be making to strengthen the land defences, as well as those by sea.

New batteries on both sides of the port have been erected, defending the entrances and line of coast. One, to the North, has heavy guns, of a range of 4,000 yards, two shots having passed over the *Sampson* when nearly at that distance.

6. Provisions for the Army have been landed; and the Forces move on to-day towards Sebastopol, accompanied by the Fleets, which have anchored off the Katscha.

I have, &c.,

(Signed) J. W. D. DUNDAS,

Vice-Admiral.

The Secretary of the Admiralty.

SINKING OF THE RUSSIAN SHIPS AT THE ENTRANCE OF THE HARBOUR OF SEBASTOPOL.

No. 489. *Britannia, off the Katscha,*

SIR, *September* 24, 1854.

IN my letter of yesterday, No. 487, I reported the extraordinary change that had taken place in the position hitherto maintained by the enemy's fleet in the Harbour of Sebastopol, and I now beg you will acquaint the Lords Commissioners of the Admiralty, that the same afternoon, on the appearance of the Allied Fleets in sight of Sebastopol, the whole of the vessels moored across the harbour were sunk by the Russians, leaving their masts more or less above water, and I went last evening to the mouth of the harbour to assure myself of this singular event.

Captain Drummond has examined the harbour this morning, and reports that the lower mast heads of the ships are generally above water; that the passage is closed, except perhaps a small space near the shoal off the North Battery, and the double booms inside are thus rendered more secure.

Eight sail of the line are moored east and west, inside of the booms, and three of the ships are heeled over to give their guns more elevation to sweep over the land to the northward.

2. An intelligent seaman, a deserter, who escaped from Sebastopol on the 22nd, had partly prepared me for some extraordinary movement. He had informed me that the crews of the ships moored across the harbour (to one of which he had been attached) had been landed, with the exception of a very few in each ship; that the vessels were plugged ready for sinking; that the guns and stores were all on board; and that the other ships were moored under the south side to defend the harbour from attack from the northward. He reported that the Battle of Alma had greatly dispirited the Russians; that the troops had retreated on Sebastopol without a halt; that he believes the whole Russian force not to exceed 40,000. The man's statements were clear, and on points that came under his own observation were mostly corroborated, and I consider reliance may be placed on his information generally, considering the means his station in life afforded of enabling him to obtain it. At the request of Lord Raglan I have sent him on shore to act as a guide to the Army on their approach to the environs of Sebastopol.

3. The Allied Armies moved this afternoon to take up a position to the south of the port of Sebastopol, and the fleet will move so as to meet their arrival there.

I have, &c.,

J. W. D. DUNDAS,

Vice-Admiral.

To the Secretary of the Admiralty.

THE FRENCH DESPATCHES.

PARIS, *Saturday, Oct.* 7, 6 P. M.

"THE Emperor has received from Marshal St. Arnaud the following report of the Battle of the Alma. No one can read without emotion this simple recital of a great victory, where the General-in-Chief speaks of every one except himself. Nevertheless, the Government appreciates as they merit the energy and ability displayed by the Marshal under these circumstances. The Emperor has decided that a salute of 21 guns shall be fired to celebrate this victory:—

"Field of Battle of Alma, Sept. 21.

"SIRE,—The cannon of your Majesty has spoken; we have gained a complete victory. It is a glorious day, Sire, to add to the military annals of France, and your Majesty will have one name more to add to the victories which adorn the flags of the French Army.

"The Russians had yesterday assembled all their forces, and collected all their means, in order to oppose the passage of the Alma. Prince Menschikoff commanded in person. All the heights were crowned with redoubts and formidable batteries. The Russian Army reckoned 40,000 bayonets, from all points of the Crimea; in the morning there arrived from Theodosia ,000 cavalry and 180 pieces of heavy and field artillery. From the heights which they occupied, the Russians could count our men man by man from the 19th to the moment when we arrived on the Bubbanach. On the 20th, from 6 o'clock in the morning, I carried into operation, with the division of General Bosquet, reinforced by eight Turkish battalions, a movement which turned the left of the Russians and some of their batteries. General Bosquet manœuvred with as much intelligence as bravery. This movement decided the success of the day. I had arranged that the English should extend their left, in order at the same time to threaten the right of the Russians while I should occupy them in the centre, but their troops did not arrive in line until half-past 10. They bravely made up for this delay. At half-past 12 the line of the Allied Army, occupying an extent of more than a league, arrived on the Alma, and was received by a terrible fire from the Tirailleurs.

"In this movement the head of the column of General Bosquet appeared on the heights, and I gave the signal for a general attack. The Alma was crossed at double-quick time. Prince Napoleon, at the head of his division, took possession of the large village of Alma, under the fire of the Russian batteries. The Prince showed himself worthy of the great name he bears. We then arrived at the foot of the heights, under the fire of the Russian batteries. There, Sire, commenced a real Battle along all the line—a Battle with its episodes of brilliant feats of valour. Your Majesty may be proud of your soldiers; they have not degenerated; they are the soldiers of Austerlitz and of Jéna. At half-past 4 the French army was everywhere victorious. All the positions had been carried at the point of the bayonet to the cry of '*Vive l'Empereur*,' which resounded throughout the day. Never was such enthusiasm seen; even the wounded rose from the ground to join in it. On our left the English met with large masses of the enemy and with great difficulties, but everything was surmounted. The English attacked the Russian positions in admirable order under the fire of their cannon, carried them, and drove off the Russians. The bravery of Lord Raglan rivals that of antiquity. In the midst of cannon and musket shot he displayed a calmness which never left him. The French lines formed on the heights and the artillery opened its fire. Then it was no longer a retreat, but a rout; the Russians threw

away their muskets and knapsacks in order to run the faster. If, Sire, I had had cavalry, I should have obtained immense results, and Menschikoff would no longer have had an army; but it was late, our troops were harassed, and the ammunition of the artillery was exhausted. At 6 o'clock in the evening we encamped on the very bivouac of the Russians. My tent is on the very spot where that of Prince Menschikoff stood in the morning, and who thought himself so sure of beating us that he left his carriage there. I have taken possession of it, with his pocket-book and correspondence, and shall take advantage of the valuable information it contains. The Russian Army will probably be able to rally two leagues from this, and I shall find it to-morrow on the Katscha, but beaten and demoralized, while the allied army is full of ardour and enthusiasm. I have been compelled to remain here in order to send our wounded and those of the Russians to Constantinople, and to procure ammunition and provisions from the fleet. The English have had 1,500 men put *hors de combat*. The Duke of Cambridge is well; his division and that of Sir G. Brown were superb. I have to regret about 1,200 men *hors de combat*, 3 officers killed, 54 wounded, 253 sub-officers and soldiers killed, and 1,033 wounded. General Canrobert, to whom is due in part the honour of the day, was slightly wounded by the splinter of a shell which struck him in the breast and hand, but he is doing very well. General Thomas, of the division of the Prince, is seriously wounded by a ball in the abdomen. The Russians have lost about 5,000 men. The field of battle is covered with their dead, and our field hospitals are full of their wounded. We have counted a proportion of seven Russian dead bodies for one French. The Russian artillery caused us loss, but ours is very superior to theirs. I shall all my life regret not having had with me my two regiments of African Chasseurs. The Zouaves were the admiration of both armies; they are the first soldiers in the world,

"Accept, Sire, the homage of my profound respect and of my entire devotedness.

"MARSHAL A. DE ST. ARNAUD."

"ORDER OF THE DAY OF MARSHAL DE ST. ARNAUD.

"SOLDIERS,—France and the Emperor will be satisfied with you. At Alma you have proved to the Russians that you are the worthy descendants of the conquerors of Eylau and of the Moskowa. You have rivalled in courage your allies the English, and your bayonets have carried formidable and well-defended positions. Soldiers, you will again meet the Russians on your road, and you will conquer them as you have done to-day to the cry of '*Vive l'Empereur!*' and you will only stop at Sebastopol; it is there you will enjoy the repose which you will have well deserved.

"Field of Battle of Alma, Sept. 20."

"THE FRENCH CHARGE D'AFFAIRES AT CONSTANTINOPLE TO THE MINISTER OF FOREIGN AFFAIRS.

"Therapia, Sept. 27.

"Demoralized by the courage of the allied troops, the Russians, who have had 8,000 men killed on the Alma, neither stopped on the Katscha nor on the Belbeck, which were formidable positions. They have entered Sebastopol, the entrance of which they have blocked up by sinking three of their line-of-battle ships and two frigates. On the 25th the allied armies were in march to take up a position before the town. The English had 1,800 men put *hors de combat* at Alma. An aide-de-camp of Lord Raglan proceeds to Paris and London, the bearer of despatches from the Commanders-in-Chief."

NORTHERN LIGHT-HOUSES.

Notice to Mariners.

WHALSEY SKERRIES, SHETLAND—TEMPORARY LIGHT-HOUSE.

THE Commissioners of Northern Light-houses hereby give Notice that they are at present engaged in erecting a Light-house on the Out-Skerries of Whalsey, on the Eastern Coast of the Shetland Isles, and that until the completion of the permanent Light-house, a Light will be shown from a temporary Tower, and will be exhibited for the first time on the night of Friday the 15th September, and every night thereafter, from the going away of day-light in the evening, till the return of day-light in the morning.

The following is a Specification of the Light-house, and the Appearance of the Light, by MR DAVID STEVENSON, *Engineer to the Commissioners :—*

The Light-house is situated on the Eastern part of the Island of Gruna, in N. Lat. 60° 25′ 24″, and W Long. 0° 44′ 20″, the Bound Skerry of Whalsey bearing from the Light-house about E. by compass. The outer or seaward extremity of the Bound Skerry is about half a mile or thereby from the site of the Light-house, so that Vessels in rounding the Light must give it a wide berth

The Whalsey Light will be known to Mariners as a Revolving Light, which shows a bright White Light once in every minute.

The temporary Light will be exhibited from a Tower of Timber Frame Work, and is elevated about 108 feet above the level of high-water of ordinary spring-tides, and may be seen at the distance of about 16 nautic miles, and at lesser distances according to the state of the atmosphere. To a near observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness.

The Commissioners further give notice, that by Order in Council, dated the 3rd day of July last, the following Tolls are authorized to be levied in respect of the said Light-house, *viz* :—

For every Vessel belonging to the United Kingdom (the same not belonging to Her Majesty, her heirs or successors, nor being navigated wholly in ballast,) and for every Foreign Vessel privileged to enter the Ports of the United Kingdom upon paying the same Duties of Tonnage as are payable by British Vessels which may pass or derive benefit from the Light, the Toll of Two-Sixteenths of a Penny per Ton of the burthen of every such Vessel for every time of passing or deriving benefit therefrom, if on a Coasting Voyage.

For each time of passing or deriving benefit on an Oversea Voyage, One Penny per Ton for every such Vessel.

For every Foreign Vessel not navigated wholly in ballast, and not privileged in manner before specified, double the respective Tolls above set forth.

Which Tolls are liable to the following abatements on payment :—for a Coasting Voyage, Ten per cent; for an Oversea Voyage, Twenty-five per cent.

General Orders by the Most Noble the Governor General of India in Council.

Fort William, 17th November 1854.

No. 1150 *of* 1854.—The Hon'ble the Court of Directors having transmitted to the Government of India further explanatory instructions regarding the Furlough Regulations published in Government General Order, No. 110, of the 1st of February 1854, the Most Noble the Governor General in Council is pleased to cancel that General Order, and to promulgate in a connected form the Rules which have been laid down by the Hon'ble Court for regulating Furloughs and Leaves of Absence.

With the view of adapting the Regulations to the present increased facilities of communication, and to correct, as far as possible, any tendency in them, to deter Officers from resorting to the places which may be most conducive to the restoration of their health, when a change of climate is required for that purpose, the following Rules are established, and are to have effect from the 1st February 1854:—

1. All Regimental Officers in the Service on the 1st February 1854, who prefer retaining what may be considered the advantages of the old Regulations, may do so, provided they signify their wish to that effect when they next apply for Furlough or leave of absence, without any limitation whether such leave be in India or elsewhere; and Officers who once make their election will not be entitled to any other choice, but will be afterwards subject to the new or old Regulations according to their decisions.

2. Staff Officers, as such, have not the above option allowed them, but they may retain the advantages of the old Regulations by giving up their appointments, which, in such cases, will be considered vacated from the date of embarkation.

3. To those Officers who adopt them, the new Regulations will apply retrospectively in respect of Furlough and leave of absence beyond sea, and in computing their time of service for retirement, so that their Furloughs or leaves of absence, whether under the old or the new Rules, and whether on private affairs or sick certificate within or beyond India, will count for service to the authorized extent only, in computing the time for retirement on full pay.

4. Officers who have availed themselves of the option of the old Rules, are allowed to re-consider the question under the modifications now sanctioned.

5 Officers who have not taken leave subsequent to the publication of the new Rules on the 1st February 1854, and who consequently may not have been called upon to declare whether they would abide by the old or the new Regulations, will, on retirement from the Service, be entitled to take full advantage of the privileges given by the new Regulations.

Furloughs on Private Affairs.

6 Every Officer will be allowed a Furlough to Europe, or elsewhere, beyond sea, for a period of two years at the expiration of ten years' service, and for a second period of two years after twenty years' service in India.

7 The second Furlough of two years will only be granted after ten years' service in India from the date of the return to duty after the first Furlough of two years. These Furloughs are not to be cumulative, under any circumstances, but are limited to two years Officers who have taken leave of absence on sick certificate to Europe or elsewhere beyond sea, will be ineligible to a Furlough on private affairs until they have served six years from their last return to duty. This Rule does not apply to short leaves to sea.

8. All grants of Furlough on private affairs are subject to the exigencies of the Public Service, and to the Regulations framed for the preservation of the efficiency of each Regiment by limiting the number of absentees.

9. Officers holding Staff or other detached appointments may be allowed Furlough for a period of six months without losing their appointments; but, during that period, they will not be entitled to any portion of their Staff Salary, which will be drawn in full by the Officers officiating for them.

10. All Officers, whether Staff or Regimental, while on Furlough on private affairs, will be entitled to "Furlough pay" only.

Leave of Absence on Sick Certificate.

11. Leave of Absence on sick certificate will be granted for a term not exceeding eighteen months, whether it be to any place in Europe or elsewhere out of India.

12. Extensions of such leave may be granted, as at present, on production of Medical certificates, for further periods not exceeding eighteen months in the whole.

13. An Officer holding a Staff or other detached appointment will be allowed to be absent on sick certificate in England or elsewhere, beyond sea, for a period of fifteen months, without losing his appointment; and, during the first six months only of such absence, he will be entitled to draw half the Staff Salary of his appointment, the Officer officiating for him drawing the remaining half salary during the first six months, and the whole salary during the remainder of the time.

14. An Officer's claim to half Staff Salary for six months, as sanctioned in the preceding Rule, will not be affected by his subsequently retiring from the Service in Europe or elsewhere.

15. No portion of Command Allowance, Medical Staff Salary or other similar allowance, which under the old Rules was inadmissible to Officers absent from their Corps or Stations at the Cape or elsewhere, will be allowed to absent Officers under these Regulations.

16. All Officers, whether Staff or Regimental, while on leave of absence on sick certificate, will be entitled for a period of six months to the same rate of Indian Pay and Allowances as was allowed under the old Regulations to Officers proceeding to the Cape on Medical certificate, and for the remaining period of their leave they will receive Furlough pay only.

17. If the leave on sick certificate be extended, Furlough pay will be continued, but under no circumstances for a longer period than three years altogether from the commencement of the absence.

Staff Officers.

18. The term Staff Officer applies to all Officers holding Staff or detached appointments, Military, (General or Regimental,) Political or Civil; also to General Officers commanding Divisions, Members of the Medical Board, Superintending Surgeons, and others who, under the old Rules, were entitled to draw half Staff allowance when absent at the Cape.

19. Staff Officers, absent on leave beyond the periods stated in Rules 9 and 13 respectively, can-

not retain their appointments and allowances except on special grounds, to be sanctioned by the Government of the Presidency Any such special grant of leave is to be reported at once to the Hon'ble the Court of Directors. with the reasons for it, and to be subject to their approbation.

20. The privilege of retaining Staff appointments during leave of absence on sick certificate, or on Furlough on private affairs, will not be available a second time, if the fresh leave is on sick certificate, until an Officer has been three years, or if on private affairs, until he has been six years in the discharge of the duties of his appointment, from the date of last return to it.

21. This Rule, however, does not apply to leaves of absence, whether on sick certificate or on private affairs in India, or for brief periods to Ceylon, the Mauritius, or other places out of India.

22 Officers commanding Troops of Horse Artillery and Light Field Batteries, and Officers generally in employment, will be allowed leave out of India under the same Rules with respect to allowances and tenure of Command or Office as regulated the grant of leave to the Cape to such Officers under the old Regulations, except as to the duration of those advantages, the time for their continuance being subject to the provisions of the new Regulations.

Date of Furlough and Advances of Pay.

23. The period of Furlough on private affairs, or leave of absence on sick certificate, is to be calculated from the date of the departure from India of the ship in which the Officer proceeds.

24. Advances of Pay and Allowances, Staff and Regimental, to Officers proceeding on leave of absence on sick certificate, who may be entitled to them, will be made in India for three months from date of embarkation. Payments in continuation will be made in England at the rates of exchange fixed annually for re-payment of advances made on account of Her Majesty's Government Furlough pay will continue to be issued in advance for six months when required by Officers obtaining Furlough on private affairs

25. The existing Regulations regarding Passage Money to Officers are not affected by these Rules.

26. The certificates issued to Officers who are granted Furloughs on private affairs, or leave of absence on sick certificate, are to specify the time each Officer has been absent on leave within Indian limits, as well as the time of his previous absence in Europe; but will not include the periods allowed for proceeding to the Presidency or port of embarkation, and to enable Officers to rejoin their Regiments or Stations, after their return to India, nor the leave of one month's absence in six months as authorized by the Regulations. The last pay certificate of all Officers proceeding to England on sick certificate is to specify the rate of Regimental pay and allowances and Staff salary to which they would have been entitled under the old Regulations if proceeding to sea on Medical Certificate. This information is necessary in order that no difficulty may arise in the Pay Department of the India House in adjusting the several payments which may be due.

Officers of H. M.'s Service.

27. Officers of Her Majesty's Service in India, whether employed Regimentally or in Staff or detached situations, are entitled to the advantages above laid down in respect to allowances and tenure of office when on Furlough or leave of absence.

28. In the case of Officers of her Majesty's Service on Furlough or Sick Certificate in England or elsewhere, who may retire or exchange into Regiments not on the Indian establishment, the grant to these Officers of Indian allowances will cease from the date of their retirement or exchange, if it take place before the expiration of six months from the date of quitting India.

Periods of absence allowed to be counted as Service for Retiring Pensions.

29. In order that all Officers quitting India on Furlough, or Sick Certificate, may be placed on an exact equality as regards loss of time, the period allowed by Regulation for proceeding to the Presidency or to the nearest port of embarkation, as well as the time to enable Officers to rejoin their corps or station after their return to India, will be considered as time counting for service for the Retiring Pension.

30. No Furlough or leave of absence, as announced in General Orders, exceeding two years in twenty years' aggregate service, three years in twenty-five years' service, and four years in thirty years' service, shall be allowed to count as service for the Retiring Pension; and no difference will be made in this respect between leave of absence taken in Europe or elsewhere, in or out of India, or whether the leave be on sick certificate or on private affairs.

31. In the term "Leave of Absence as announced in General Orders" is to be included all leave of absence except the period allowed in Rule 29, and the ordinary indulgence of one month's leave in six months, as authorized by the existing Regulations, and which are in all cases, whether of Regimental or Staff Officers, to be allowed to count as service for the pension All leave to a greater extent, granted by Political and other authorities, which may not hitherto have been published in General Orders, must be so announced hereafter.

32. Officers to be entitled to retire on the full pay of their Regimental Rank (under the Regulation of 1796,) must have served twenty-two years in India, out of which leaves of absence for two years in the aggregate, and not more, will be allowed to count as service for the Retiring Pension.

33. Officers to be entitled to retire on the full pay of Captains and Majors (under the Regulations of 1835-7,) must have served twenty and twenty-four years respectively, out of which time leaves of absence for two years in the aggregate, and not more, will be allowed to count as service.

34 Officers to be entitled to retire as Lieutenant-Colonels must have served twenty-eight years, out of which leaves of absence for three years in the aggregate, and not more, will be allowed to count as service.

35. Officers to be entitled to retire as Colonels, must have served thirty-two years, out of which leaves of absence for four years in the aggregate, and not more, will be allowed to count as service.

36. The scale, for Medical Officers and Veterinary Surgeons, of privileged Furlough and leave of absence, as counting for the Retiring Pension, will be as follows:—

Years.	Months.	
1	8	in 17 and under 20 years' service.
2	0	in 20 „ „ 25 „ „
3	0	in 25 „ „ 30 „ „
4	0	in 30 and upwards.

37. It is to be distinctly understood, that under no circumstances whatever will an Officer be permitted to retire on full pay, until he has completed the *full time of service* above specified, whether he be in England at the close of his service or elsewhere.

38. The privileged time of absence may, with the permission of the local Government, be taken at any time subject to these Regulations. If therefore, at the end of twenty years' service, of which eighteen had been passed on actual duty in India, an Officer should be on Furlough, or Sick Certificate in Europe, or elsewhere, he will be entitled to retire on the full pay of a Captain without returning to India, and so in the other terms of service for the higher pensions. In like manner a Medical Officer on Furlough, or Sick Certificate in Europe, or elsewhere, at the end of seventeen years' service, fifteen years and four months of which had been passed on actual duty in India, will be entitled to retire on the lowest rate pension, without returning to India, and so in the other terms of service for the higher pension.

39 These Rules do not in any way affect the existing Regulations regarding the grant of leave in India, or for short periods to sea, whether on private affairs or on sick certificate, except as to the periods of such absence being taken into calculation in the time allowed to count as service for retirement on full pay.

NORTHERN LIGHT-HOUSES.

Notice to Mariners.

WHALSEY SKERRIES, SHETLAND—TEMPORARY LIGHT-HOUSE.

The Commissioners of Northern Light-houses hereby give Notice that they are at present engaged in erecting a Light-house on the Out-Skerries of Whalsey, on the Eastern Coast of the

Shetland Isles, and that until the completion of the permanent Light-house, a Light will be shown from a temporary Tower, and will be exhibited for the first time on the night of Friday the 15th September, and every night thereafter, from the going away of day-light in the evening, till the return of day-light in the morning.

The following is a Specification of the Light-house, and the Appearance of the Light, by MR. DAVID STEVENSON, *Engineer to the Commissioners :—*

The Light-house is situated on the Eastern part of the Island of Gruna, in N. Lat. 60° 25′ 24″, and W. Long. 0° 44′ 20″, the Bound Skerry of Whalsey bearing from the Light-house about E. by compass. The outer or seaward extremity of the Bound Skerry is about half a mile or thereby from the site of the Light-house, so that Vessels in rounding the Light must give it a wide berth.

The Whalsey Light will be known to Mariners as a Revolving Light, which shows a bright White Light once in every minute.

The temporary Light will be exhibited from a Tower of Timber Frame Work, and is elevated about 108 feet above the level of high-water of ordinary spring-tides, and may be seen at the distance of about 16 nautic miles, and at lesser distances according to the state of the atmosphere. To a near observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness.

The Commissioners further give notice, that by Order in Council, dated the 3rd day of July last, the following Tolls are authorized to be levied in respect of the said Light-house, *viz* :—

For every Vessel belonging to the United Kingdom (the same not belonging to Her Majesty, her heirs or successors, nor being navigated wholly in ballast,) and for every Foreign Vessel privileged to enter the Ports of the United Kingdom upon paying the same Duties of Tonnage as are payable by British Vessels which may pass or derive benefit from the Light, the Toll of Two-Sixteenths of a Penny per Ton of the burthen of every such Vessel for every time of passing or deriving benefit therefrom, if on a Coasting Voyage.

For each time of passing or deriving benefit on an Oversea Voyage, One Penny per Ton for every such Vessel.

For every Foreign Vessel not navigated wholly in ballast, and not privileged in manner before specified, double the respective Tolls above set forth.

Which Tolls are liable to the following abatements on payment :—for a Coasting Voyage, Ten per cent; for an Oversea Voyage, Twenty-five per cent.

NORTHERN LIGHT-HOUSES.

Notice to Mariners.

WHALSEY SKERRIES, SHETLAND—TEMPORARY LIGHT-HOUSE.

THE Commissioners of Northern Light-houses hereby give Notice that they are at present engaged in erecting a Light-house on the Out-Skerries of Whalsey, on the Eastern Coast of the Shetland Isles, and that until the completion of the permanent Light-house, a Light will be shown from a temporary Tower, and will be exhibited for the first time on the night of Friday the 15th September, and every night thereafter, from the going away of day-light in the evening, till the return of day-light in the morning.

The following is a Specification of the Light-house, and the Appearance of the Light, by MR DAVID STEVENSON, *Engineer to the Commissioners:—*

The Light-house is situated on the Eastern part of the Island of Gruna, in N. Lat. 60° 25′ 24″, and W. Long. 0° 44′ 20″, the Bound Skerry of Whalsey bearing from the Light-house about E. by compass. The outer or seaward extremity of the Bound Skerry is about half a mile or thereby from the site of the Light-house, so that Vessels in rounding the Light must give it a wide berth.

The Whalsey Light will be known to Mariners as a Revolving Light, which shows a bright White Light once in every minute.

The temporary Light will be exhibited from a Tower of Timber Frame Work, and is elevated about 108 feet above the level of high-water of ordinary spring-tides, and may be seen at the distance of about 16 nautic miles, and at lesser distances according to the state of the atmosphere. To a near observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness.

The Commissioners further give notice, that by Order in Council, dated the 3rd day of July last, the following Tolls are authorized to be levied in respect of the said Light-house, *viz*:—

For every Vessel belonging to the United Kingdom (the same not belonging to Her Majesty, her heirs or successors, nor being navigated wholly in ballast,) and for every Foreign Vessel privileged to enter the Ports of the United Kingdom upon paying the same Duties of Tonnage as are payable by British Vessels which may pass or derive benefit from the Light, the Toll of Two-Sixteenths of a Penny per Ton of the burthen of every such Vessel for every time of passing or deriving benefit therefrom, if on a Coasting Voyage.

For each time of passing or deriving benefit on an Oversea Voyage, One Penny per Ton for every such Vessel.

For every Foreign Vessel not navigated wholly in ballast, and not privileged in manner before specified, double the respective Tolls above set forth.

Which Tolls are liable to the following abatements on payment:—for a Coasting Voyage, Ten per cent; for an Oversea Voyage, Twenty-five per cent.

By Order of the Board,

NORTHERN LIGHT-HOUSES.

Notice to Mariners.

WHALSEY SKERRIES, SHETLAND—TEMPORARY LIGHT-HOUSE.

THE Commissioners of Northern Light-houses hereby give Notice that they are at present engaged in erecting a Light-house on the Out-Skerries of Whalsey, on the Eastern Coast of the Shetland Isles, and that until the completion of the permanent Light-house, a Light will be shown from a temporary Tower, and will be exhibited for the first time on the night of Friday the 15th September, and every night thereafter, from the going away of day-light in the evening, till the return of day-light in the morning.

The following is a Specification of the Light-house, and the Appearance of the Light, by MR. DAVID STEVENSON, *Engineer to the Commissioners :—*

The Light-house is situated on the Eastern part of the Island of Gruna, in N. Lat. 60° 25′ 24″, and W. Long. 0° 14′ 20″, the Bound Skerry of Whalsey bearing from the Light-house about E. by compass. The outer or seaward extremity of the Bound Skerry is about half a mile or thereby from the site of the Light-house, so that Vessels in rounding the Light must give it a wide berth.

The Whalsey Light will be known to Mariners as a Revolving Light, which shows a bright White Light once in every minute.

The temporary Light will be exhibited from a Tower of Timber Frame Work, and is elevated about 108 feet above the level of high-water of ordinary spring-tides, and may be seen at the distance of about 16 nautic miles, and at lesser distances according to the state of the atmosphere. To a near observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness.

The Commissioners further give notice, that by Order in Council, dated the 3rd day of July last, the following Tolls are authorized to be levied in respect of the said Light-house, *viz* :—

For every Vessel belonging to the United Kingdom (the same not belonging to Her Majesty, her heirs or successors, nor being navigated wholly in ballast,) and for every Foreign Vessel privileged to enter the Ports of the United Kingdom upon paying the same Duties of Tonnage as are payable by British Vessels which may pass or derive benefit from the Light, the Toll of Two-Sixteenths of a Penny per Ton of the burthen of every such Vessel for every time of passing or deriving benefit therefrom, if on a Coasting Voyage.

For each time of passing or deriving benefit on an Oversea Voyage, One Penny per Ton for every such Vessel.

For every Foreign Vessel not navigated wholly in ballast, and not privileged in manner before specified, double the respective Tolls above set forth.

Which Tolls are liable to the following abatements on payment :—for a Coasting Voyage, Ten

per cent; for an Oversea Voyage, Twenty-five per cent.

By Order of the Board,

(Signed) ALEX. CUNINGHAM, *Secy.*

Is hereby given, that after the first of January next, the privilege of sending goods by Government Steamers, free of charge, to Officers in the Public Service in the Arracan, Pegu and Tenasserim Provinces, will be discontinued.

When there is spare tonnage in the Government Steamers, freight will be charged at the rate of 50 Rupees per ton for measurement goods, and 40 Rupees for dead weight.

As no promise can be given that private goods, except parcels, not exceeding one foot cubical contents, will be sent by particular Vessels, as all the tonnage may up to, the last day, before the Vessel's departure, be required for Government Stores, parties requiring tonnage by the first Government Steamer available, may deposit their goods in the Government Boat Office, and on paying the freight, a receipt will be granted both for the goods and the amount paid.

Private goods, when sent to the Boat Office, will be numbered and registered in the order of their receipt, that the first received may be first sent. Should goods lodged at the Boat Office not be forwarded within a month after a receipt has been given for them, the parties will have the option of receiving them back with refund of the freight.

No package, however small, will be taken for less than two rupees.

NORTHERN LIGHT-HOUSES.

Notice to Mariners.

WHALSEY SKERRIES, SHETLAND— TEMPORARY LIGHT-HOUSE.

THE Commissioners of Northern Light-houses hereby give Notice that they are at present engaged in erecting a Light-house on the Out-Skerries of Whalsey, on the Eastern Coast of the Shetland Isles, and that until the completion of the permanent Light-house, a Light will be shown from a temporary Tower, and will be exhibited for the first time on the night of Friday the 15th September, and every night thereafter, from the going away of day-light in the evening, till the return of day-light in the morning.

The following is a Specification of the Light-house, and the Appearance of the Light, by MR. DAVID STEVENSON, *Engineer to the Commissioners :—*

The Light-house is situated on the Eastern part of the Island of Gruna, in N. Lat. 60° 25′ 24″, and W. Long. 0° 44′ 20″, the Bound Skerry of Whalsey bearing from the Light-house about E. by compass. The outer or seaward extremity of the Bound Skerry is about half a mile or thereby from the site of the Light-house, so that Vessels in rounding the Light must give it a wide berth.

The Whalsey Light will be known to Mariners as a Revolving Light, which shows a bright White Light once in every minute.

The temporary Light will be exhibited from a Tower of Timber Frame Work, and is elevated about 108 feet above the level of high-water of ordinary spring-tides, and may be seen at the distance of about 16 nautic miles, and at lesser distances according to the state of the atmosphere. To a near observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness.

The Commissioners further give notice, that by Order in Council, dated the 3rd day of July last, the following Tolls are authorized to be levied in respect of the said Light-house, *viz* :—

For every Vessel belonging to the United Kingdom (the same not belonging to Her Majesty, her heirs or successors, nor being navigated wholly in ballast,) and for every Foreign Vessel privileged to enter the Ports of the United Kingdom upon paying the same Duties of Tonnage as are payable by British Vessels which may pass or derive benefit from the Light, the Toll of Two-Sixteenths of a Penny per Ton of the burthen of every such Vessel for every time of passing or deriving benefit therefrom, if on a Coasting Voyage.

For each time of passing or deriving benefit on an Oversea Voyage, One Penny per Ton for every such Vessel.

For every Foreign Vessel not navigated wholly in ballast, and not privileged in manner before specified, double the respective Tolls above set forth.

Which Tolls are liable to the following abatements on payment:—for a Coasting Voyage, Ten per cent; for an Oversea Voyage, Twenty-five per cent.

By Order of the Board,

(Signed) ALEX. CUNINGHAM, *Secy.*

THE following Act, passed by the Legislative Council, received the assent of the Most Noble the Governor General of India on the 2nd of December 1854, and is hereby promulgated for general information :—

ACT NO. XXX. OF 1854.

An Act to provide for the levy of Duties of Customs in the Arracan, Pegu, Martaban, and Tenasserim Provinces.

Preamble.

WHEREAS it is expedient that the Arracan, Pegu, Martaban, and Tenasserim Provinces should be placed, as nearly as possible, in the same position with the Provinces of Bengal and Orissa, in respect to the levy of Duties of Sea Customs; that duties of River Customs should be levied on the Northern Frontier of Pegu; that the floating down of Teak Timber, and the duties payable thereon, in certain of these Provinces, should be regulated by law; and that the exportation of munitions of war from any of these Provinces into Foreign States should be prohibited; It is enacted as follows :—

Acts repealed.

I. So much of Act VII. of 1848 as excepts the Ports of Arracan and Tenasserim from the operation of Section III. Act VI. of 1848; and so much of Sections XVIII. XIX., and XXXV. of Act I. of 1852 as relates to the said Ports, are repealed.

Duty on Imports by Sea.

II. With the exceptions mentioned in Section III. of this Act, all goods imported by Sea into any part of the Arracan, Pegu, Martaban, and Tenasserim Provinces, from any Port not subject to the Government of the East India Company, or from the Port of Aden, or from any Port in the Straits of Malacca, shall be charged with the same rates of duty as those which are or shall be charged on goods of the same description imported from the same Ports into the Provinces of Bengal or Orissa.

Special Duty on Salt imported by Sea.

III. Opium imported by Sea into any part of the said Provinces shall be charged duty at the rate of twenty-four Rupees a seer, excepting Opium purchased at a Government Sale in Calcutta, which shall be free: provided that no Opium of any description shall be landed in the Provinces aforesaid without a pass from the Collector of Customs at the Port of landing, in default of which such Opium shall be seized and confiscated.

All goods, except Teak Timber, exported by Sea from any part of the Arracan, Pegu, Martaban, and Tenasserim Provinces, to any Port not subject to the Government of the East India Company, or to the Port of Aden, or to any Port in the Straits of Malacca, shall be charged with the same rates of duty as those which are or shall

be charged upon goods of the same description exported to the same Ports from the Provinces of Bengal and Orissa. Provided that when goods, which have paid River Frontier import duty under Section VI. of this Act, are exported by Sea, under a certificate of the Collector of River Frontier Customs passed by the Collector of Sea Customs, the amount of River Frontier import Duty so paid, shall be accepted in full payment of the Sea Export Duty chargeable under this Section.

V. All the laws and rules relating to the levy of duties of Customs, which are or shall be in force in the Provinces of Bengal and Orissa, shall apply to the levy of duties of Sea Customs in the Arracan, Pegu, Martaban, and Tenasserim Provinces: provided that the powers which, in the Provinces of Bengal and Orissa, are or shall be vested in the Governor or Lieutenant-Governor of Bengal, shall be vested, in respect of Pegu, Martaban, and Tenasserim, in the Governor General of India in Council, and that the powers, which, in the Provinces of Bengal and Orissa, are or shall be vested in the Board of Revenue, shall, in respect of Pegu and Martaban, be vested in the Commissioners of those Provinces respectively.

Rules for Teak floated.

VIII. It shall be lawful for the Governor General of India in Council, in respect of the Pegu, Martaban, and Tenasserim Provinces, to promulgate such rules for the time and manner of the floating of Teak Timber within the said Provinces respectively, as may to him seem fit; and to prescribe what descriptions of Teak Timber may lawfully be floated, and what descriptions of Teak Timber may not lawfully be floated, within the said Provinces respectively. And all Teak Timber found floating contrary to such rules or orders, shall be confiscated.

NORTHERN LIGHT-HOUSES.

Notice to Mariners.

WHALSEY SKERRIES, SHETLAND—TEMPORARY LIGHT-HOUSE.

THE Commissioners of Northern Light-houses hereby give Notice that they are at present engaged in erecting a Light-house on the Out-Skerries of Whalsey, on the Eastern Coast of the Shetland Isles, and that until the completion of the permanent Light-house, a Light will be shown from a temporary Tower, and will be exhibited for the first time on the night of Friday the 15th September, and every night thereafter, from the going away of day-light in the evening, till the return of day-light in the morning.

The following is a Specification of the Light-house, and the Appearance of the Light, by MR. DAVID STEVENSON, *Engineer to the Commissioners :—*

The Light-house is situated on the Eastern part of the Island of Gruna, in N. Lat. 60° 25′ 24″, and W. Long. 0° 44′ 20″, the Bound Skerry of Whalsey bearing from the Light-house about E. by compass. The outer or seaward extremity of the Bound Skerry is about half a mile or thereby from the site of the Light-house, so that Vessels in rounding the Light must give it a wide berth.

The Whalsey Light will be known to Mariners as a Revolving Light, which shows a bright White Light once in every minute.

The temporary Light will be exhibited from a Tower of Timber Frame Work, and is elevated about 108 feet above the level of high-water of ordinary spring-tides, and may be seen at the distance of about 16 nautic miles, and at lesser distances according to the state of the atmosphere. To a near observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness.

The Commissioners further give notice, that by Order in Council, dated the 3rd day of July last, the following Tolls are authorized to be levied in respect of the said Light-house, *viz.*:—

For every Vessel belonging to the United Kingdom (the same not belonging to Her Majesty, her heirs or successors, nor being navigated wholly in ballast,) and for every Foreign Vessel privileged to enter the Ports of the United Kingdom upon paying the same Duties of Tonnage as are payable by British Vessels which may pass or derive benefit from the Light, the Toll of Two-Sixteenths of a Penny per Ton of the burthen of every such Vessel for every time of passing or deriving benefit therefrom, if on a Coasting Voyage.

For each time of passing or deriving benefit on an Oversea Voyage, One Penny per Ton for every such Vessel.

For every Foreign Vessel not navigated wholly in ballast, and not privileged in manner before specified, double the respective Tolls above set forth.

Which Tolls are liable to the following abatements on payment:—for a Coasting Voyage, Ten per cent; for an Oversea Voyage, Twenty-five per cent.

By Order of the Board,

NORTHERN LIGHT-HOUSES.

Notice to Mariners.

WHALSEY SKERRIES, SHETLAND—TEMPORARY LIGHT-HOUSE.

THE Commissioners of Northern Light-houses hereby give Notice that they are at present engaged in erecting a Light-house on the Out-Skerries of Whalsey, on the Eastern Coast of the Shetland Isles, and that until the completion of the permanent Light-house, a Light will be shown from a temporary Tower, and will be exhibited for the first time on the night of Friday the 15th September, and every night thereafter, from the going away of day-light in the evening, till the return of day-light in the morning.

The following is a Specification of the Light-house, and the Appearance of the Light, by MR. DAVID STEVENSON, *Engineer to the Commissioners:*—

The Light-house is situated on the Eastern part of the Island of Gruna, in N. Lat. 60° 25′ 24″, and W. Long. 0° 44′ 20″, the Bound Skerry of Whalsey bearing from the Light-house about E. by compass. The outer or seaward extremity of the Bound Skerry is about half a mile or thereby from the site of the Light-house, so that Vessels in rounding the Light must give it a wide berth.

The Whalsey Light will be known to Mariners as a Revolving Light, which shows a bright White Light once in every minute.

The temporary Light will be exhibited from a Tower of Timber Frame Work, and is elevated about 108 feet above the level of high-water of ordinary spring-tides, and may be seen at the distance of about 16 nautic miles, and at lesser distances according to the state of the atmosphere. To a near observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness.

The Commissioners further give notice, that by Order in Council, dated the 3rd day of July last, the following Tolls are authorized to be levied in respect of the said Light-house, *viz*:—

For every Vessel belonging to the United Kingdom (the same not belonging to Her Majesty, her heirs or successors, nor being navigated wholly in ballast,) and for every Foreign Vessel privileged to enter the Ports of the United Kingdom upon paying the same Duties of Tonnage as are payable by British Vessels which may pass or derive benefit from the Light, the Toll of Two-Sixteenths of a Penny per Ton of the burthen of every such Vessel for every time of passing or deriving benefit therefrom, if on a Coasting Voyage.

For each time of passing or deriving benefit on an Oversea Voyage, One Penny per Ton for every such Vessel.

The 2nd December 1854

THE following Act, passed by the Legislative Council, received the assent of the Most Noble the Governor General of India on the 2nd of December 1854, and is hereby promulgated for general information:—

ACT No XXX. OF 1854.

An Act to provide for the levy of Duties of Customs in the Arracan, Pegu, Martaban, and Tenasserim Provinces.

Preamble.

WHEREAS it is expedient that the Arracan, Pegu, Martaban, and Tenasserim Provinces should be placed, as nearly as possible, in the same position with the Provinces of Bengal and Orissa, in respect to the levy of Duties of Sea Customs; that duties of River Customs should be levied on the Northern Frontier of Pegu; that the floating down of Teak Timber, and the duties payable thereon, in certain of these Provinces, should be regulated by law, and that the exportation of munitions of war from any of these Provinces into Foreign States should be prohibited; It is enacted as follows:—

Acts repealed.

I. So much of Act VII. of 1848 as excepts the Ports of Arracan and Tenasserim from the operation of Section III. Act VI. of 1848; and so much of Sections XVIII. XIX. and XXXV. of Act I. of 1852 as relates to the said Ports, are repealed.

Duty on Imports by Sea.

II. With the exceptions mentioned in Section III. of this Act, all goods imported by Sea into any part of the Arracan, Pegu, Martaban, and Tenasserim Provinces, from any Port not subject to the Government of the East India Company, or from the Port of Aden, or from any Port in the Straits of Malacca, shall be charged with the same rates of duty as those which are or shall be charged on goods of the same description imported from the same Ports into the Provinces of Bengal or Orissa.

Special Duty on Salt imported by Sea.

III. Opium imported by Sea into any part of the said Provinces shall be charged duty at the rate of twenty-four Rupees a seer, excepting Opium purchased at a Government Sale in Calcutta, which shall be free: provided that no Opium of any description shall be landed in the Provinces aforesaid without a pass from the Collector of Customs at the Port of landing, in default of which such Opium shall be seized and confiscated.

All goods, except Teak Timber, exported by Sea from any part of the Arracan, Pegu, Martaban, and Tenasserim Provinces, to any Port not subject to the Government of the East India Company, or to the Port of Aden, or to any Port in the Straits of Malacca, shall be charged with the same rates of duty as those which are or shall

be charged upon goods of the same description exported to the same Ports from the Provinces of Bengal and Orissa. Provided that when goods, which have paid River Frontier import duty under Section VI. of this Act, are exported by Sea, under a certificate of the Collector of River Frontier Customs passed by the Collector of Sea Customs, the amount of River Frontier import Duty so paid, shall be accepted in full payment of the Sea Export Duty chargeable under this Section.

Rules for Teak floated.

VIII. It shall be lawful for the Governor General of India in Council, in respect of the Pegu, Martaban, and Tenasserim Provinces, to promulgate such rules for the time and manner of the floating of Teak Timber within the said Provinces respectively, as may to him seem fit; and to prescribe what descriptions of Teak Timber may lawfully be floated, and what descriptions of Teak Timber may not lawfully be floated, within the said Provinces respectively. And all Teak Timber found floating contrary to such rules or orders, shall be confiscated.

River Frontier Duty on Exports.

IX. Goods of the descriptions specified in the Schedule annexed to this Act, exported beyond the northern frontier of Pegu by the river Irrawaddy, or the river Sitang, shall be charged export duty on passing the Frontier Custom House on the Irrawaddy, or the Frontier Custom House on the Sitang, according to the rates fixed in the said Schedule; and the said Schedule shall be taken to be a part of this Act.

16*th* The Public are hereby informed, that in providing the Investment of the Behar and Benares Opium, for the year 1853-54, the same precautions have been taken as those which have been observed during past years to have the Drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the Drug, when packed at Behar and Benares, and a Statement of the average weight of the Chests, indiscriminately taken, for the purpose of comparison, from the despatches, on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue ; and further, that four Chests of Behar and Benares Opium, which have been reserved from the Provision of the two preceding years, will be also shown to the Purchasers at the Exchange Rooms on the day of Sale, to enable them to judge of the state of preservation in which the Drug has kept.

17*th*. Any further information, respecting weight or quality of the Opium advertized for Sale, that may be desired by parties connected with the Trade, will, as heretofore, be furnished to them on application at the Office of the Board of Revenue, but in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the Drug which may be preferred on reference to Chests, after the Sale and delivery of the Opium for shipment.

If the Agents of the French Government shall not make the requisition for Opium within the time above-mentioned, the entire quantity of about 53,319 Chests of Behar and Benares, as above estimated, will be brought to Sale in the usual manner, and if they shall make application for a quantity of Opium to be delivered to them out of the quantity advertized for Sale at each or any of the Twelve Sales abovementioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the Sale next ensuing the date of payment, or by selling it at a Sale to be held expressly for the purpose :—

Article of the Convention above referred to.

"*Article 6th.* With regard to the Trade in Opium, it is agreed between the high contracting parties, that at each of the periodical Sales of that article, there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of Chests so applied for, provided that such supply shall not exceed Three Hundred Chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical Sale, it being understood that, if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much on reduction of the Three Hundred Chests hereinbefore mentioned. The requisitions for Opium as aforesaid are to be addressed to the Governor General at Calcutta, within thirty days after notice of the intended Sales shall have been published in the *Government Gazette.*"

NORTHERN LIGHT-HOUSES.

Notice to Mariners.

WHALSEY SKERRIES, SHETLAND—TEMPORARY LIGHT-HOUSE.

THE Commissioners of Northern Light-houses hereby give Notice that they are at present engaged in erecting a Light-house on the Out-Skerries of Whalsey, on the Eastern Coast of the

* By Creeks.

Shetland Isles, and that until the completion of the permanent Light-house, a Light will be shown from a temporary Tower, and will be exhibited for the first time on the night of Friday the 15th September, and every night thereafter, from the going away of day-light in the evening, till the return of day-light in the morning.

The following is a Specification of the Light-house, and the Appearance of the Light, by MR. DAVID STEVENSON, *Engineer to the Commissioners :—*

The Light-house is situated on the Eastern part of the Island of Gruna, in N. Lat. 60° 25′ 24″. and W. Long. 0° 44′ 20″, the Bound Skerry of Whalsey bearing from the Light-house about E. by compass. The outer or seaward extremity of the Bound Skerry is about half a mile or thereby from the site of the Light-house, so that Vessels in rounding the Light must give it a wide berth.

The Whalsey Light will be known to Mariners as a Revolving Light, which shows a bright White Light once in every minute.

The temporary Light will be exhibited from a Tower of Timber Frame Work, and is elevated about 108 feet above the level of high-water of ordinary spring-tides, and may be seen at the distance of about 16 nautic miles, and at lesser distances according to the state of the atmosphere. To a near observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness.

The Commissioners further give notice, that by Order in Council, dated the 3rd day of July last, the following Tolls are authorized to be levied in respect of the said Light-house, *viz* :—

For every Vessel belonging to the United Kingdom (the same not belonging to Her Majesty, her heirs or successors, nor being navigated wholly in ballast,) and for every Foreign Vessel privileged to enter the Ports of the United Kingdom upon paying the same Duties of Tonnage as are payable by British Vessels which may pass or derive benefit from the Light, the Toll of Two-Sixteenths of a Penny per Ton of the burthen of every such Vessel for every time of passing or deriving benefit therefrom, if on a Coasting Voyage.

For each time of passing or deriving benefit on an Oversea Voyage, One Penny per Ton for every such Vessel.

For every Foreign Vessel not navigated wholly in ballast, and not privileged in manner before specified, double the respective Tolls above set forth.

Which Tolls are liable to the following abatements on payment :—for a Coasting Voyage, Ten per cent ; for an Oversea Voyage, Twenty-five per cent.

By Order of the Board,

NORTHERN LIGHT-HOUSES.

Notice to Mariners.

WHALSEY SKERRIES, SHETLAND— TEMPORARY LIGHT-HOUSE.

THE Commissioners of Northern Light-houses hereby give Notice that they are at present engaged in erecting a Light-house on the Out-Skerries of Whalsey, on the Eastern Coast of the Shetland Isles, and that until the completion of the permanent Light-house, a Light will be shown from a temporary Tower, and will be exhibited for the first time on the night of Friday the 15th September, and every night thereafter, from the going away of day-light in the evening, till the return of day-light in the morning.

The following is a Specification of the Light-house, and the Appearance of the Light, by MR. DAVID STEVENSON, *Engineer to the Commissioners :—*

The Light-house is situated on the Eastern part of the Island of Gruna, in N. Lat. 60° 25′ 24″, and W. Long. 0° 44′ 20″, the Bound Skerry of Whalsey bearing from the Light-house about E. by compass. The outer or seaward extremity of the Bound Skerry is about half a mile or thereby from the site of the Light-house, so that Vessels in rounding the Light must give it a wide berth.

The Whalsey Light will be known to Mariners as a Revolving Light, which shows a bright White Light once in every minute.

The temporary Light will be exhibited from a Tower of Timber Frame Work, and is elevated about 108 feet above the level of high-water of ordinary spring-tides, and may be seen at the distance of about 16 nautic miles, and at lesser distances according to the state of the atmosphere. To a near observer, in favourable circumstances, the Light will not wholly disappear between the intervals of greatest brightness.

The Commissioners further give notice, that by Order in Council, dated the 3rd day of July last, the following Tolls are authorized to be levied in respect of the said Light-house, *viz* :—

For every Vessel belonging to the United Kingdom (the same not belonging to Her Majesty, her heirs or successors, nor being navigated wholly in ballast,) and for every Foreign Vessel privileged to enter the Ports of the United Kingdom upon paying the same Duties of Tonnage as are payable by British Vessels which may pass or derive benefit from the Light, the Toll of Two-Sixteenths of a Penny per Ton of the burthen of every such Vessel for every time of passing or

deriving benefit therefrom, if on a Coasting Voyage.

For each time of passing or deriving benefit on an Oversea Voyage, One Penny per Ton for every such Vessel.

For every Foreign Vessel not navigated wholly in ballast, and not privileged in manner before specified, double the respective Tolls above set forth.

Which Tolls are liable to the following abatements on payment:—for a Coasting Voyage, Ten per cent; for an Oversea Voyage, Twenty-five per cent.

By Order of the Board,

Supreme Courts may appoint, for the purpose of taking such acknowledgment, permanent or special Commissioners.

VII. It shall be lawful for any of Her Majesty's said Courts to appoint, by its order, under the seal of the Court, to be published in the *Government Gazette*, or otherwise as the Court shall direct, permanent Commissioners, either by name or office, and to appoint from time to time, under special Commissions, Special Commissioners, any one of whom shall be authorized and empowered, unless the Act is directed to be done before more than one, to take the acknowledgment of any deed by any married woman, who, by reason of her place of residence, or ill health, or other sufficient cause, shall be unable to make such acknowledgment before one of the Judges or other Officers described in the preceding Section.

Such married woman to be examined apart before Judge, &c. taking her acknowledgment.

VIII. Every such Judge, Officer, or Commissioner as aforesaid, before he shall receive the acknowledgment by any married woman of any deed to be acknowledged by her under this Act shall examine her apart from her husband, touching her knowledge of such deed, and shall ascertain whether she understands its object, and freely and voluntarily consents to the same, and unless she appears to understand its object, and freely and voluntarily to consent to such deed, he shall not permit her to acknowledge the same, and in such case, such deed, so far as relates to the execution thereof by such married woman, shall be void.

Judge, &c., shall sign a memorandum of acknowledgment—form of it.

IX. Every Judge, Officer, or Commissioner, taking such acknowledgment under this Act, shall, at the time of taking the same, sign a memorandum to be endorsed on or written at the foot or in the margin of such deed, which memorandum shall be to the following effect, namely, "this deed marked ( ) was this day produced before me and acknowledged by therein named, to be her act and deed, previous to which acknowledgment the said was examined by me separately and apart from her husband, touching her knowledge of the contents of the said deed and her consent thereto, and appeared to understand the same, and declared the same to be freely and voluntarily executed by her."

Deed of married woman to take effect from time of acknowledgment.

X. Every deed executed by a married woman and hereby required to be acknowledged, shall, so far as regards the interest of such married woman, take effect only from the time of the acknowledgment thereof.

Deed when presumed to have been duly acknowledged.

XI. It shall not be necessary for any person producing a deed so acknowledged in any Court of Justice, to prove the handwriting or authority of the Judge or other Officer, or the Commissioner taking such acknowledgment, but if such memorandum purports to have been in substance regularly made and signed, the deed shall be presumed to have been duly acknowledged by the party, until the contrary is shown.

Nothing in this Act to abridge the powers of alienation which a married woman possessed before.

Estate may be conveyed, &c., by deed, though not operating under the Statute of Uses.

No conveyance to operate tortiously.

XV. No conveyance of any kind shall operate to destroy, impair, or affect any estate or interest which the conveying party has no right to destroy, impair, or affect, or beyond the extent to which he may impair or affect the same.

XVI. It shall not be necessary in any deed relating to immoveable property situate within the said territories, to be executed after the passing of this Act, to add words of limitation to heirs, when the intention is to give the absolute interest to a person and his heirs general; but a gift, grant, or other conveyance of immoveable property to, or in favor of any person, shall be taken to give him the entire and absolute interest in the nature of an estate in fee simple, unless such construction is rendered inadmissible by the other contents of the deed; and when in any deed or will executed after the passing of this Act any property is given to a person for life or for other freehold interest, and afterwards in the same deed, or will, is limited to his heirs or heir special, the estates shall not unite, but the limitation to the heirs shall be a limitation of an estate to be taken by the heirs by purchase.

13*th.* The Purchaser of any Lot shall have the option of naming and purchasing, in immediate succession, any number of Lots, of the same Agency Opium, to the extent of Twenty-five Lots, and for the Lots so purchased, the Purchaser shall deposit for each Lot 25 per Cent. even money of the amount bid by him for the first Lot, or Rs. 1,000 for each Lot, and pay the same price per Chest as that for which he purchased his first Lot, provided always that there remain a sufficient number of Lots of that Opium to complete the said Twenty-five, but not otherwise

No. 2, Report of the Examination of such Opium.

16*th*. The Public are hereby informed, that in providing the Investment of the Behar and Benares Opium, for the year 1853-54, the same precautions have been taken as those which have been observed during past years, to have the Drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the Cakes, and to have the due proportion of Opium put into each Cake. An account of the weight of the Drug, when packed at Behar and Benares, and a Statement of the average weight of the Chests, indiscriminately taken, for the purpose of comparison, from the despatches, on arrival at Calcutta, may be seen on application at the Office of the Junior Secretary to the Board of Revenue ; and further, that four Chests of Behar and Benares Opium, which have been reserved from the Provision of the two preceding years, will be also shown to the Purchasers at the Exchange Rooms on the day of Sale, to enable them to judge of the state of preservation in which the Drug has kept.

17*th*. Any further information, respecting weight or quality of the Opium advertized for Sale, that may be desired by parties connected with the Trade, will, as heretofore, be furnished to them on application at the Office of the Board of Revenue, but in accordance with established usage, under no circumstances will the Board entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of Opium, or adulteration of the Drug which may be preferred on reference to Chests, after the Sale and delivery of the Opium for shipment.

18*th*. Article of the Convention above referred to.

"*Article 6th.* With regard to the Trade in Opium, it is agreed between the high contracting parties, that at each of the periodical Sales of that article, there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of Chests so applied for, provided that such supply shall not exceed Three Hundred Chests in each year, and the price for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical Sale, it being understood that, if the quantity of Opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much on reduction of the Three Hundred Chests hereinbefore mentioned. The requisitions for Opium as aforesaid are to be addressed to the Governor General at Calcutta, within thirty days after notice of the intended Sales shall have been published in the *Government Gazette*."
